Jordaan, 2013 This book is a reference instrument for use by students and exegetes exploring the shades of meaning often hidden in the language of ancient Greek texts First it lists the different possible meanings of each construction illustrated by examples from both Classical and New Testament texts Second the book provides a similarly illustrated list of Greek constructions for every grammatical meaning This section may be regarded as the book's unique contribution to Greek linguistics It enables an exegete to compare the construction's in his text to other Greek constructions within the same semantic field and to better demarcate the nuances and subtleties of his text Series Introductions Theology Einf hrungen Theologie Vol 4 **Radical Frame Semantics and Biblical Hebrew** Stephen Shead, 2011-09-09 Drawing on various modern linguistic models including cognitive linguistics frame semantics and construction grammar this book presents a new integrated approach to lexical semantic analysis of biblical Hebrew applying it in a detailed study of words related to exploring **An Introduction to the New Testament** DAVID A DESILVA, 2020-05-21 Professor deSilva's outstanding textbook sets a new standard for the genre The usual topics of New Testament introduction are integrated with instruction in interpretative strategies and application to ministry formation The attractive layout includes numerous maps photographs and text boxes **A Handbook to the Exegesis of the New Testament** Stanley E. Porter, 2022-02-07 This handbook provides a substantial theoretical and practical guide to the multi faceted discipline of exegesis of the New Testament After an introduction to exegesis and a bibliographic essay on the basic tools the volume has two major parts The first focuses on method and includes essays on the major approaches to exegesis including textual criticism language genre and backgrounds

The second part applies exegetical method to the various literary units of the New Testament. Most exegetical handbooks are either too short and brief thereby failing to cover the requisite current topics in sufficient depth or too technically difficult failing to provide a useful methodology. This coordinated volume offers succinct and well informed essays with plenty of bibliography written by experts in their respective fields. The handbook will serve well as a textbook as well as a reference book to the major tools and topics in the area. This publication has also been published in paperback please click here for details

[The Use of the Septuagint in New Testament Research](#) Tim McLay, 2003 Too often the Septuagint is misunderstood or worse ignored in New Testament studies. In this book R Timothy McLay makes a sustained argument for the influence of the Greek Jewish Scriptures on the New Testament and offers basic principles for bridging the research gap between these two critical texts. McLay explains the use of the Septuagint in the New Testament by looking in depth at actual New Testament citations of the Jewish Scriptures. This work reveals the true extent of the Septuagint's impact on the text and theology of the New Testament. Indeed given the textual diversity that existed during the first century the Jewish Scriptures as they were known read and interpreted in the Greek language provided the basis for much if not most of the interpretive context of the New Testament writers. Complete with English translations a glossary of terms an extensive bibliography and helpful indexes this book will give readers a new appreciation of the Septuagint as an important tool for interpreting the New Testament

Gorman, 2023-03-29 This study explores the

relationship between the individual person the self the divine and other people in the writings of the apostle Paul and the Roman Stoic Epictetus It does so by examining self involving actions expressed with reflexive pronouns myself yourself etc in various kinds of sentences for example Examine yourself and You do not belong to yourself After situating the topic within the fields of linguistics and ancient Greek the study then examines the reflexive constructions in Epictetus s Discourses showing that reflexive texts express fundamental aspects of his ethic of rational self interest in imitation of the indwelling rational deity Next the investigation examines the 109 reflexive constructions in Paul providing an exegesis of each reflexive text and then synthesizing the results Paul s reflexive phrases are essential statements of his theology and ethics expressing an interconnected narrative Christology narrative apostolic identity and narrative ethic Most importantly the study finds that for Epictetus concern for others is a rational means to self realization whereas for Paul concern for others is a community ethic grounded in the story of the indwelling Christ and is the antithesis of self interest
