Phyllis Kaberry And Me Anthropology History And Aboriginal Australia:

Phyllis Kaberry and Me Sandy Toussaint,1999 This is the fascinating story of two women both anthropologists who worked with Aboriginal people in the Kimberley region of Western Australia one in the 1930s the other in the 1980s and 1990s It explores the past present and future relationships between anthropologists and the people among whom they work

Aboriginal Woman Sacred and Profane Phyllis Kaberry,2005-08-10 First published in 1939 by Routledge this classic ethnography portrays the aboriginal woman as she really is a complex social personality with her own prerogatives duties problems beliefs rituals and point of view This groundbreaking and enduring study was researched in North West Australia between 1935 and 1936 and was written by a woman who truly pioneered the study of gender in anthropology **The**

Fox,2020-05-19 How do anthropologists work today and how

will they work in future While some anthropologists have recently called for a new public or engaged anthropology profound changes have already occurred leading to new kinds of work for a large number of anthropologists The image of anthropologists reaching out from protected academic positions to a vaguely defined public is out of touch with the working conditions of these anthropologists especially those junior and untenured The papers in this volume show that anthropology is put to work in diverse ways today They indicate that the new conditions of anthropological work require significant departures from canonical principles of cultural anthropology such as replacing ethnographic rapport with multiple forms of collaboration This volume s goal is to help graduate students and early career scholars accept these changes without feeling something essential to anthropology has been lost There really is no other choice for most young anthropologists **Maria**

Skin Deep Liz Conor, 2016 *Skin Deep* looks at the preoccupations of European Australians in their encounters with Aboriginal women and the tropes types and perceptions that seeped into everyday settler colonial thinking Early erroneous and uninformed accounts of Aboriginal women and culture were repeated throughout various print forms and imagery both in Australia and in Europe with names dates and locations erased so that individual women came to be anonymized as gins and lubras The book identifies and traces the various tropes used to typecast Aboriginal women contributing to their lasting hold on the colonial imagination even after conflicting records emerged The colonial archive itself consisting largely of accounts by white men is critiqued in the book Construction of Aboriginal women's gender and sexuality was a form of colonial control and *Skin Deep* shows how the industrialization of print was critical to this control emerging as it did alongside colonial expansion For nearly all settlers typecasting Aboriginal women through name calling and repetition of tropes sufficed to evoke an understanding that was surface based and half knowing only skin deep Impressively researched written organized and presented highly recommended for community and academic library Aboriginal Studies Women's Studies Australian Studies and Colonial History reference collections Midwest Book Review MBR Bookwatch October 2016 Helen's Bookshelf Subject Cultural History Aboriginal Studies Women's Studies Australian Studies Colonial Studies

Aboriginal History, 2004 *Crossing Boundaries* Sandy Toussaint, 2004 Ever since the 1992 Mabo decision put an end to the legal fiction that Australia was without owners before the arrival of the British colonisers the work associated with resolving native title claims has developed as a significant but often difficult arena of professional practice Increasingly anthropologists linguists historians and lawyers have been encouraged to work collaboratively often in the context of highly charged public controversy about who owns the land In *Crossing Boundaries* editor Sandy Toussaint and her contributors have created a cross disciplinary exploration of native title work In all twenty professionals share their experience and expertise As Toussaint concludes Chapters in this volume reveal the extent to which native title workers need to communicate more cogently and in some cases to redefine their practice

Why Men? Nancy Lindisfarne, Jonathan Neale, 2023-09-28 How did humans a species that evolved to be cooperative and egalitarian develop societies of aggressively enforced inequality Why did our ancestors create a world of patriarchal power war and abuse Did it have to be this way Powerful elites have always called hierarchy and violence unavoidable facts of human nature The science of evolution they say caused and causes men to fight and people to have different unequal roles starting with men and women But that is bad science In this fascinating fun and important book two anthropologists tell the real story of humanity from early behaviours to contemporary cultures From bonobo sex and prehistoric childcare to human sacrifice Joan of Arc Darwinism and Abu Ghraib they reveal humankind's evolutionary predisposition to both equality and inequality Very old
