Philosophy Modern And Postmodern:

Philosophy, Modern and Postmodern Raghwendra Pratap Singh, 1997-08-01 A History of Western Philosophy Norman Geisler, 2016-11-27 One can see farther when standing on the shoulders of giants The great philosophers of antiquity are truly the intellectual giants bridging the abyss between the past and the present Unfortunately the thoughts of the earlier thinkers were often conflicting and occasionally incorrect Nevertheless we can often learn from the errors of these great minds There is a lot of truth to be learned from a significant error Great minds produce great thoughts and great thoughts are worth thinking again Our mind is enriched by following in the intellectual footsteps of those that have gone before us Philosophy provides a basis of thought in virtually every other discipline For example one cannot truly know science without understanding the philosophy of science Nor can one know theology without understanding the philosophical principles that it is built upon The study of the history of thought is a worthy and rewarding enterprise all within itself You could not spend your intellectual efforts more profitably than in the study of the unfolding of the history of great ideas We do not live in a vacuum thus we must not think in a vacuum With the preparation of the thoughts of those that have gone before us we can influence the thoughts of those that come after us Modern/Postmodern Peter V. Zima, 2010-08-05 Modern Postmodern Society Philosophy Literature offers new definitions of modernism and postmodernism by presenting an original theoretical system of thought that explains the differences between these two key movements Taking a contrastive approach Peter V Zima identifies three key concepts in the relationship between modernism and postmodernism ambiguity ambivalence and indifference Zima defines modernism and postmodernism as problematics as opposed to aesthetics stylistics or ideologies Unlike modernism which is grounded in an increasing ambivalence towards social norms and values postmodernity is presented as an era of indifference i e of interchangeable norms values and perspectives Taking an historical interdisciplinary and intercultural approach that engages with Anglo American and European debates the book describes the transition from late modernist ambivalence to postmodern indifference in the contexts of philosophy literature and sociology This is the ideal guide to the relationship between modernism and postmodernism for students and scholars throughout the humanities **Hartshorne, Process Philosophy, and Theology** Robert Kane, Stephen H. Phillips, 1989-01-01 This book provides an introduction to Hartshorne s contributions to contemporary philosophy and theology It also covers some of the current controversies in philosophy and theology that Hartshorne s contributions have generated The opening chapter is a lucid and penetrating introduction to Hartshorne s thought Some of the following chapters break new ground on issues that have concerned Hartshorne throughout his career the nature and methods of metaphysics the existence and nature of God and the place of religion and metaphysics in the modern world Many chapters survey the current state of controversies on those topics Other chapters relate Hartshorne s work to other traditions and to trends in contemporary philosophy to postmodernism classical Western theism Indian philosophy analytical philosophy and American pragmatism **Tradition in**

the Ethics of Alasdair MacIntyre Christopher Stephen Lutz, 2004-01-01 Tradition in the Ethics of Alasdair MacIntyre presents a stimulating intellectual history and expertly reasoned defense of this towering figure in contemporary American philosophy Drawing on interviews and published works Christopher Lutz traces MacIntyre's philosophical development and refutes the criticisms of the major thinkers including Martha Nussbaum and Thomas Nagel who have most vocally attacked him Permanently shifting the debate on MacIntyre's oeuvre Lutz convincingly demonstrates how MacIntyre's neo Aristotelian ethical thought provides an essential corrective to the contemporary discussions of relativism and ideology while successfully drawing on the objectivity of Thomistic natural law

Navigating Postmodern Theology Michael J. McGravey, 2023-07-03 Theology in the postmodern era has encountered various cultural and narrative shifts which have helped shape the Roman Catholic Church and Christianity at large Negatively the Church has been affected by external factors e g globalization immigration emigration increased access to technology etc and internal struggles e g reduced church attendance an aging population etc Positively postmodernity has ushered in a return to religion through new philosophical and theological ideas e g phenomenology existentialism post metaphysics etc This book aims to contribute to the ongoing postmodern concerns addressed in the cultural and narrative shifts by focusing on the work of Jean Luc Marion and Gianni Vattimo The emphasis of this project focuses on the use of metaphysics as the foundational tool of theology and its corresponding limitations while also addressing the Christian virtue of caritas Addressing this attribute of Christianity this project observes the possibility of a return to religion one that reflects the postmodern exploration of religion by the several philosophers addressed herein While Michael J McGravey avoids offering a reconstruction of theology or more specifically ecclesiology he aims to re establish the importance of philosophy metaphysics and caritas in the postmodern context

