The Logic of the Articles in Traditional Philosophy E.M. Barth, 2012-12-06 When the original Dutch version of this book was presented in 1971 to the University of Leiden as a thesis for the Doctorate in philosophy I was prevented by the academic mores of that university from expressing my sincere thanks to three members of the Philosophical Faculty for their support of and interest in my pursuits I take the liberty of doing so now two and a half years later First and foremost I want to thank Professor G Nuchelmans warmly for his expert guidance of my research A number of my most important sources were brought to my attention by him During the whole process of composing this book his criticism and encouragement were carried out in a truly academic spirit He thereby provided working conditions that are a sine qua non for every author who is attempting to approach controversial matters in a scientific manner conditions which however were not easily available at that time In a later phase I also came into contact with Professors L M de Rijk and J B Ubbink with both of whom I had highly stimulating discussions and exchanges of ideas The present edition contains some entirely new sections viz 1 9 IV 29 V 9 V 20 VII 14 iii iv VII 17 i VIII 22 IX 17 IX 19 X 9 and XI 8 Section X 9 was inspired by a remark made by Professor A

Volume 7, Tome I: Kierkegaard and his Danish Contemporaries - Philosophy, Politics and Social Theory Jon Stewart, 2016-12-05 The period of Kierkegaard's life corresponds to Denmark's Golden Age which is conventionally used to refer to the period covering roughly the first half of the nineteenth century when Denmark's most important writers philosophers theologians poets actors and artists flourished Kierkegaard was often in dialogue with his fellow Danes on key issues of the day His authorship would be unthinkable without reference to the Danish State Church the Royal Theater the University of Copenhagen or the various Danish newspapers and journals such as The Corsair Fødrelandet and Kjøbenhavns flyvende Post which played an undeniable role in shaping his development The present volume features articles that employ source work research in order to explore the individual Danish sources of Kierkegaard's thought The volume is divided into three tomes in order to cover the different fields of influence Tome I is dedicated to exploring the sources that fall under the rubrics Philosophy Politics and Social Theory With regard to philosophy Kierkegaard read the works of all the foremost Danish thinkers of the time and their German antecedents in particular Kant Schelling and Hegel While he was sympathetic to individual ideas offered by this tradition he was generally keen to criticize the German model of philosophy and to propose a new paradigm for philosophical thought that was more in tune with lived existence Kierkegaard also experienced the dynamic period in history that saw the great upheavals throughout Europe in connection with the

revolutions of 1848 and the First Schleswig War While it has long been claimed that Kierkegaard was not interested in politics recent research supports a quite different picture To be sure he cannot be regarded as a political scientist or social theorist in a traditional sense but he was nonetheless engaged in the issues of his day and in his works one can certainly find material that can be insightful for the fields of politics and social theory *System der theoretischen Philosophie: Logik oder Denklehre* 4.
