have remained one of the oldest and most puzzling mysteries of mankind Until now no one Egyptologists included has satisfactorily explained how the pyramids were built The traditional theory explaining that long lines of workers hoisted and dragged massive blocks up enormous ramps does not adequately address the hazards and complexities that make such an

operation highly unlikely especially since hundreds of the largest blocks in the pyramids are situated at great heights The uncanny fit of blocks as close as 1 500th of an inch puzzles Egyptologists Hard metals such as iron and bronze were not yet developed to produce good stone cutting tools Logistical problems of constructing the Great Pyramid are staggering and have never been reconciled the scale and perfection is too grand During the 20 year reign of the pharaoh who built it about 2 1 2 million blocks were produced and perfectly assembled As scientific methods of investigation become more sophisticated the list of enigmas lengthens and more questions are raised than answered Dr Joseph Davidovits research chemist and founder of the chemistry of geopolymerization has solved the mystery He has recovered the great forgotten technology used to build the pyramids His discovery is so dramatic and far reaching in scope that major aspects of ancient history will require rethinking This technology and proof of its use in ancient Egypt are vividly and convincingly presented in the Pyramids An Enigma Solved Our concept of ancient Egypt will never be the same Dust jacket Pyramids of the Giza Plateau Charles Rigano,2014-12-19 The most remarkable piece of ground in the World W M Flinders Petrie 1883 The Pyramid Complexes of Khufu Khafre and Menkaure have stood on the Giza Plateau for 4 600 years They have been scientifically studied for the last 300 years yet this is the first book that brings together all three into one volume Here is a complete detailed look at the Giza pyramids and their complexes the Sphinx subsidiary pyramids temples boat pits and enclosures The descriptions are supplemented by almost 300 photos and drawings to provide the reader a detail look which can only be surpassed by being there in person with a very knowledgeable guide In addition Charles Rigano provides new ideas on How Khufu was interred in his Great Pyramid How the first robbers gained entry and robbed Khufus pyramid How Caliph Al Mamun in 820AD really penetrated the Great Pyramid Why Heterpheres tomb is at Giza Why there is a field of stone bases near Khafres Pyramid The initial smaller plan for Khafres Pyramid Conclusive evidence that ties the Sphinx to Khafre How Menkaures Burial Chamber and Inclined Passage were built Great Pyramid of Giza Rebecca Stanborough,2016-01-01 This title explores and explains how the Great Pyramid of Giza was built The pyramid s construction is described in terms of the engineering process The book explores why the pyramid was built and describes the design stages and technologies used during construction The book also describes the challenges builders faced while building the pyramid **The Great Pyramid of Giza** Willem Witteveen,2016-06-12 EGYPTIAN ARCHAEOLOGY EGYPTOLOGY The Great Pyramid of Giza is one of the seven wonders of the ancient world and the only one that has withstood the test of time For centuries people have studied this enigmatic structure trying to understand its true significance ancient Egyptian pyramids are generally still considered tombs for deceased pharaohs After extensive research Willem Witteveen connects data from his own findings with that of other researchers resulting in groundbreaking conclusions about the true function of the Great Pyramid and its place in history The Greek mathematician Pythagoras stated All is number The American prophet Edgar Cayce claimed Sound is the medicine of the future and the late Egyptian wisdom keeper Abd el Hakim Awyah always said It is all about sound Willem Witteveen

proves that all these men were right and that what we now regard as ground breaking and new often originated in ancient Egypt well before the first Egyptian dynasties
