but this kind of philosophical interrogation is rarely carefully explored or even taken seriously in most primary and secondary school settings. However, introducing philosophy to young people well before they get to college can help to develop and deepen critical and creative thinking, foster social and behavioral skills, and increase philosophical awareness. **Philosophy in Schools: An Introduction** by Philosophers and Teachers is an invaluable resource for students and practitioners who wish to learn about the philosophy for children movement and how to work its principles into their own classroom activities. The volume provides a wealth of practical information, including how to train educators to incorporate philosophy into their daily lessons, best practices, and activity ideas for every grade level and assessment strategies. With contributions from some of the best practitioners of philosophy for children, **Philosophy in Schools** is a must-have resource for students of philosophy and education alike.

What Am I Doing with My Life? Stephen Law, 2019-08-08. Life philosophy based on Google searches. Have I found the one? Am I a psychopath? Should I be allowed to say whatever I want? Millions of people ask Google all sorts of questions, everything from the big and small. Responding to the biggest existential questions asked online and using the wisdom of Plato, Kant, Kierkegaard, and other philosophical greats, philosopher, academic, and all-round polymath Stephen Law undertakes the challenge and explores our modern-day concerns with tongue-in-cheek sagacity. No matter what you've googled in a midnight moment of existential despair, this book will answer all your burning questions.

Philosophy for a Better World Floris Van Den Berg, 2013-06-04. After reading this book, the world won't look the same. Imagine yourself confined to a wheelchair or living within the severely constricted lifestyle options of a woman in Saudi Arabia or being a homosexual in a homophobic society or a coffee farmer in Ethiopia or a cow on a factory farm or growing up impoverished in a developing country or living 500 years from now when future generations may be negatively impacted by what we do today. This compelling thought experiment invites readers to take a moral journey which in turn leads to an inconvenient evaluation of the way most of us live. The author proposes a new perspective called universal subjectivism which can be adopted by anyone regardless of religious or philosophical orientation. It takes into consideration the universal capacity for suffering and through raising awareness seeks to diminish that suffering and increase happiness. With consistent and crystal-clear moral reasoning, van den Berg shows that the world can be organized to ensure more pleasure, beauty, justice, happiness, health, freedom, animal welfare, and sustainability. He emphasizes that today, the near-term future is our greatest challenge, our affliction.

Trailblazers in Philosophy Jeremy Stangroom, 2014-12-15.
