Art and Artists of Twentieth-Century China Michael Sullivan, 2023-12-22 This visually stunning book focuses on the rebirth of Chinese art in the twentieth century under the influence of Western art and culture Michael Sullivan recognized throughout the world as a leading scholar of Chinese art vividly documents the conflicting pulls of traditional and Western values on Chinese art and provides 364 illustrations in color and black and white to show the great range of artistic expression and the historical processes that occurred within various movements A substantial biographical index of twentieth century Chinese artists is a valuable addition to the text Sullivan discusses artists and their work against China's background of oppression and relaxation despair and hope He expertly conveys the diverse and at times bizarre intertwining of Chinese cultural history and art during this century Included are the intense debates between traditionalists and reformers the creation of the first art schools and the birth of the idea shocking in ethnocentric China that art is a world language that obliterates all frontiers The scholarly traditions of classical Chinese painting the belated discovery of Western modernism the artistic upheaval under Communism and China's rethinking of the very nature of art all have a place in Sullivan's fascinating history Michael Sullivan has known many of the major figures in China's modern art movement of the 1930s and 1940s and has also gained the confidence of younger artists who rose to prominence following the 1979 Peking Spring This long awaited book richly documented and abundantly illustrated is a capstone to Sullivan's work and will be enthusiastically welcomed by art lovers everywhere *Modern Asian Design* D.J. Huppertz, 2018-02-22 Modern Asian Design provides a comprehensive introduction to the development of Asian design in the modern period both tracing historical threads and offering a theoretical framework within which to chart the history of design in Asia Rather than a singular Asian history this book presents a series of studies centred on trade routes colonial relationships regional networks and cross cultural exchanges Modern Asian Design builds on existing resources beyond design history in an effort to map the field focusing particularly on relations between Asia and the West and also across Asian design cultures Opening with a brief overview of trade and exchange networks in the 17th and 18th centuries the bulk of this study comprises analysis of the development of modern design in Asia during the later 19th and early 20th centuries a period of rapid modernisation The book's final two chapters bring these central ideas into a contemporary and highly relevant context *Desiring Hong Kong, Consuming South China* Eric Kit-wai Ma, 2011-12-01 This is a study of the complex and changing cultural patterns in Hong Kong's relationship with the neighbouring mainland From interviews TV dramas media representations and other sources it traces the fading of Hong Kong's once influential position as a role model for less developed mainland cities and explores changing perceptions as China grows in confidence and Hong Kong encounters a powerful nation culture in the mainland Part One Desiring Hong Kong examines the history of cross border relations and movements from the 1970s focusing on Hong Kong as

an object of desire for people in South China Part Two Consuming South China moves to the turn of the century when despite increased communications and a disappearing border Hong Kong is no longer a powerful role model it nevertheless continues to be a resourceful node in the chain of global capitalism This is a timely and provocative discussion of a topical issue and one written in an approachable style using lively case studies In contrast with the popular theorization that Hong Kong shows her true colour in the politics of disappearance this book argues that Hong Kong returns with a politics of reappearance in a dense network of fear and excitement differentiating and assimilating with the mainland at the same time It will be of interest to scholars and students in cultural studies political science sociology and cultural geography It will also have some general appeal to policy makers journalists and the concerned public
