Philosophy Literature And Politics Essays Honoring Ellis Sandoz:

Philosophy, Literature, and Politics Ellis Sandoz, 2005 Festschrift honoring Ellis Sandoz director of the Eric Voegelin Institute for American Renaissance Studies and editor of *Collected Works of Eric Voegelin* Essays explore philosophy literature and politics and focus on Xenophon Natsume Freud Robert Penn Warren and George Santayana Provided by publisher *Teaching in an Age of Ideology* Lee Trepanier, John von Heyking, 2012-10-16 This volume explores the role of some of the most prominent twentieth century philosophers and political thinkers as teachers It examines how these teachers conveyed truth to their students against the ideological influences found in the university and society Philosophers from Edmund Husserl and Hannah Arendt to political thinkers like Eric Voegelin and Leo Strauss and their students such as Ellis Sandoz Stanley Rosen and Harvey Mansfield are in this volume as teachers who analyze denounce and attempt to transcend ideology for a more authentic way of thinking What the reader will discover is that teaching is not merely a matter of holding concepts together but a way of existing or living in the world The thinkers in this volume represent this form of teaching as the philosophical search for truth in a world deformed by ideology **Politics of Memory in Postcommunist Europe**

Corina Dobos, 2010 Form of Politics John von Heyking, 2016-06-01 For statesmen friendship is the lingua franca of politics Considering the connections between personal and political friendship John von Heyking's *The Form of Politics* interprets the texts of Plato and Aristotle and emphasizes the role that friendship has in enduring philosophical and contemporary political contexts Beginning with a discussion on virtue friendship described by Aristotle and Plato as an agreement on what qualifies as the pursuit of good *The Form of Politics* demonstrates that virtue and political friendship form a paradoxical relationship in which political friendships need to be nourished by virtue friendships that transcend the moral and intellectual horizons of the political society Von Heyking then examines Aristotle's ethical and political writings which are set within the boundaries of political life and Plato's dialogues on friendship in *Lysis* and the *Laws* which characterize political friendship as festivity Ultimately arguing that friendship is the high point of a virtuous political life von Heyking presents a fresh interpretation of Aristotle and Plato's political thought and a new take on the most essential goals in politics Inviting reassessment of the relationship between friendship and politics by returning to the origins of Western philosophy *The Form of Politics* is a lucid work on the foundations of political cooperation Politics in Theology Gabriel R. Ricci, 2017-07-12 This new volume examines the relationship between religion and politics from a historical perspective Contributors address specific moments in which political governance intersects with religious ideals in dramatic ways These moments question the relationship between religious sentiments and political solutions and threaten to reorder the geopolitical landscape These essays discuss the tensions produced by secularism in an Islamic culture the influence of Catholic theology in workers political movements and how Hinduism has been transformed by the political process Also featured are essays that emphasize how civil religion coincides with constitutional order and how the drama of religious tolerance and legitimization of the power of Christian

