Semeiotike Recherches Pour Une Semanalyse Extraits:

The Poverty of Structuralism Leonard Jackson, 2014-09-11 The Poverty of Structuralism is the first in a sequence of volumes which examine in turn the basic ideas of Saussure Marx and Freud and analyse the way in which they have been developed and applied to art culture and modern textual theory The text offers a critical introduction to the structuralist foundations of modern literary theory It gives an account of the way such foundations have been developed twisted and distorted to become part of the language that contemporary literary and cultural theoreticians use It also addresses some of the fundamental issues about language and society that are presupposed by the often difficult language of modern literary and cultural theory

Emblematic Structures in Renaissance French Culture Daniel Russell, 1995-12-15 The emblem and the device or impresa as it was called in Italy were the most direct and telling manifestations of a mentality that played a significant role in the discourse and art in Western Europe between the late Middle Ages and the mid eighteenth century In the history of Western symbolism the emblematic sign forms a bridge between late medieval allegory and the Romantic metaphor These intricate combinations of picture and text where the picture completes the ellipses of an epigrammatic text and where the text fixes the intention of the pictured signs provide useful clues to the way pictures in general were read and textual descriptions visualized in early modern Europe Daniel Russell demonstrates how the emblematic forms emerged from the way illustrations were used in late medieval French manuscript culture how the forms were later disseminated in France and how they functioned within early modern French culture and society He also attempts to show how the guiding principles behind the composition of emblems influenced the production of courtly decoration ceremony and propaganda as well as the composition of literary texts as different as Maurice Scève's *Delie* Montaigne's *Essais* and Du Bartas's *Sepmaine*

Race and Narrative in Italian Women's Writing Since Unification Melissa Coburn, 2013-07-29 Race as Narrative in Italian Women's Writing Since Unification explores racist ideas and critiques of racism in four long narratives by female authors Grazia Deledda Matilde Serao Natalia Ginzburg and Gabriella Ghermandi who wrote in Italy after national unification Starting from the premise that race is a political and socio historical construction Melissa Coburn makes the argument that race is also a narrative construction This is true in that many narratives have contributed to the historical construction of the idea of race it is also true in that the concept of race metaphorically reflects certain formal qualities of narration Coburn demonstrates that at least four sets of qualities are common among narratives and central to the development of race discourse intertextuality the

processes of characterization plot and tropes the tension between the projections of individual group and universal identities and the processes of identification and otherness These four sets of qualities become organizing principles of the four sequential chapters paralleling a sequential focus on the four different narrative authors The juxtaposition of these close contextualized readings demonstrates salient continuities and discontinuities within race discourse over the period examined revealing subtleties in the historical record overlooked by previous studies

Sexuality and Gender in Early Modern Europe James Turner, 1993-08-05 An exploration of sexuality and gender in Renaissance art literature and society

Moments of Moment, 2021-11-22 a sudden spiritual manifestation whether in the vulgarity of speech or of gesture or in a memorable phase in the mind itself Thus Stephen Dedalus in James Joyce's Stephen Hero defines the phenomenon that has ever since been known as the literary epiphany The essays gathered in this volume comprise a wide survey of this phenomenon With recurrent reference to its most famous creators notably William Wordsworth who was the first to consciously explore and delineate those momentous spots in time in his Prelude Walter Pater James Joyce and Virginia Woolf this book intends to provide a broad and unbiased exploration into the various types and categories of the moment of moment that can be distinguished ranging from William Blake Ann Radcliffe and Charles Maturin through the nineteenth century sonnet tradition and the naturalistic novel to modernist and postmodernist exponents such as Ezra Pound and Elizabeth Bowen Philip Larkin and Seamus Heaney and include contributions by acclaimed experts in the field such as Martin Bidney Robert Langbaum Jay Losey and Ashton Nichols

Joyce, Derrida, Lacan and the Trauma of History Christine van Boheemen, 1999-09-18 In Joyce Derrida Lacan and the Trauma of History Christine van Boheemen Saaf examines the relationship between Joyce's postmodern textuality and the traumatic history of colonialism in Ireland Joyce's influence on Lacanian psychoanalysis and Derrida's philosophy Van Boheemen Saaf suggests ought to be viewed from a postcolonial perspective She situates Joyce's writing as a practice of indirect witnessing to a history that remains unspeakable The loss of a natural relationship to language in Joyce calls for a new ethical dimension in the process of reading The practice of reading becomes an act of empathy to what the text cannot express in words In this way she argues Joyce's work functions as a material location for the inner voice of Irish cultural memory This book engages with a wide range of contemporary critical theory and brings Joyce's work into dialogue with thinkers such as Žižek Adorno Lyotard as well as feminism and postcolonial theory

Literature Against Criticism Martin Paul Eve, 2016-10-17 This is a book about the power game currently being played out between two symbiotic cultural institutions the university and the novel As the number of hyper knowledgeable literary fans grows students and researchers in English departments waver between dismissing and harnessing voices outside the academy Meanwhile the role that the university plays in contemporary literary fiction is becoming increasingly complex and metafictional moving far beyond the campus novel of the mid twentieth century Martin Paul Eve's engaging and far reaching study explores the novel's contribution to the ongoing displacement of cultural authority away from university

English Spanning the works of Jennifer Egan Ishmael Reed Tom McCarthy Sarah Waters Percival Everett Roberto Bola o and many others Literature Against Criticism forces us to re think our previous notions about the relationship between those who write literary fiction and those who critique it The Emblem and Device in France Daniel S. A 'Complete' Table of the Borrowings in Yambo Ouologuem's Le Devoir de violence, and Why They Matter

Christopher L. Miller,2024-06-19 Recent research has revealed that the borrowings in Yambo Ouologuem s epochal novel Le Devoir de violence Bound to Violence are far more extensive than was previously thought Accused of plagiarism Ouologuem quit the Parisian literary world and returned to a definitive silence in Mali This book attempts to provide both a complete table of the borrowings in Le Devoir de Violence and a new theory of their meaning Miller dispels the myth that the borrowings are minor negligible or criminal he argues that they are artful thresholds openings to a profound reconsideration of African history Ouologuem set up this system of borrowings as a way to invite readers down unexpected paths of meaning The borrowings are not mere stunts they are inseparable from Ouologuem s radical revision of African history and his rejection of Negritude The table of borrowings in part three of this book will serve as a resource for readers and scholars
