Palaces Of The Sun King:

Palaces of the Sun King Andrew Zega, Bernd H. Dams, 2002 Depicted are several of the most influential structures in all of Western architecture such as the palace of Versailles and the magnificent lost complex at Marly which contemporaries deemed a veritable Paradise on Earth The authors give full attention to unrealized projects and depict completed structures not as they stand today if indeed they stand at all but as they were originally designed by the leading architects of the day
BOOK JACKET *Versailles* Catherine Pegard, Christophe Fouin, 2017-06-28 The Chateau de Versailles is a real photographic challenge because it is so huge there is an infinite number of possible points of view and they are never the same depending on the time of day the weather or the season There are always new photos to take to contemplate to dream of It is a demanding place that stimulates creativity and encourages you to look at it again and again Thomas Garnier Versailles is one of the most photographed places in the world but only four people have the privilege of being the Palace's official photographers They have uniquely unfettered access to the secrets that lie within outside and beneath this enormous domain where they spend their days and sometimes their nights Now for the first time they open their personal albums to offer a wealth of impressions and responses Two hundred and fifty previously unpublished photographs reveal a plethora of outstanding artworks the private apartments of Louis XIV Marie Antoinette and Madame de Pompadour magnificent galleries the delightful Orangerie and more all accompanied by texts that provide a lively introduction to daily life at the Chateau and its momentous history This is a monumental volume on a scale that matches the grandeur of the world-renowned Palace it celebrates

The 50 Greatest Castles and Palaces of the World Gilly Pickup, 2019-03-07 Castles and palaces around the world are structures of grandeur might and beauty From the flamboyance of Germany's fairy tale Neuschwanstein Castle to the gothic Dracula inspiring Bran Castle perched high in the craggy peaks of Romania's Carpathian Mountains Tokyo's Imperial Palace previously home to samurai warriors to Ireland's Blarney Castle where the gift of the gab will be granted to any who kiss its stone the world's castles and palaces are steeped in history and stories to tell Travel writer and journalist Gilly Pickup shares these stories providing a tour of 50 of the world's greatest castles and palaces filled with humour interesting facts and tips on how best to visit them *Isfahan and its Palaces* Sussan Babaie, 2008-07-14 Winner of the Houshang Pourshariati Iranian Studies Book Award 2009 This beautifully illustrated history of Safavid Isfahan 1501-1722 explores the architectural and urban forms and networks of socio-cultural action that reflected a distinctly early modern and Persian Shi'i practice of kingship An immense building campaign initiated in 1590-91 at the millennial threshold of the Islamic calendar 1000 A.H transformed Isfahan from a provincial medieval and largely Sunni city into an urban centered representation of the first Imami Shi'i empire in the history of Islam The historical process of Shi'ification of Safavid Iran and the deployment of the arts in situating the shifts in the politico-religious agenda of the imperial household informs Sussan Babaie's study of palatial architecture and urban environments of Isfahan and the earlier capitals of Tabriz and Qazvin

Babaie argues that since the Safavid claim presumed the inheritance both of the charisma of the Shi'i Imams and of the aura of royal splendor integral to ancient Persian notions of kingship a ceremonial regime was gradually devised in which access and proximity to the shah assumed the contours of an institutionalized form of feasting Talar palaces a new typology in Islamic palatial designs and the urban spatial articulation of access and proximity are the architectural anchors of this argument Cast in the comparative light of urban spaces and palace complexes elsewhere and earlier in the Timurid Ottoman and Mughal realms as well as in the early modern European capitals Safavid Isfahan emerges as the epitome of a new architectural urban paradigm in the early modern age

Palaces and Power in the Americas Jessica Joyce Christie, Patricia Joan Sarro, 2010-01-01 Ancient American palaces still captivate those who stand before them Even in their fallen and ruined condition the palaces project such power that according to the editors of this new collection it must have been deliberately drawn into their formal designs spatial layouts and choice of locations Such messages separated palaces from other elite architecture and reinforced the power and privilege of those residing in them Indeed as Christie and Sarro write the relation between political power and architecture is a pervasive and intriguing theme in the Americas Given the variety of cultures time periods and geographical locations examined within the editors of this book have grouped the articles into four sections The first looks at palaces in cultures where they have not previously been identified including the Huaca of Moche Site the Wari of Peru and Chaco Canyon in the U S Southwest The second section discusses palaces as stage sets that express power such as those found among the Maya among the Coast Salish of the Pacific Northwest and at El Tajín on the Mexican Gulf Coast The third part of the volume presents cases in which differences in elite residences imply differences in social status with examples from Pasado de la Amada the Valley of Oaxaca Teotihuacan and the Aztecs The final section compares architectural strategies between cultures the models here are Farfán Peru under both the Chimú and the Inka and the separate states of the Maya and the Inka Such scope and the quality of the scholarship make *Palaces and Power in the Americas* a must have work on the subject
