**Philosophy and Its Others** William Desmond, 1990-07-05 Philosophy and its Others responds to the widespread sense that philosophy must renew its intellectual community with other significant ways of being and mind. The author articulates philosophy's community of mind with the aesthetic, the religious, and the ethical without losing any of its own distinctive voice. He develops an original and constructive position between these extremes: the Hegelian extreme which reduces the plurality of others to a dialectical totality and the Wittgensteinian and deconstructive options that celebrate plurality but without a proper sense of the connectedness of philosophy and its others.

**The Intimate Strangeness of Being** William Desmond, 2012-04-09 This book explores the contested place of metaphysics since Kant and Hegel, arguing for a renewed metaphysical thinking about the intimate strangeness of being.

*Philosophy, Freedom, Language, and their Others* Elias Kifon Bongmba, Robert Manzinger, 2023-07-27 Kantian and Hegelian conceptions of freedom guide this collection of essays that engage with the linguistic turn in continental philosophy to explore contemporary interpretations of freedom. Using a broad approach to the tradition of German Idealism, this volume considers its modern recasting of philosophy as a rigorous thinking practice with profound implications for individual and communal praxis and wellbeing.

*Philosophy Freedom Language and its Others* further cultivates and demonstrates the freedom to think and engage philosophy in a critical dialogue with other fields of inquiry. This method is exemplified in the philosophy and teaching of Professor Jere P. Surber, whom this book honors by using his interdisciplinary method as a springboard for new understandings of freedom in contemporary life. Expert scholars working in the philosophy of language, continental philosophy of religion, ancient philosophy, critical theory, and ethics engage seminal thinkers on freedom, including Plato, Kant, Hegel, Kierkegaard, and Deleuze, to provide a diverse range of perspectives on freedom. In so doing, they address the complex legacy of philosophical freedom across subjects from contemporary media and political culture to literary imagination and the politics of Nelson Mandela.

*Being and Dialectic* William Desmond, Joseph Grange, 2000-07-20 Diverse voices explore the possibility of doing metaphysics in light of contemporary critiques.

Being and the Between William Desmond, 1995-03-30 As Plato told us long ago, the human being is neither a god nor a beast but someone in between. Philosophy too is in between. How do we philosophize in between? What is the being of the between? This book answers the question in the most comprehensive terms possible. It offers an original understanding of metaphysical thinking and the fundamental senses of being: namely, the univocal, equivocal, dialectical, and metaxological senses. Part I of *Being and the Between* focuses on the nature of metaphysics; the question of being in terms of the above fourfold sense. Part II develops a metaphysics of being as between, relative to our basic perplexities concerning origin, creation, things, intelligibilities, selves, communities, being true, being good. The book calls for a generous hermeneutical rethinking of the philosophical tradition. Major figures and positions are reinterpreted. Desmond addresses the issue common since Hegel and endemic since Heidegger concerning the end of metaphysics. Granting a proper

understanding of the between Desmond believes that we need a resurrection of metaphysics where the old perplexities ever new stand before us again      **F. C. Baur's Synthesis of Böhme and Hegel** Corneliu Simut, 2014-10-16 In this book Professor Simu shows how Christian theology started to be understood as a Gnostic philosophy of religion in the thought of the 19th century scholar F C Baur Although Baur was seen traditionally as a theologian and biblical exegete Simu argues that he was in fact a philosopher of religion and it was his philosophical reading of Christian theology that informed his biblical preoccupations Specifically Baur s perspective on Christian theology was heavily influenced by Jakob Böhme s esoteric theosophy and Hegel s religious philosophy in some key issues such as creation Lucifer dualism and the connection between spirit and matter coupled with that between philosophy and religion      *Philosophies of Christianity* Balázs M. Mezei, Matthew Z. Vale, 2020-01-09 This book examines key issues in Christianity from various philosophical points of view It brings together European authors with American theologians and philosophers on an interconfessional basis Coverage combines analytical and continental approaches in a unique way This comprehensive innovative analysis will help readers gain a deep understanding into a wide range of philosophical approaches to basic Christian problems The novelty of this volume is the unique combination of philosophical and theological approaches It merges these points of view in a rational manner which characterizes segments of Anglo American and Continental thought The scope of the work covers historical issues contemporary problems of atheism and also novel approaches to fundamental notions Readers will learn about questions surrounding the French New Theology Žižek s philosophical sources the notion of revelation and much more As a work produced by European and United States scholars this volume is an important contribution not only to the dialogue between various academic cultures but also to the expression of their fruitful cooperation which grounds and inspires serious academic research The readership of this work begins at an undergraduate level and reaches up to academic researchers and professors interested in borderline problems between philosophy and theology history and contemporary issues

