### **The Environmental Imagination**

Dean Hawkes, 2019-11-07 The Environmental Imagination explores the relationship between tectonics and poetics in environmental design in architecture Working thematically and chronologically from the eighteenth century to the present day this book redefines the historiography of environmental design by looking beyond conventional histories to argue that the environments within buildings are a collaboration between poetic intentions and technical means In a sequence of essays the book traces a line through works by leading architects of the nineteenth and twentieth centuries that illustrate the impact of new technologies on the conception and realisation of environments in buildings In this a consideration of the qualitative dimension of environment is added to the primarily technological narratives of other accounts In this second edition the book has been substantially rewritten and restructured to include further research conducted in the decade since the first edition A number of important buildings have been revisited in order to extend the descriptions of their environments and studies

have been made of a number of newly studied significant buildings A completely new essay offers an environmental interpretation of Luis Barrag n s magical own house in Mexico City and the earlier studies of buildings by Peter Zumthor have been gathered into a single extended essay that includes a body of new research On the fiftieth anniversary of the publication of Reyner Banham s *The Architecture of the Well tempered Environment* the book concludes with a critical tribute to that seminal text *The Environmental Imagination* will appeal to academics and practitioners with interests in the history theory and technology of architecture [ARTnews](#) ,1956 *All the Art That's Fit to Print (And Some That Wasn't)* Jerelle Kraus,2008-11-06 From the New York Times s former Op Ed art director the true story of the world s first Op Ed page a public platform that prefigured the blogosphere Jerelle Kraus whose thirteen year tenure as Op Ed art director far exceeds that of any other art director or editor unveils a riveting account of working at the Times Her insider anecdotes include the reasons why artist Saul Steinberg hated the Times why editor Howell Raines stopped the presses to kill a feature by Doonesbury s Garry Trudeau and why reporter Syd Schanburg whose story was told in the movie *The Killing Fields* stated that he would travel anywhere to see Kissinger hanged as well as Kraus s tale of surviving two and a half hours alone with the dethroned outlaw Richard Nixon All the Art features a satiric portrayal of John McCain a classic cartoon of Barack Obama by Jules Feiffer and a drawing of Hillary Clinton and Obama by Barry Blitt But when Frank Rich wrote a column discussing Hillary Clinton exclusively the Times refused to allow Blitt to portray her Nearly any notion is palatable in prose yet editors perceive pictures as a far greater threat Confucius underestimated the number of words an image is worth the thousand fold power of a picture is also its curse Features 142 artists from thirty nations and five continents and 324 pictures gleaned from a total of 30 000 that stir our cultural political pot To discover what really goes on inside the belly of the media beast read this book Bill Maher In this overflowing treasure chest of ideas politics and cultural critiques Kraus proves that art is dangerous and sometimes necessarily so Publishers Weekly
