Hegel's Ladder H. S. Harris, 1997-03-10 A two volume set Print edition available in cloth only Awarded the Nicholas Hoare Renaud Bray Canadian Philosophical Association Book Prize 2001 From the Preface Hegel's Ladder aspires to be a literal commentary on Die Ph nomenologie des Geistes It was the conscious goal of my thirty year struggle with Hegel to write an explanatory commentary on this book and with its completion I regard my own working career as concluded The prevailing habit of commentators is founded on the general consensus of opinion that whatever else it may be Hegel's Phenomenology is not the logical Science that he believed it was This is the received view that I want to overthrow But if I am right then an acceptably continuous chain of argument paragraph by paragraph ought to be discoverable in the text

**Adorno's Poetics of Critique** Steven Helmling, 2011-10-20 Adorno's Poetics of Critique is a critical study of the Marxist culture critic Theodor W Adorno a founding member of the Frankfurt school and widely regarded today as its most brilliant exponent Steven Helmling is centrally concerned with Adorno's notoriously difficult writing a feature most commentators acknowledge only to set it aside on the way to an expository account of what Adorno is saying By contrast Adorno's complex writing is the central focus of this study which includes detailed analysis of Adorno's most

complex texts in particular his most famous and complicated work co authored with Max Horkheimer Dialectic of Enlightenment Helmling argues that Adorno s key motifs dialectic concept negation immanent critique constellation are prescriptions not merely for critical thinking but also for critical writing For Adorno the efficacy of critique is conditioned on how the writing of critique is written Both in theory and in practice Adorno urges a poetics of critique that is every bit as critical as anything else in his critical theory

Knowledge and politics      Politics and the Religious Imagination John H.A. Dyck, Paul S. Rowe, Jens Zimmermann, 2010-06-10

Politics and the Religious Imagination is the product of a group of interdisciplinary scholars each analyzing the connections between religious narratives and the construction of regional and global politics combining a set of theoretical and philosophic insights with several case studies that represent varied geographies and religious customs The past decade has seen increasing interest in the links between religion and politics and this edited volume seeks to take religion seriously as a motivator of action Few studies have attempted to bring together the multi disciplinary work in this burgeoning field of study and this work takes a global perspective using a variety of contexts including East West relations to analyze the following key themes the constructive and destructive hermeneutics of religious stories the relevance and importance of religion as a dominant political narrative the rise of new stories among groups as agents of change the way that religious narratives help to define and constrain the Other the manipulation of religious stories for political benefit This work argues that it is insufficient to judge the relationship of religion and politics through mere institutional or quantitative lenses and this collection proves that while this promise of the narrative part of the social imaginary has been recognized in political theory to a certain extent its influence in the realm of empirical political science has yet to be fully considered Combining the work of a wide range of experts this collection will be of great interests to scholars of politics philosophy religious studies and the literary influence of religion

*Sweet Reason* Susan Wells, 1996-07-15 In *Sweet Reason* Susan Wells presents a rhetorical model for understanding the diverse discourses of modernity Wells describes modernity as a system of texts which we are only now learning to read In order to comprehend how these texts organize our world she argues we must grasp how reason and desire interact to create meaning To this end Wells offers a rhetoric based on an understanding of meaning as intersubjectivity created through the work of language Wells elaborates this rhetoric of

intersubjectivity by drawing on both Jürgen Habermas's concept of communicative rationality and on Jacques Lacan's theory of desire affirming the significance of reason and desire for rhetorical studies From scientific articles to classroom altercations contemporary government hearings to Maigne's Essays Wells organizes several using rhetoric as an art and she shows how rhetoric operates in practice Susan Wells is associate professor of English at Temple University [The Radical Critique of Liberalism](#) Toulas Nicolacopoulos,2008 There are many books about liberalism but no defence of radical critique that treats liberal theory with the depth breadth and intensity of this work Rigorously examining Rawls Waldron Larmore and Kymlicka the book demonstrates that an adequate appreciation of the deep structural flaws of liberal theory presupposes the application of a critical philosophical methodology that has the power to reveal the systemic interconnections within and between the varieties of liberal inquiring practices [Charles Taylor](#) Mark Redhead,2002-03-11 Over the past four decades Charles Taylor's work as an intellectual historian epistemologist and normative political theorist has made him a leading figure in contemporary social philosophy In Charles Taylor Thinking and Living Deep Diversity Mark Redhead examines the problem of political fragmentation the problem of how to accommodate narrowly defined groups while promoting allegiance to a larger polity through an analysis of Taylor's thought and politics Redhead argues that Taylor's work evinces a gallant though unsuccessful confrontation with fragmentation that dramatically illuminates the political moral and epistemological tensions at play in a problem of political fragmentation Charles Taylor is both a major contribution to contemporary debates about liberalism group rights and multiculturalism as well as a path breaking study of the politics life and thought of Charles Taylor [Hans-Herbert Kögler's Critical Hermeneutics](#) Kurt C.