Being Human in the Ultimate , 2022-03-16 For John M Anderson philosophy as the love of wisdom is a concern for what is ultimate The essays in this volume take to heart this understanding of philosophy and are therefore responses to the ultimate The first four essays by Kaelin Schrag Baillif and Johnstone deal with Anderson s own account of ultimacy as it is presented in his reflections on the aesthetic occasion the experience of the sublime on freedom and on insight The concern for what is ultimate is formulated differently by each of the other eight essays Desmond articulates ways of our encounter with the ultimate by means of what he calls essential perplexity Gendlin reflects on Aristotle s characterization of thinking as an activity that is ultimate Biemel and Lingis present death as an aspect of the ultimate Hersch sees our loss of meaning and value as the result of our refusal of finitude and thus of our denial of the ultimate which reveals itself in this finitude Ginsberg initiates us into the ultimacy of the human encounter that is dialogue Verene speaks of the ultimate through his account of the fool For Kockelmans philosophy unlike science deals with what is as it manifests itself in our encounter with our lived

world which is a source of meaning and in that sense an ultimate Finally John M Anderson writes of the awareness of our becoming more than we are and does so by bespeaking the origin of the dialogue we are Perplexity and Ultimacy William Desmond, 1995-08-17 Desmond writes about the metaphysical perplexity that cannot be identified with scientific or commonsense curiosity This perplexity is in another dimension of thought asking questions about what precedes and exceeds the determinate intelligibilities of science and common sense Desmond explores what this perplexity is especially in so far as it is shadowed by the question of ultimacy This work complements Desmond's *Being and the Between* Godsends William Desmond, 2021-11-15 Godsends is William Desmond's newest addition to his masterwork on the borderlines between philosophy and theology For many years William Desmond has been patiently constructing a philosophical project replete with its own terminology idiom grammar dialectic and its metaxological transformation in an attempt to reopen certain boundaries between metaphysics and phenomenology between philosophy of religion and philosophical theology between the apocalyptic and the speculative and between religious passion and systematic reasoning In Godsends Desmond's newest addition to his ambitious masterwork he presents an original reflection on what he calls the companioning of philosophy and religion Throughout the book he follows an itinerary that has something of an Augustinian likeness from the exterior to the interior from the inferior to the superior The stations along the way include a grappling with the default atheism prevalent in contemporary intellectual culture an exploration of the middle space the metaxu between the finite and the infinite a dwelling with solitudes as thresholds between selving and the sacred a meditation on idiot wisdom and transcendence in an East West perspective an exploration of the different stresses in the mysticisms of Aurobindo and the Arnhem Mystical Sermons a dream monologue of autonomy a suite of Kantian and post Kantian variations on the story of the prodigal son a meditation on the beatitudes as exceeding virtue in light of Aquinas's understanding and culminating in an exploration of Godsends as telling us something significant about the surprise of revelation in word idea and story Godsends is written for thoughtful persons and scholars perplexed about the place of religion in our time and hopeful for some illuminating companionship from relevant philosophers It will also interest students of philosophy and religion especially philosophical theology and philosophical metaphysics *The Sacred in the City* Liliana Gómez, Walter Van Herck, 2012-02-09 This book reflects the way in which the city interacts with the sacred in all its many guises with religion and the human search for meaning in life As the process of urbanization of society is accelerating thus giving an increasing importance to cities and the metropolis it is relevant to investigate the social or cultural cohesion that these urban agglomerations manifest Religion is keenly observed as witnessing a growth crucially impacting cultural and political dynamics as well as determining the emergence of new sacred symbols and their inscription in urban spaces worldwide The sacred has become an important category of a new interpretation of social and cultural transformation processes From a unique broader perspective the volume focuses on the relationship between the city and the sacred Taking a multidisciplinary approach combining the

expertise of philosophers historians architects social geographers sociologists and anthropologists it draws a nuanced picture of the different layers of religion of the sacred and its diverse forms within the city with examples from Europe South America and the Caribbean and Africa

**Reaffirming the Importance of Beauty** Sonja Zuba,2023-08-03 This book argues that beauty challenges us to find meaning in its object to make critical comparisons and to examine our own lives and emotions in the light of what we find The book examines the importance of beauty not only in terms of art and aesthetics but also within the context of the current post religious age It engages with the philosophical works of Roger Scruton and William Desmond and endorses and addresses many important discussions surrounding art and beauty found in the works of Plato Kant Hegel Schopenhauer Nietzsche and Heidegger It also takes seriously the role of poetry and painting to explore the theme that runs through this research the idea that beauty is rationally found Meditations on the art of Manet Van Gogh Delacroix Rembrandt and other artists together with the voices of several poets show us that beauty cannot be reduced to aesthetics only Irreducible to philosophy religion or aesthetics the notion of beauty is deeply examined in all its forms and spiritual meaning