hierarchy originated in the political power of the Roman emperor This volume is an interdisciplinary effort from up and coming and cutting edge scholars Contents include Something as Yet Unfinished Adam Stauffer Carl Schmitt Leo Strauss and the Necessity of Political Theology Grant N Havers Escape from Theology Peter Grosvenor The Persistence of Civil Religion in Modern Canada John von Heyking The Politicization of Hinduism and the Hinduization of Politics Jeffery D Long Ontology Plurality and Roman Catholic Social Teaching Roland Boer The Pseudo Isidorian Decretals and Church State Conflict Mary Sommar Thomas Aquinas on Providence Prudence and Natural Law Christopher S Morrissey The Mystical Body of Christ and French Catholic Action 1926 1949 W Brian Newsome and Secularism in Turkey Oya Dursun Ozkanca The Primacy of Persons in Politics John von Heyking, Thomas W. Heilke, 2013 What is the nature of political activity This question has vexed political thinkers since Plato wrote Statesman and remains challenging today Contemporary intellectual categories obstruct individuals from understanding politics as a distinct species of activity with its own realm of expertise modes and ends Instead politics is poorly directed by notions of achieving a complete or final end of affairs It tends to be conflated with other types of activities and realms of life including economics power seeking and law and procedure As a result politics often is untethered from morality Taking as their departure point the political philosophical analyses of German scholar Tilo Schabert the philosophical and empirical essays in this volume invite the reader to move beyond the sterile dichotomy of political activity as either pure will or as folded into a more manageable activity The contributors argue that politics is a highly creative human activity that eludes capture within a final and static analytical framework concluding that ethical political action is indeed part of the essence of politics ABOUT THE EDITORS John von Heyking professor of political science at the University of Lethbridge Alberta Canada is author of Augustine and Politics as Longing in the World and Friendship and Politics Essays in Political Thought and editor of two volumes in the Collected Works of Eric Voegelin series Thomas Heilke is professor of political science and director of the Center for Global and International Studies at the University of Kansas His many published works include From Ideologies to Public Philosophies and Great Ideas Great Schemes Political Ideologies in the 19th and 20th Centuries Besides the editors the contributors are Dan Avnon Toivo Koivukoski Andr s L nczi Erik Neveu Tilo Schabert David E Tabachnick and Alexander Thumfart PRAISE FOR THE BOOK This is precisely the sort of book that all political scientists should read Tilo Schabert s work and the elaboration of it in this volume offers theoretical tools for understanding the world of politics that are missing from the positivist approach Not only will this affirm the usefulness of political theory to non political theorists it might also remind political theorists themselves to re engage the empirical aspect of their own vocation This volume is a testament to the continued salience of political theory and should be required reading for all those who aspire to a career in the discipline Richard Avramenko assistant professor of political science University of Wisconsin Madison **Liberal Education, Civic Education, and the Canadian Regime** David W. Livingstone, 2015-10-01 Shortly after Canadian confederation Thomas D Arcy McGee proclaimed that education was an essential condition of our

political independence and that its role was to form citizens for the new regime Comparing this idea of education for citizenship or civic education to the modern goals of education Liberal Education Civic Education and the Canadian Regime explores the founders principles their sources and the challenges that threaten their vision for Canada The collection s first essays analyze the political thought of early Canadians such as Brown McGee Ryerson and Bourinot while later chapters examine enduring principles of liberal democracy derived from Aristotle de Tocqueville and Hobbes The final chapters bring the discussion forward to such topics as the decline of Canadian Catholic liberal arts colleges and the emerging role of our Supreme Court as a self appointed moral tutor Moreover as it deals with the changing roles of universities in contemporary Canada Liberal Education Civic Education and the Canadian Regime engages current debates about the value and place of a traditional liberal education and the consequences of turning our back on the concepts that inspired our founding leaders Considering whether Canada s early documents and traditions can revive past debates and shed light on contemporary issues this highly original collection presents education as an essential condition of our independence and asks whether current educational principles are threatening Canadians capacity for self government

The Philosopher and the Storyteller

Charles R. Embry, 2008-04-22 Throughout his philosophical career Eric Voegelin had much to say about literature in both his published work and his private letters Many of his most trenchant comments regarding the analysis of literature appear in his correspondence with critic Robert Heilman and through his familiarity with that exchange Charles Embry has gained extraordinary insight into Voegelin s literary views The Philosopher and the Storyteller is the first book length study of the literary dimensions of Voegelin s philosophy and the first to use his philosophy to read specific novels Bringing to bear a thorough familiarity with both Voegelin and great literature Embry shows that novels like myths philosophy and religious texts participate in the human search for the truth of existence and that reading literature within a Voegelinian framework exposes the existential and philosophical dimensions of those works Embry focuses on two key elements of Voegelin s philosophy as important for reading literature metaxy the in between of human consciousness and metalepsis human participation in the community of being He shows how Voegelin s philosophy in general is rooted in literary symbolic interpretation and therefore provides a foundation for the interpretation of literature And finally he explores Voegelin s insistence that the soundness of literary criticism lies in the consciousness of the reader Embry then offers Voegelinian readings that vividly illustrate the principles of this approach First he considers Graham Swift s Waterland as an example of the human search for meaning in the modern world then he explores the deformation and recovery of reality in Heimito von Doderer s long and complex novel The Demons and finally he examines how Flannery O Connor s The Violent Bear It Away mythically expresses the flux of divine presence in what Voegelin calls the Time of the Tale The Philosopher and the Storyteller unites fiction and philosophy in the common quest to understand our nature our world and our cosmos A groundbreaking exploration of the connection between Voegelin and twentieth century literature this book opens a new

