Philosophische Weltanschauung:

Persönlichkeit und Weltanschauung Richard Müller-Freienfels,1923 Friedrich Ueberwegs Grundriss Der Geschichte Der Philosophie ... Friedrich Ueberweg,1923 Scheler's Phenomenology of Community Ernest W. Ranly,2012-12-06 My own serious study of Max Scheler began in 1958 when I presented a Master's thesis to St Louis University under the direction of Professor Vernon Bourke on Scheler's value theory Three years later when I returned to complete my doctorate work at St Louis University I returned also to the study of Max Scheler In the meantime several more volumes of the Gesammelte Werke had appeared several new translations of Scheler were published and the whole area of phenomenology began to be more favorably accepted by the American intellectual community My doctoral dissertation was on Scheler's theory of community under the expert and careful direction of Professor James Collins The bulk of the present work is a direct result of my work at St Louis University I have never regretted the time and effort spent on the study of Scheler He can be classified as nothing short of a genius not only in the breadth of his interests but also in the vitality unity and depth of his thought Most students of Scheler criticize his lack of unity I claim to find strong lines of inner consistency throughout his writings In the second place my study of Scheler has put me into contact with many of the most dominant intellectual influences of the day

Philosophie aus interkultureller Sicht / Philosophy from an Intercultural Perspective

,2023-08-14 Was Interkulturelle Philosophie ist und worin ihr besonderer Beitrag zur Philosophie im ganzen bestehen kann das kann sich allein in konkreten Ausarbeitungen erweisen Der vorliegende Band repräsentiert eine breitgefächerte Auswahl sowohl der unterschiedlichen Ansatzpunkte von denen interkulturelles Philosophieren ausgeht als auch der diversen Forschungsgebiete innerhalb der Philosophie die durch interkulturelle Fragestellungen angesprochen sind Die Vielfalt der historischen und systematischen Zugangsweisen reflektiert die Überzeugung da Interkulturelle Philosophie kein in sich geschlossenes Lehrgebäude ist und ein solches auch nicht werden kann sondern interkulturelles Philosophieren eine bestimmte Einstellung und eine Haltung darbietet die auf der grundlegenden Annahme beruht da die letzte philosophische Einsicht die Wahrheit im Singular von niemandem allein erlangt worden ist und auch nicht erlangt werden kann

Volume 4: Kierkegaard and the Patristic and Medieval Traditions Jon Stewart,2016-12-05 This volume features articles which employ source work research to trace Kierkegaard's understanding and use of authors from the Patristic and Medieval traditions It covers an extraordinarily long period of time from Cyprian and Tertullian in the second century to Thomas Kempis in the fifteenth Despite its heterogeneity and diversity in many aspects this volume has a clear point of commonality in all its featured sources Christianity Kierkegaard's relation to the Patristic and Medieval traditions has been a rather neglected area of research in Kierkegaard studies This is somewhat surprising given the fact that the young Kierkegaard learned about the Patristic authors during his studies at the University of Copenhagen and was clearly fascinated by many aspects of their writings and the conceptions of Christian religiosity found there With regard to the medieval tradition in addition to any

number of theological issues medieval mysticism medieval art the medieval church troubadour poetry and the monastic movement were all themes that exercised Kierkegaard during different periods of his life Although far from uncritical he seems at times to idolize both the Patristic tradition and the Middle Ages as contrastive terms to the corrupt and decadent modern world with its complacent Christianity While he clearly regards the specific forms of this Medieval appropriation of Christianity to be misguided he is nonetheless positively disposed toward the general understanding of it as something to be lived and realized by each individual *Formalism in Ethics and Non-formal Ethics of Values* Max Scheler,1973 A lengthy critique of Kant's apriorism precedes discussions on the ethical principles of eudaemonism utilitarianism pragmatism and positivism *Catalog of Copyright Entries. Copyright Office,1932 *Volume 5, Tome II: Kierkegaard and the Renaissance and Modern Traditions - Theology* Jon Stewart,2016-12-05 The long period from the Renaissance to the nineteenth century supplied numerous sources for Kierkegaard's thought in any number of different fields The present rather heterogeneous volume covers the long period from the birth of Savonarola in 1452 through the beginning of the nineteenth century and into Kierkegaard's own time The Danish thinker read authors representing vastly different traditions and time periods Moreover he also read a diverse range of genres His interests concerned not just philosophy theology and literature but also drama and music The present volume consists of three tomes that are intended to cover Kierkegaard's sources in these different fields of thought Tome II is dedicated to the wealth of theological and religious sources from the beginning of the Reformation to Kierkegaard's own day It examines Kierkegaard's relations to some of the key figures of the Reformation period from the Lutheran Reformed and Catholic traditions It thus explores Kierkegaard's reception of theologians and spiritual authors of various denominations most of whom are known to history primarily for their exposition of practical spirituality rather than theological doctrine Several of the figures investigated here are connected to the Protestant tradition of Pietism that Kierkegaard was familiar with from a very early stage The main figures in this context include the forefather of Pietism Johann Arndt the Reformed writer Gerhard Tersteegen and the Danish author Hans Adolph Brorson With regard to Catholicism Kierkegaard was familiar with several popular figures of Catholic humanism Post Tridentine theology and Baroque spirituality such as François Fénelon Ludwig Blosius and Abraham a Sancta Clara He was also able to find inspiration in highly controversial and original figures of the Renaissance and the early Modern period such as Girolamo Savonarola or Jacob Böhme the latter of whom was at the time an en vogue topic among trendsetting philosophers and theologians such as Hegel Franz von Baader Schelling and Hans Lassen Martensen **Japanese Phenomenology** Y. the Eternal in Man Max Scheler,2017-07-12 Max Scheler 1874 1928 decisively influenced German philosophy in the period after the First World War a time of upheaval and new beginnings Without him the problems of German philosophy today and its attempts to solve them would be quite inconceivable What was new in his philosophy was that he used phenomenology to investigate spiritual realities The subject of On the Eternal in Man is the divine and its reality the originality and non derivation of religious experience Scheler shows the characteristic quality of that which is religious It is a particular essence that cannot be reduced to anything else It is a sphere that belongs essentially to humankind without it we would not be human If genuine fulfillment is denied it substitutes come into being This religious sphere is the most essential decisive one It determines man s basic attitude towards reality and in a sense the color extent and position of all the other human domains in life It forms the basis for various views about life and thought Scheler was emphatically an intuitive philosopher In Scheler s work the break between being as the almighty but blind rage and value as the knowing but powerless spirit has become complete and makes of each human a split being Personal experiences may be reflected here The development of Scheler s work as a whole was highly dependent on his personal experiences It is this that gives Scheler s work its liveliness and its validity

Edith Stein is widely known as a historical figure a victim of the Holocaust and a saint but still unrecognised as a philosopher It was philosophy however that constituted the core of her life Today her complete writings are available to scholars and therefore her thinking can be properly investigated and evaluated Who is a human person And what is his or her dignity according to Edith Stein Those are the two leading questions investigated in this volume The answer is presented based on the complete writings of the 20th c phenomenologist and moreover compared to the traditional Christian understanding of human dignity present in the writings of the Church Fathers and the Doctors of the Church as well as Magisterial Documents of the Catholic Church In the final parts of the book the author shows how Stein s ideas are relevant today in particular to the ongoing doctrinal and legal debates over the concept of human dignity [Vom Gesichtspunkt der Phänomenologie](#) Rudolph Boehm, 1968-07-01
