**Picture Coverage of the World** Heinz Dietrich Fischer,2011 The Pulitzer Prizes for Press Photography are latecomers within the prestigious award system Established in 1942 during World War II they started with a general category called Photography covering all kinds of photographs After about a quarter century in 1968 this award category was divided into two separate prize groups entitled Spot News Photography and Feature Photography This book presents the decision making processes that lead to the annual Pulitzer Prize winners Additionally in each decision making case one award earning photo is reproduced to give an idea about the broad spectrum of aspects and themes declared prize worthy by the jurors Series Pulitzer Prize Panorama Vol 2

**Images in Social Media** Susanne Ørnager,Haakon Lund,2022-06-01 This book focuses on the methodologies organization and communication of digital image collection research that utilizes social media content Image is here understood as a cultural conventional and commercial stock photo representation The lecture offers expert

views that provide different interpretations of images and their potential implementations Linguistic and semiotic methodologies as well as eye tracking research are employed to both analyze images and comprehend how humans consider them including which salient features generally attract viewers attention This literature review covers image specifically photographic research since 2005 when major social media platforms emerged A citation analysis includes an overview of co citation maps that demonstrate the nexus of image research literature and the journals in which they appear Eye tracking tests whether scholarly templates focus on the proper features of an image such as people objects time etc and if a prescribed theme affects the eye movements of the observer The results may point to renewed requirements for building image search engines As it stands image management already requires new algorithms and a new understanding that involves text recognition and very large database processing The aim of this book is to present different image research areas and demonstrate the challenges image research faces The book s scope is by necessity far from comprehensive since the field of digital image research does not cover fake news image manipulation mobile photos etc these issues are very complex and need a publication of their own This book should primarily be useful for students in library and information science psychology and computer science