Modern/Postmodern Silvio Gaggi, 2015-08-10 Silvio Gaggi's survey of the vast terrain of twentieth century arts and ideas is unique not only for its scope but also for the clarity and cohesiveness it brings to wide ranging seemingly disparate works By identifying underlying epistemological aesthetic and ethical issues Gaggi draws connections among such modern and postmodern masterpieces as Pirandello's and Brecht's theater Fowles's and Barth's fiction Warhol's paintings Godard's and Bergman's films and Derrida's literary theory Modern Postmodern begins with a discussion of the profound skepticism about traditional beliefs and about our ability to know the self that lies at the heart of both modernism and postmodernism Gaggi identifies the modernist response to this doubt as the rejection of mimesis in favor of a purely formalistic or expressionistic art The postmodern response on the other hand is above all to create art that is self referential concerned with art itself the history of art or its processes Drawing from the work of Pirandello and Brecht paradigms that can be applied to many different art works Gaggi emphasizes how these works from diverse media relate to one another and what their relationships are to the contemporary artistic and philosophical climate He concentrates on the works themselves but examines theory as a parallel manifestation of the same obsessions that inform recent literature and art Gaggi asks finally if self referential art can also be politically and

ethically engaged with the reality outside it He concludes that the postmodern obsession with language narrativity and artifice is not necessarily a decadent indulgence but is at its best an honest inquiry into the problems questions and paradoxes of language Modern Postmodern is a lively approach to postmodern art that will interest all students and scholars of contemporary art and literature

Postmodern Philosophy and Law Douglas E. Litowitz,1997 The author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably Friedrich Nietzsche Michel Foucault Jacques Derrida Francois Lyotard and Richard Rorty He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system Annotation copyrighted by Book News Inc Portland OR

Contemporary Reflections on Business Ethics Ronald F. Duska,2007-01-15 Ronald F Duska who began his career as a philosopher has over the last 30 years established himself as one of the leading scholars in the field of business ethics In the past decade he has concentrated on ethics in the financial services industry because of his affiliation with The American College in Bryn Mawr Pennsylvania an institution that specializes in educating financial services professionals This affiliation gives Duska regular interaction with producers managers and top executives in the financial services industry This book includes a selection of the articles Duska has written throughout the years on ethics business ethics teaching ethics agency theory postmodernism employee rights and ethics in accounting and the financial services industry The articles reflect Duska s underlying philosophical concerns and their application to the real world challenges of practitioners an overarching method that might be called an Aristotelian common sense approach to ethical decision making

Is the Sublime Sustainable? A Comparative Aesthetics Approach to the Sublime Peter L. Doeblner,2023-03-13 Is the Sublime Sustainable introduces the key points of debate around the sublime while opening new avenues for future inquiry especially through its comparative aesthetics approach In it you will discover how thinking on the sublime emerged historically and then engage with the recent critical scholarship on the topic including from the fields of theology philosophy and literature The critiques of the sublime are then expanded in dialogue with perspectives from Japanese aesthetics and art shaping the argument that what is needed today is a sublime that enriches human lives by cultivating profound participative relationships

Middle Range Theories Sandra J. Peterson,Timothy S. Bredow,2009 This groundbreaking text is the most complete and detailed book devoted to middle range theories and their

applications in clinical nursing research The book thoroughly explains the process of selecting an appropriate theory for a particular nursing research study and sets forth criteria for critiquing theories Each chapter includes examples of research using middle range theories definitions of key terms analysis exercises reference lists and relevant Websites Instruments are presented in appendices New features of this edition include analysis questions for all theories new chapters on learning theory and physiologic middle range theories Part introductions to frame the selection process for each middle range theory chosen and a glossary of terms History and Philosophy of Science Heinz Duthel,2008 **Religious Philosophy as**

