Framing the debate using case studies from across the region as well as China, Afghanistan and Burma and using a wealth of primary and secondary sources, this incisive volume takes a closer look at the organization and doctrines of the shadow armies and the government forces which fight the former. Arranged in a thematic manner, each chapter critically asks: Why stateless marginal groups rebel? How do states attempt to suppress them? What are the consequences in the aftermath of the conflict, especially in relation to conflict resolution and peace building? *Unconventional Warfare in South Asia* is a welcomed addition to the growing field of interest on civil wars and insurgencies in South Asia. **Bayoneting with Opinions** Bhopinder Singh, 2017-11-28 The following collection of articles are a reflection of the unique and inspiring perspective of a soldier who has both served in the Indian Army and also acted as the Military Secretary to two of the foremost Presidents of Independent India: KR Narayanan and A P J Abdul Kalam. These articles deal with matters of a political, military, economic and psychological nature, not simply through an intellectual lens but through the prism of experience. Interspersed with anecdotes from the personal life of the author, drawing upon all that he has witnessed and partaken, these words take the reader through a journey filled with dragons, fighter jets, newsroom warriors and even Sufi saints. They are a celebration of the human spirit and an invocation for the betterment of society and the world that we inhabit. Although the topics that find mention are often filled with suffering and bleakness, the element of hope is ever present. Veering away from the pitfalls of gross oversimplifications, the author delves deep into the topics he has chosen to write about, offering a nuanced and conscientious approach to a wide range of subjects. As comprehensive and varied as the topics are, they are also extremely relevant given the current hyper-nationalistic world view. The author seeks to remind his readers about the importance of critical engagement and multiple perspectives and appeals that the spirit of cooperative federalism be considered as paramount in these trying times.

**On the Trail of the Indo-Europeans: From Neolithic Steppe Nomads to Early Civilisations** Harald Haarmann, 2021-01-26 For more than 3000 years, Indo-European languages have been spoken from India through Persia and into Europe. Where are the origins of this language family? How and when did its different linguistic branches emerge? The renowned historical linguist Harald Haarmann provides a graphic account of what we know today about the origins of Indo-European languages and cultures and how they came to be so widely disseminated. In this impressive study, he succeeds in drawing connections between linguistic findings, archaeological discoveries and the latest research into human genetics and climate history. In addition to linguistic affinities, he shows the economic, social and religious concepts that the early speakers of Indo-European languages had in common all the way from the Eastern Mediterranean to the Indus. Particular attention is devoted to the processes of assimilation with pre-Indo-European languages.

*CURRICULUM REFORM IN PAKISTAN*

Amna Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country s problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don t they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why do the ulama which literally means those who possess knowledge ilm particularly of Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities
