Changing the Stigma of Mental Health Among African Americans: Moving From Denial to Acceptance Hendricks, LaVelle,Smith, Dimitra,2023-09-18 Mental health among African Americans historically has been kept secret and often has been subject to intense denial from both the individuals with mental health concerns and their communities Thus African Americans have remained shielded from treatments that are currently available which may allow them to become mentally healthier and find a sense of psychological homeostasis Recognizing mental illness treatment as a strength and not a weakness is key to mitigating existing issues of mental health in the African American community today Changing the Stigma of Mental Health Among African Americans Moving From Denial to Acceptance provides the history of mental health in the African American community and how denial has hindered and hampered treatment within this community Covering topics such as bipolar disorder dementia and disruptive behavior this book is ideal for educators researchers practitioners the African American spiritual community and all individuals concerned about psychological care for African Americans

Black Hopes/Black Woes Raphaël Lambert,2025-04-22 Black Hopes Black Woes begins by delving into the contrasting mindsets of postbellum

African Americans and their twenty first century counterparts aiming to elucidate the shift from early Black optimism to present day Black pessimism It then focuses on the rationale behind Afro pessimism a contemporary school of thought with an inconspicuous yet potent influence on mainstream culture The first part of the book focuses on Frederick Douglass s and WEB Du Bois s interpretations of slave songs establishing a link between the Negro freedom and democracy This optimistic view is juxtaposed with Saidiya Hartman s who with 100 years hindsight condemns Du Bois s reformist spirit and efforts to tackle Black poverty as supercilious and damaging The book then scrutinizes Afro pessimism through the work of Frank B Wilderson III who posits that the stability of civil society hinges on anti Black violence Accordingly he argues that any analogy between Black and non Black experiences is flawed and that Marxism which privileges labor over racial issues is inadequate to grasp Blackness Additionally the book explores the essentialist discourse of Afro pessimism through David Marriott s analysis of Frantz Fanon which theorizes the non beingness of Blackness despite Fanon s focus on being colonized rather than Black Finally the book demonstrates how Afro pessimism overlaps with postcolonialism and conflicts with Fanon s universalism his rejection of identity politics and his advocacy for transracial and transnational dialogue While the radical nature of Afro pessimism may seem to manifest an unresolved national trauma Black Hopes Black Woes situates this ideology in the larger contemporary philosophical and critical discourse shedding light on its propensity to foster a culture of resentment and cynicism Once confined to a niche academic audience Afro pessimism has percolated the mainstream stoking the fire of racial antagonism

Faye Z. Belgrave, Kevin Wendell Allison, Camilla W. Nonterah, 2025-08-18 **Human Behavior in the Social Environment from an African-American Perspective** Letha A See, 2013-02-01

Human Behavior in the Social Environment from an African American Perspective Second Edition is an updating of the classic text that presents leading black scholars discussing complex human behavior problems faced by African Americans in today's society. This new edition provides fresh theories and the latest practical interventions not in the first edition that show for example how to enhance a client's coping strategies and resilience by focusing on their strengths rather than their weaknesses. This edition includes a new foreword by former Surgeon General Dr. Joycelyn Elders.

Human Behavior in the Social Environment from an African American Perspective Second Edition acquaints practitioners with the Black experience and provides the latest innovative methods of working with this diverse population. This edition also offers new insights on evaluating practice initiatives. Experts and scholars explore and interpret individual and group behaviors, the strength and resilience of the black family, the stresses and problems affecting children, the significant problem of the affects of colorism, the self-esteem and identity issues of biracial children, violence in the criminal justice system, the HIV/AIDS pandemic, the stress and behaviors resulting from belonging to the armed services, and other behavior stemming from progression through the life cycle. Chapters include charts and tables of data, extensive references, and study questions for deeper study for students.

Topics in Human Behavior in the Social Environment from an African American Perspective Second Edition include the importance of the consideration of the black experience in analyzing black behavior, behavior as a response to a hostile social system, the black church's role in leading African Americans, resiliency perspective as a positive force, the use of strength behaviors for socialization and survival, strategies to strengthen roles of fathers in African American families, military culture as a microcosm of the wider society, the psychological effects of skin color on self-esteem, the No Child Left Behind Act of 2001 and its effects, refreshing social work practice to better meet the needs of African American girls, examination of a study on the help-seeking behaviors of young African American males, empirically based creative intervention strategies to alleviate black on black crime, analysis of street gang behaviors with a program to address it, influences of hip hop culture, strategies to lessen substance abuse in children, practices that help assist administrators and social workers to lessen school violence.

Human Behavior in the Social Environment from an African American Perspective Second Edition is a supplementary text that is valuable for undergraduate and graduate students, human service practitioners, mental health and medical counselors, policymakers, school officials, and criminal justice personnel.

Transitions in Consciousness from an African American Perspective Carroy U. Ferguson, 2004

In this book Carroy Ferguson presents a unique glimpse into the transitional stages in consciousness that many African Americans experience as they explore the essence of being a Black person in U.S. society and the world. Using a model of six transitional stages in consciousness, original essays and discourses on the symbolism of various historical events, Ferguson engages readers in an intriguing reflective process to give them a better understanding of how transitions in

consciousness from an African American perspective are largely shaped and greatly influenced by the psychology of the times. The essays therefore represent the various dynamics at play as many African Americans engage the contents of their consciousness and learn to explore and transcend various societal challenges. To assist readers in engaging their personal self-reflective processes, Ferguson provides creative exercises and a comprehensive timeline of African American life.

Mental Health Care in the African-American Community Sadye Louise Logan, Ramona W. Denby, Priscilla A. Gibson, 2007

Over the course of an African American's lifetime, mental health care needs change according to an individual's unique interactions with his or her environment. *Mental Health Care in the African American Community* uses this perspective to provide a deeper analysis of factors and issues affecting the mental health of African Americans. This comprehensive text provides a current and historical analysis of the impact of mental health research, policy, community, and clinical practice from a life course perspective. Stressing evidence-based practice as an expanded way to think and talk about individualizing and translating evidence into a given practice situation, this valuable book provides a social work context for all helping professions. *Mental Health Care in the African American Community* provides the helping community with non-traditional, expanded ways of thinking and intervening in the mental health needs and care of African Americans. Organized logically, this complex subject presents data in a user-friendly way that engages the reader and provides chapter summaries and suggested group/classroom activities to facilitate understanding. This text is extensively referenced and includes figures and tables to clearly illustrate data. Topics in *Mental Health Care in the African American Community* include a historical overview of African Americans' mental health care, a conceptual and theoretical framework for African Americans' mental health, current issues affecting mental health, intervention for African Americans' mental health in group homes and foster care, depression, substance abuse, poverty, ADHD, suicide, mental health in elderly African Americans, mental health policy, rural African American mental health needs, kinship care, multiethnic families and children, much, much more. *Mental Health Care in the African American Community* is a valuable textbook for practitioners, administrators, researchers, policymakers, educators, and students in social work, psychology, mental health services, case management, and community planning.
