Palaeoecology Of Quaternary Drylands:

Palaeoecology of Quaternary Drylands Werner Smykatz-Kloss, 2004-02-20 The twelve contributions in this volume represent the results of a ten year interdisciplinary workshop on desert margins concerned with the geomorphological geochemical mineralogical sedimentological soil scientific characterisation of semi deserts in Spain Africa Arabia and China Desert sediments and soils as well as processes and characteristics of their formation are regarded from different geoscientific perspectives The subjects of research include the development of desert soils and landscapes the formation of alluvial loess swamp ores fulgurites and floodout sediments and focus on the reconstruction of palaeoecological events and changes A critical study of dating methods rounds off the book *Palaeoecology of Quaternary Drylands* Werner Smykatz-Kloss, Peter Felix-Henningsen, 2014-03-12 The twelve contributions in this volume represent the results of a ten year interdisciplinary workshop on desert margins concerned with the geomorphological geochemical mineralogical sedimentological soil scientific characterisation of semi deserts in Spain Africa Arabia and China Desert sediments and soils as well as processes and characteristics of their formation are regarded from different geoscientific perspectives The subjects of research include the development of desert soils and landscapes the formation of alluvial loess swamp ores fulgurites and floodout sediments and focus on the reconstruction of palaeoecological events and changes A critical study of dating methods rounds off the book **Gobero** Elena A. A. Garcea, 2013 This book presents the archaeological anthropological and environmental data collected during the 2005 and 2006 field seasons at Gobero **Climate Change in Deserts** Martin Williams, 2014-08-11 Reconstructing climatic changes in deserts and their margins at a variety of scales in space and time this book draws upon evidence from land and sea including desert dunes wind blown dust river and lake sediments glacial moraines plant and animal fossils isotope geochemistry speleothems soils and prehistoric archaeology The book summarises the Cenozoic evolution of the major deserts of the Americas Eurasia Africa and Australia and the causes of historic floods and droughts The book then considers the causes and consequences of desertification and proposes four key conditions for achieving ecologically sustainable use of natural resources in arid and semi arid areas Climate Change in Deserts is an invaluable reference for researchers and advanced students interested in the climate and geomorphology of deserts geographers geologists ecologists archaeologists soil scientists hydrologists climatologists and natural resource managers *Holocene Palaeoenvironmental History of the Central Sahara* Roland Baumhauer, Jürgen Runge, 2009-02-27 The environmental setting within the Central Sahara was subject to considerable changes during Late Quaternary mainly driven by major global climate variations although human impact increased constantly since Early Holocene Such global events can be reconstructed with the help of reliefs sediments and palaeosoils and their specific morphological chemical and mineralogical properties The project's focus is to ascertain new and established data on climate variations and associated palaeoenvironmental changes within the Central Sahara and to systematically collate and correlate them to results obtained

from the Afro Asian dry land belt and adjacent areas The joint analysis of Late Quaternary landscape development and present environmental conditions in the Central Sahara will result in the modelling of Late Pleistocene and Holocene palaeoenvironments emphasising various aspects This book will be of interest to all concerned with environmental changes in desert ecosystems in the past and at present and related development problems of Saharan countries especially Ecologists Botanists Earth scientists and Climatologists It will be valuable for advanced undergraduates and postgraduates as a reference for review and overview articles as well as a source of information for new original manuscripts on the topic of Late Pleistocene and Holocene landscape evolution in the lower latitudes of Africa Palaeobotanists Palynologists Geomorphologists and Quaternarists will equally find this edition useful for their work

Dryland Ecohydrology Paolo D'Odorico, Amilcare Porporato, 2006-01-09 Ecohydrology emerges as a new field of research aiming at furthering our understanding of the earth system through the study of the interactions between the water cycle and vegetation By combining the analysis of biotic and abiotic components of terrestrial ecosystems this volume provides a synthesis of material on arid and semiarid landscapes which is currently spread in a number of books and journal articles The focus on water limited ecosystems is motivated by their high sensitivity to daily seasonal and decadal perturbations in water availability and by the ecologic climatic and economic significance of most of the drylands around the world Conceived as a tool for scientists working in the area of the earth and environmental sciences this book presents the basic principles of eco hydrology as well as a broad spectrum of topics and advances in this research field The chapters collected in this book have been contributed by authors with different expertise who work in several arid areas around the World They describe the various interactions among the biological and physical dynamics in dryland ecosystems starting from basic processes in the soil vegetation climate system to landscape scale hydrologic and geomorphic processes ecohydrologic controls on soil nutrient dynamics and multiscale analyses of disturbances and patterns

The Archaeology of Drylands Graeme Barker, David Gilbertson, 2003-09-02 Many dryland regions contain archaeological remains which suggest that there must have been intensive phases of settlement in what now seem to be dry and degraded environments This book discusses successes and failures of past land use and settlement in drylands and contributes to wider debates about desertification and the sustainability of dryland settlement

Methods in Paleoecology Darin A. Croft, Denise F. Su, Scott W. Simpson, 2018-10-27 This volume focuses on the reconstruction of past ecosystems and provides a comprehensive review of current techniques and their application in exemplar studies The 18 chapters address a wide variety of topics that span vertebrate paleobiology and paleoecology body mass postcranial functional morphology evolutionary dental morphology microwear and mesowear ecomorphology mammal community structure analysis contextual paleoenvironmental studies paleosols and sedimentology ichnofossils pollen phytoliths plant macrofossils and special techniques bone microstructure biomineral isotopes inorganic isotopes 3 D morphometrics and ecometric modeling A final chapter discusses how to integrate results of these studies with

taphonomic data in order to more accurately characterize an ancient ecosystem Current investigators advanced undergraduates and graduate students interested in the field of paleoecology will find this book immensely useful The length and structure of the volume also makes it suitable for teaching a college level course on reconstructing Cenozoic ecosystems
