## **Philosophies And Cultures:**

*A Philosophical Defense of Culture* Shuchen Xiang, 2021-06-01 In *A Philosophical Defense of Culture* Shuchen Xiang draws on the Confucian philosophy of culture and Ernst Cassirer's philosophy of symbolic forms to argue for the importance of culture as a philosophic paradigm. A defining ideal of Confucian Chinese civilization, culture (wen) spans everything from natural patterns and the individual units that make up Chinese writing to literature and other refining vocations of the human being. Wen is thus the soul of Confucian Chinese philosophy. Similarly, as a philosopher who bridged the classical age of German humanism and postwar modernity, Cassirer implored his and future generations to think of humankind in terms of their culture and to think of the human being as a symbolic animal. The philosophies of culture of these two traditions, very much compatible, are of urgent relevance to our contemporary epoch. Xiang describes the similarity of their projects by way of their conception of the human being, her relationship to nature, the relationship of human culture to nature, the importance of cultural pluralism and the role of the arts in human life, as well as the metaphysical frameworks that gave rise to such conceptions. Combining textual exegesis in classical Chinese texts and an exposition of Cassirer's most important insights against the backdrop of post-Kantian philosophy, this book is philosophy written in a cosmopolitan mode, arguing for the contemporary philosophical relevance of culture by drawing on and bringing together two different but strikingly similar streams in our world tradition.

*Intercultural Philosophy* Ram Adhar Mall, 2000-01-12 The meeting of different cultures, philosophies, and religions today calls for an intensive and qualified discourse on the part of all concerned. Intercultural Philosophy seeks to develop such a discourse through a new orientation of thought that will allow for a discussion of all philosophical problems from an intercultural perspective. In this important new work, Ram Adhar Mall approaches the study of philosophy from a cross-cultural point of view, allowing for fundamental similarities and illuminating differences between cultures. In doing so, he develops a new concept of intercultural philosophy and applies it to various philosophical disciplines.

*Jewish Philosophy and Western Culture* Victor J. Seidler, 2007-11-28 This is one of the first textbooks to try to set the entire discipline of Jewish philosophy in its proper cultural and historical contexts. In so doing, it introduces the vibrant Jewish philosophical tradition to students while also making a significant contribution to inter-religious dialogue. Victor J. Seidler argues that the dominant Platonic tradition in the West has led to a form of cultural ethics which asserts false superiority in its relationships with others. He offers a critical reappraisal of the philosophical underpinnings of this Western Christian culture which for so long has viewed Judaism with hostility. Examining the work of seminal Jewish thinkers such as Philo, Buber, Mendelsohn, Herman Cohen, Leo Baeck, Levinas, Rosenzweig, and others, the author argues for a code of ethics which prioritises particular and personal moral responsibility rather than the impersonal and universal emphases of the Greek tradition. His provocative and original overview of Jewish philosophy uncovers a vital and neglected tradition of thought which works against the likelihood of a Holocaust recurring.

*Philosophy of Culture* Jacinto Choza,2021

**The Philosopher** Justin Smith-Ruii,2017-10-31 How the role of the philosopher has changed over time and across cultures and what it reveals about philosophy today What would the global history of philosophy look like if it were told not as a story of ideas but as a series of job descriptions ones that might have been used to fill the position of philosopher at different times and places over the past 2 500 years The Philosopher does just that providing a new way of looking at the history of philosophy by bringing to life six kinds of figures who have occupied the role of philosopher in a wide range of societies around the world over the millennia the Natural Philosopher the Sage the Gadfly the Ascetic the Mandarin and the Courtier The result is at once an unconventional introduction to the global history of philosophy and an original exploration of what philosophy has been and perhaps could be again By uncovering forgotten or neglected philosophical job descriptions the book reveals that philosophy is a universal activity much broader and more gender inclusive than we normally think today In doing so The Philosopher challenges us to reconsider our idea of what philosophers can do and what counts as philosophy

**In Praise of Philosophy** Alain Badiou, 2025-04-08 What kind of philosophy do we need for the 21st century To answer to this question Alain Badiou imagines a dialogue between Toc ras an earnest and engaging professor and various interlocutors from different countries and philosophical cultures John After from Britain Amantha from Greece B adj Akil from Senegal Xi La Pong from China and several others Their conversation takes readers on a playful journey through the history of philosophy framed by the five great questions that have preoccupied Alain Badiou democracy freedom universality language and being At the same time philosophy is presented not as a system or doctrine but as movement and dialogue The philosopher is not a solitary figure he is inseparable from his pupils his disciples and his adversaries It is only at the end of the journey that he arrives at the written stable forms of his work So we are dealing more with a play than a treatise more with dialogues than monologues more with a course than a book The obvious model is Plato s Socrates who in founding philosophy as a discipline ensured that it could be established anywhere in the world In praise yes of philosophy as the public creation of a thought that inventing itself and transporting itself anywhere speaking to anyone about anything invents the theatricalization of being
