Philosophy And Everyday Life:

101 Experiments in the Philosophy of Everyday Life Roger-Pol Droit, 2003-11-06 Roger Pol Droit's highly original book is a reassessment of our day to day engagement with life. In 101 short texts written with limpid elegance Droit invites us to reconsider our most ordinary actions as unexpected philosophical events: peeling an apple, trying to lie in a hammock, watching someone sleep, hearing your voice on an answering machine, playing with a small child, activities that when considered outside of their routine invite us to experience the familiar in startling new ways. Droit encourages us to go further: pretend to be an animal of your choice, create a wall with your hands, try to walk around your room in total darkness, spend time in the Underground and observe your oddity.

Grayling, 2010-08-10 A volume of philosophical essays by the London Times and Prospect columnist shares accessible insights into provocative questions about such topics as human self-deception, the relevance of beauty, and the relationship between goodness and happiness. Original.

Henri Lefebvre and the Theory of the Production of Space Christian Schmid, 2022-11-29 Shortlisted for the Deutscher Memorial Prize 2023. This book presents an encompassing detailed and thorough overview and reconstruction of Lefebvre's theory of space and of the urban. Henri Lefebvre belongs to the generation of the great French intellectuals and philosophers together with his contemporaries Michel Foucault and Jean Paul Sartre. His theory has experienced a remarkable revival over the last two decades and is discussed and applied today in many disciplines in humanities and social sciences, particularly in urban studies, geography, urban sociology, urban anthropology, architecture, and planning. Lefebvre together with David Harvey is one of the leading and most read theoreticians in these fields. This book explains in an accessible way the theoretical and epistemological context of this work in French philosophy and in the German dialectic Hegel, Marx, and Nietzsche and reconstructs in detail the historical development of its different elements. It also gives an overview on the receptions of Lefebvre and discusses a wide range of applications of this theory in many research fields such as urban and regional development, urbanization, urbanity, social space, and everyday life.

Understanding Everyday Racism Philomena Essed, 1991-07-25 While there are many studies of racism and racial inequality at the macro level of analysis, there has been little work done on the experience of everyday racism for black people. Philomena Essed's brilliant work fills this gap. The book compares contemporary racism in the US and the Netherlands.

Critique of Everyday Life: Foundations for a sociology of the everyday Henri Lefebvre, 1991 Henri Lefebvre's three-volume *Critique of Everyday Life* is perhaps the richest, most prescient work by one of the twentieth century's greatest philosophers. The first volume presented an introduction to the concept of everyday life. Written twenty years later, this second volume attempts to establish the necessary formal instruments for analysis and outlines a series of theoretical categories within everyday life, such as the theory of the semantic field and the theory of moments. The moment at which the book appeared, 1961, was significant both for France and for Lefebvre himself: he was just beginning his career as a lecturer in sociology at Strasbourg and then at

Nanterre and many of the ideas which were influential in the events leading up to 1968 are to be found in this critique In its impetuous often undisciplined prose the reader may catch a glimpse of how charismatic a lecturer Lefebvre must have been

interpretation of Sextus Empiricus based on his own view of what he calls the distinctive character of skepticism. It focuses on basic topics highlighted by this ancient philosopher concerning Pyrrhonism: a kind of skepticism named for Pyrrho, its concept, its principles, its reason, its criteria, its goals. In the first part, the author traces distinct phases in the life and philosophical development of a talented person from the pre-philosophical phase where philosophy was perceived as the solution to life's disturbing anomalies through his initial philosophical investigation in order to find truth where the basic experience is that of a huge disagreement between philosophers to the final phase where he finally recognises that his experience is similar to that of the skeptical school and adheres to skepticism. The second part is devoted to explain the nature of his skepticism. It presents an original interpretation for it claims that the central role in Sextus Neo-Pyrrhonism is played by a skeptical logos, a rationale or way of reasoning. This is what unifies and articulates the skeptical orientation. The skeptic goes on investigating truth but in a new condition for he is now tranquil and he has a skeptical method of his own. He has also acquired a special ability in order to balance both sides of an opposition which involves a number of different skills. Finally, the author examines the skeptical life generated by this philosophical experience where he lives a life without opinions and dogmas; it is an engaged life deeply concerned with our everyday actions and values. Readers will gain a deeper insight into the philosophy of Pyrrhonism as presented by Sextus Empiricus as well as understand the meaning of *ataraxia* and other important ideas of this philosophy.

[Metaphilosophy](#) Henri Lefebvre, 2016-07-12 Leading French thinker with his key work on philosophical thought. In *Metaphilosophy*, Henri Lefebvre works through the implications of Marx's revolutionary thought to consider philosophy's engagement with the world. Lefebvre takes Marx's notion of the world becoming philosophical and philosophy becoming worldly as a leitmotif, examining the relation between Hegelian Marxist supersession and Nietzschean overcoming. *Metaphilosophy* is conceived of as a transformation of philosophy, developing it into a programme of radical worldwide change. The book demonstrates Lefebvre's threefold debt to Hegel, Marx, and Nietzsche but it also brings a number of other figures into the conversation, including Sartre, Heidegger, and Adorno. A key text in Lefebvre's oeuvre, *Metaphilosophy* is also a milestone in contemporary thinking about philosophy's relation to the world.