Multidisciplinary Comparative Inquiry Wesley J. Wildman,2010-11-05 What can philosophy contribute to the study of religion This book argues that the study of religion needs philosophy in the form of multidisciplinary comparative inquiry Contradicting the current tendency to regard philosophical reflection and the academic study of religion as independent endeavors best kept apart Wesley J Wildman brings them together offering a broader vision than that of traditional philosophy of religion and surmounting many of its difficulties His newer conception of religious philosophy is well suited to the modern multicultural secular university Through multidisciplinary comparative inquiry religious philosophy allows for a variety of approaches from historical and analytical work to evocative description and theoretical evaluation of truth claims and both secular and religious thinkers participate The tasks and varieties of religious philosophy as they arc across the world s religions and philosophies are discussed along with religious philosophy s modern and postmodern contexts Wildman s thoughtful and thought provoking book will be essential reading for all those concerned with the study of religion present and future **Negotiating Postmodernism** Wayne Gabardi,2001 Joining the modern postmodern debate this book

suggests that the polarizing polemics of the radical postmodernists who once dominated the discussion have given way to a new critical postmodernism characterized by dialogue accommodation and synthesis A comprehensive survey Negotiating Postmodernism also marks the arrival of a powerful critical presence on the scene one that advances the idea of a late modern postmodern social and cultural transition **Modernity and Politics in the Work of Max Weber** Charles

Turner,2002-11-01 This rich and assured book is a major contribution to the growing Weber industry It reveals Weber s theory of modernity in a new and unexpected light Christianity and the Outsider James W. Geiger,2012-10-08 What does Christianity have to say about the salvation of the African tribesman who died before the missionaries arrived and the great sorrow of the Messianic Jew who grieves for family and friends who did not or will not acknowledge his Jesus as their Messiah C S Lewis said these outsiders represent the scandal of exclusivity Jim Geiger is a Christian insider and fully committed to the exclusivity of Christ s atonement However he is suggesting an expanded Christology where The constant speed of light in $E=mc^2$ corroborates the constant Christ of Heb 13:8 Special and general relativity model special and general revelation The Christ of general revelation represents the hope of salvation for some of Christianity s outsiders

Secularism Mike King,2007-11-29 Spirituality is a difficult subject in the modern world Everywhere from popular media

to the university from the bookshelf to the dinner table religions are derided or marginalised and public figures such as Richard Dawkins set upon anyone who admits to a belief in God It seems that science and religion are fundamentally at odds and that a mutual respect is unacceptable to either in their parallel pursuit of truth Yet the majority of Enlightenment authors engaged with both science and spirituality and did not lose their faith Today we tend to see these authors as not having applied full scientific rigour to their religious beliefs but are we correct in dismissing this aspect of their lives so easily In *Secularism* Mike King examines the elements of religion philosophy and science which have contributed to an almost total disavowal of spirituality by contemporary western intellectuals He engages with a wide range of thinkers including Pythagoras Marx Spinoza Darwin and Nietzsche and incorporates detailed studies of a variety of spiritual leaders some of whom readers are unlikely to have considered in this way before to uncover why the western world no longer has any interest in devotion or accords it any respect Authority and the Liberal Tradition Robert Heineman, 2020-02-17

Authority and the Liberal Tradition critically describes the historical foundations of modern liberalism implicitly analyzing the status and effectiveness of American democracy Heineman examines contemporary liberal ideology which he argues undermines the normative basis of social stability that was an important element in the classical liberal tradition Heineman shows how American government has become hostage to ideology to the advocacy of interest group politics Placing major Anglo American thinkers from Hobbes to Rorty in their social contexts Heineman traces the liberal intellectual perspective as it has evolved from the integration of culture and philosophy He illustrates how the disjunction of theory and culture now weakens liberal thought as a foundation for effective government Instead he proposes returning to a philosophical position that consciously relies on community traditions and values which can support democratic ideology Authority and the Liberal Tradition is especially timely at this juncture In American history as fragmentation of the national policy process threatens government's ability to cope with major problems This second edition includes two chapters of entirely new material Liberal Ideology in a Conservative Nation and The Dialogue of Modern Liberalism It will be of interest to political scientists social theorists and philosophers **Continental and Postmodern Perspectives in the Philosophy of Science** Babette E.

Babich, Debra B. Bergoffen, Simon Glynn, 1995 Examines the implications of recent continental epistemology challenging the relationship between traditional analytic continental and postmodern understandings of science showing that the challenging circumstances of the scientific project are transforming the role and meaning of science in the modern postmodern world