window on the philosopher's thought and will motivate readers to study other novels in light of this approach How World Politics is Made Tilo Schabert, 2009 Dispelling the notion that François Mitterrand was reluctant to accept the reunification of Germany Schabert focuses on French diplomacy re-creating cabinet meetings and quoting communications between Mitterrand and other world leaders to show that Mitterrand's main concern was that a reunified Germany be firmly anchored in a unified Europe Provided by publisher *The Second Birth* Tilo Schabert, 2015-11-20 Most scholars link the origin of politics to the formation of human societies but in this innovative work Tilo Schabert takes it even further back to our very births Drawing on mythical philosophical religious and political thought from around the globe including America Europe the Middle East and China *The Second Birth* proposes a transhistorical and transcultural theory of politics rooted in political cosmology With impressive erudition Schabert explores the physical fundamentals of political life unveiling a profound new insight our bodies actually teach us politics Schabert traces different figurations of power inherent to our singular existence things such as numbers time thought and desire showing how they render our lives political ones and thus how politics exists in us individually long before it plays a role in the establishment of societies and institutions Through these figurations of power Schabert argues we learn how to institute our own government within the political forces that already surround us to create our own world within the one into which we have been born In a stunning vision of human agency this book ultimately sketches a political cosmos in which we are all builders in which we can be at once political and free **The Priority of the Person** David Walsh, 2020-08-31 In *The Priority of the Person* world class philosopher David Walsh advances the argument set forth in his highly original philosophic meditation *Politics of the Person as the Politics of Being* 2015 that person is the central category of modern political thought and philosophy The present volume is divided into three main parts It begins with the political discovery of the inexhaustibility of persons explores the philosophic differentiation of the idea of the person and finally traces the historical emergence of the concept through art science and faith Walsh argues that although the roots of the idea of person are found in the Greek concept of the mind and in the Christian conception of the soul this notion is ultimately a distinctly modern achievement because it is only the modern turn toward interiority that illuminated the unique nature of persons as each being a world unto him or herself As Walsh shows it is precisely this feature of persons that makes it possible for us to know and communicate with others for we can only give and receive one another as persons In this way alone can we become friends and in friendship build community By showing how the person is modernity's central preoccupation David Walsh's *The Priority of the Person* makes an important contribution to current discussions in both political theory and philosophy It will also appeal to students and scholars of theology and literature and any groups interested in the person and personalism **The Figure of Modernity** Tilo Schabert, 2020-09-21 Two words describe a modern world limits and limitless Traditionally humans recognized limits of their power Modernity meant a break Its protagonists aspired to bring worlds of their imagination into reality They taught a new anthropology Humans could ascend

to a God like status Schabert analyzes the history of the project and its result a civilization in a perennial crisis Symptoms of the crisis have been exposed today mostly in ecological terms Schabert takes his material from many fields philosophy cosmology natural sciences literature social studies economics architecture and political thought While modernity is endlessly disrupted a world beyond modernity can be traced especially in the modern theory of constitutional government Constitutional governments are formed by limitations within a civilization that is meant to have no limits What appears to be paradoxical has its own logic as Baruch Spinoza John Locke Montesquieu John Adams the Federalist Papers John Stuart Mill Walter Bagehot and Woodrow Wilson have shown Schabert carefully explicates their constitutional thought It realized the limits through which modernity holds a promise

Michel Houellebecq, the Cassandra of Freedom, 2021-11-15 On 7 January 2015 the day of the murderous attack on the offices of the Paris satirical weekly Charlie Hebdo the cover of the current issue showed a drunken Michel Houellebecq in a wizard s cap making two prophecies In 2016 I will lose my teeth In 2022 I will observe Ramadan Houellebecq had previously described Islam as the stupidest of religions But on that day as terrorists sought to bring the justice of Islam to blasphemers for whom Michel Houellebecq was insufficiently anti Islamic Houellebecq s novel Submission depicting the democratic conquest of France by the Muslim Brotherhood was published by Flammarion In this collection an international cast of authorities on politics and literature discuss the meaning and unprecedented impact of Michel Houellebecq s Submission

