Carpanini* Pietro Zampetti, 1971 "In His Image and Likeness" Kristin Zapalac, 2019-05-15 In this ground breaking book Kristin Zapalac brings together the methods of social intellectual and art history to achieve a new understanding of how the Protestant Reformation altered the terms of political discourse in a German free imperial city In Zapalac s view visual and verbal images many of them having their origins in conceptions of the sacred were more central to sixteenth century political thought within the city walls than was the rationalized language of law Drawing on a wealth of sources including bookbindings sermons wills frescoes decrees and woodcuts she traces the impact of religious change on the languages of judgment and authority used in the city of Regensburg and thereby sheds light on the nature of political thought in early modern Germany **Carlo Crivelli** R. W. Lightbown, Ronald Lightbown, 2004-01-01 Venetian artist Carlo Crivelli c 1430 1495 is a painter whose individuality of style and mastery of powerful line have fascinated many but whose life and art have remained enigmatic This absorbing book drawing on extensive research in Venice and the Marches the region of central Italy that Crivelli dominated artistically from 1468 until his death examines his paintings in depth and traces the fundamental influences of the Vivarini of Squarcione and Mantegna and later of Flemish art Ronald Lightbown eminent historian of Italian Renaissance art interweaves stylistic and iconographical analysis of Crivelli s work with historical and cultural background The author uncovers the reasons that led patrons to choose the saints that figured in Crivelli s altarpieces discusses the initiations of new cults and the devising of an iconography for them and demonstrates Crivelli s independence from clerical dictation in the symbolism of his still life pictures Imago Musicae, Volume III Tilman Seebass, 1987-06 Each volume in this series for the study of pictorial documents on musical subjects contains articles a catalog published in installments devoted to the complete documentation of specific sources and an annual bibliography that bridges the gap between the bibliographies in art history and musicology

Appropriating the Middle Ages T. A. Shippey, Martin Arnold, 2001 From early modern times rulers and politicians have sought to ground their legitimacy in ancient tradition which they have often invented or rewritten for their own purposes This issue of *Studies in Medievalism* presents a number of such cases Beyond Isabella Sheryl E. Reiss, David G. Wilkins, 2001-06-01 Who were the secular female patrons of art and architecture in Renaissance Italy beyond Isabella d Este This volume brings together fourteen essays which examine the important and often unrecognized roles aristocratic and bourgeois women played in the patronage of visual culture during the Italian Renaissance Themes include the significance of role models for female patrons the dynamics of conjugal patronage and the widespread patronage activities of widows Collectively the essays demonstrate how resourceful women expressed themselves through patronage despite the limitations of a highly structured patriarchal society Thus Isabella d Este was by no means unique as a secular female patron and the

studies offered here should encourage scholars to move further beyond Isabella in their assessment of women's patronage of art and architecture in Renaissance Italy