Semiotics of Friendship Claus Emmeche, 2025-01-27 A friend should be able to be an attentive listener which made semiotician Roland Barthes wonder in his intriguing dictionary of love cannot friendship be defined as a space with total sonority This volume takes on the encyclopedic task in the sense of Umberto Eco where an encyclopedia is a very complex sign to explore friendship in detail not only as a form of love but in all its complexity as a bond that connects people and forms communities Semiotics the study of signs and meaning making is used alongside insights from a wide range of friendship studies to create a far reaching intellectual resonance or sonority around friendship as a central human experience As a study of the significance of friendship it presents findings from friendship research across the globe enabling new ways of thinking about friends It includes key concepts from semiotics sociology anthropology and other fields briefly explained major models of friendship from antiquity to contemporary societies proverbs and sayings about friendship from Africa America Asia and Europe stories about famous or forgotten friends from mythology fiction and real history summaries of research on friendship from selected academic disciplines bibliographical references for further studies

The Orbán Regime András Körösiényi, Gábor Illés, Attila Gyulai, 2020-04-15 This book gives the first comprehensive and theoretically substantiated political science account of the Orb n regime in English It argues that Viktor Orb n s regime building and reconstructive leadership is more than just an example of hybridisation a successful populist appeal or a backlash against the earlier neoliberal hegemony in Central Europe It unfolds the major traits of the Orb n regime and argues that it provides a paradigmatic case of the Weberian model of plebiscitary leader democracy PLD

Beyond explaining the backslide of liberal democracy in Hungary the book aims at two additional contributions of wider significance First by applying the concept of PLD to the Hungarian case it reveals that the authoritarian elements are products of an endogenous drive of modern mass democracy Second through the glass of PLD the Orb n regime can be seen as an experimental lab of global trends like mediatisation and personalisation of politics populist style the deconsolidation of liberal democratic order and what is often labelled as post truth politics This book will be of key interest both to scholars and students of Hungary Post communist and Central and East European politics and to those interested in populism democratisation and democratic deconsolidation as a broader trend in a variety of countries *Reforming Europe*

Constantine Arvanitopoulos,2010-04-06 In the 2009 elections the European centre right emerged victorious thus affirming its political domination in contemporary European politics The aim of this book is not to provide an analysis of the factors that contributed to the EPP s political prevalence Instead it is to help this large political family maintain its vigour of political thought and policy prescriptions The book provides a forum for prominent centre right thinkers to debate the major European problems of our times with particular emphasis on the management of the financial crisis and the next institutional steps regarding the European integration project It assembles the views of politicians academics and think tank fellows from different national backgrounds and dissimilar ideological perspectives who unfold their vision for Europe s future Overall the book attempts to both highlight and stimulate the centre right contribution to the discussion of Europe s main contemporary challenges **From Big Bang to Big Mystery** Brendan M. Purcell,2012 Everyone knows about the mystery of the Big

Bang what started it This book is about the other creation mystery where did human beings in particular come from It traces the material part of our origins from the Big Bang through evolution including the almost 7 million year hominid sequence up to the first humans in Africa over 150 000 years ago That data doesn t seem to explain what paleontologists and archaeologists call the Big Bang of Human Consciousness In his fascinating accessible and thorough study renowned priest and academic Brendan Purcell shows the complementarity that scientists theologians and philosophers bring to a deeper understanding of the mystery of human existence and human consciousness *Essential Writings* Chiara Lubich,2007 Most

comprehensive compendium of writings by Chiara Lubich one of the most influential Catholic women of today **Selected Correspondence 1950-1984** Eric Voegelin,2007 Voegelin s Munich years while not without controversy can be seen as the most successful time in his life as well as his most creative and prolific as a political philosopher During that time Voegelin worked on volume IV of *Order and History* and the letters written to successive directors of the Louisiana State University Press as well as to friends and colleagues give a vivid account of the changing nature of this seminal project Voegelin s letters written between 1969 and 1984 provide compelling evidence of the intellectual vigor that characterized his work throughout his life and continued virtually undiminished until the last weeks before his death Voegelin s realism his sharp wit and his superbly developed sense of irony remain evident in the correspondence throughout all these years *The Collected*
