The Seminar of Jacques Lacan Jacques Lacan,1978      **The Seminar of Jacques Lacan: The psychoses, 1955-1956**  
Jacques Lacan,1988      **The Psychoses 1955-1956** Jacques Lacan,1997      **Lacan on Psychosis** Jon Mills,David L.  
Downing,2018-09-21 This is the first book of its kind that attempts to distill Lacan s views on psychosis for both a specialized and non specialized audience An attempt is made to present Lacan s unorganized theories to apply to conceptual paradigms in psychoanalysis and the humanities as well as applied clinical practice This effort is in the spirit of fostering dialogue and educating different theoretical orientations within psychoanalysis on what Lacan and his followers have contributed to emerging contemporary perspectives on psychotic phenomena in both normative and pathological populations Within Lacanian circles there is debate over what constitutes psychosis including defining the ordinary from pathological variants that have historically defined the phenomena as a mental illness Here psychosis is not defined by hegemonic authoritarian psychiatry but rather as a conceptual framework or philosophical perspective supported by descriptive narrative and symptomatic phenomenology that challenges preconceived notions of what we typically consider psychosis to entail In this book a variety of perspectives are presented by internationally respected scholars and clinicians who examine what Lacan had to say about psychosis from his nuanced theories represented in select texts including omissions extrapolations and new applications as well as how clinical methodology and technique have been adapted and advanced by practitioners treating psychotic individuals Lacan on Psychosis will be of interest to academics scholars researchers and practitioners in the fields of psychoanalysis psychotherapy philosophy cultural theory the humanities and the behavioral sciences      **Lacanian Realism** Duane Rousselle,2018-01-25 Alain Badiou has claimed that Quentin Meillassoux s book After Finitude Bloomsbury 2008 opened up a new path in the history of philosophy And so whether you agree or disagree with the speculative realism movement it has to be addressed Lacanian Realism does just that This book reconstructs Lacanian dogma from the ground up first by unearthing a new reading of the Lacanian category of the real second by demonstrating the political and cultural ingenuity of Lacan s concept of the real and by positioning this against the more reductive analyses of the concept by Slavoj i ek Alain Badiou Saul Newman Todd May Joan Copjec Jacques Ranci re and others and third by arguing that the subject exists intimately within the real Lacanian Realism is an imaginative and timely exploration of the relationship between Lacanian psychoanalysis and contemporary continental philosophy      *Ethics of Contemporary Art* Theo Reeves-Evison,2020-11-26 What happens when the shock of artistic transgression wears off when scandal dissipates when outrage becomes a tired routine In this original new book Theo Reeves Evison argues that transgressive art no longer succeeds on its own terms in societies where language prohibition and morality have become increasingly malleable This compels us to rethink the relationship between contemporary art and ethics and focus our attention on the potential of artworks to propose new values rather than simply challenge pre existing moral codes Assembling a novel theoretical framework from the writings of F lix

Guattari Jacques Lacan and others *Ethics of Contemporary Art* narrates a journey away from transgression towards a new critical paradigm for the relationship between ethics and aesthetics that places questions of subjectivity centre stage Along the way artworks by Kader Attia Artur Zmijewski Dora Garcia and others serve as springboards launching discussions of the varied pathways along which a renewed ethics of contemporary art might develop **Perversion and Modern Japan** Nina Cornyetz,J. Keith Vincent,2010-01-21 How did nerves and neuroses take the place of ghosts and spirits in Meiji Japan How does Natsume Soseki s canonical novel *Kokoro* pervert the Freudian teleology of sexual development What do we make of Jacques Lacan s infamous claim that because of the nature of their language the Japanese people were unanalyzable And how are we to understand the re awakening of collective memory occasioned by the sudden appearance of a Japanese Imperial soldier stumbling out of the jungle in Guam in 1972 In addressing these and other questions the essays collected here theorize the relation of unconscious fantasy and perversion to discourses of nation identity and history in Japan Against a tradition that claims that Freud s method as a Western discourse makes a bad fit with Japan this volume argues that psychoanalytic reading offers valuable insights into the ways in which Japan itself continues to function as a psychic object By reading a variety of cultural productions as symptomatic elaborations of unconscious and symbolic processes rather than as indexes to cultural truths the authors combat the truisms of modernization theory and the seductive pull of culturalism This volume also offers a much needed psychoanalytic alternative to the area studies convention that reads narratives of all sorts as windows offering insights into a fetishized Japanese culture As such it will be of huge interest to students and scholars of Japanese literature history culture and psychoanalysis more generally *The Art of Making Children* Francois Ansermet,2018-05-08 This book explores the issues that surround medically assisted reproduction It addresses the place of destiny including how to think about individual destinies in an age of increasingly accessible gene sequencing paired with a growing link between procreation and prediction **Critical Theory to Structuralism** David Ingram,2014-09-11 Philosophy in the middle of the 20th Century between 1920 and 1968 responded to the cataclysmic events of the time Thinkers on the Right turned to authoritarian forms of nationalism in search of stable forms of collective identity will and purpose Thinkers on the Left promoted egalitarian forms of humanism under the banner of international communism Others saw these opposed tendencies as converging in the extinction of the individual and sought to retrieve the ideals of the Enlightenment in ways that critically acknowledged the contradictions of a liberal democracy racked by class cultural and racial conflict Key figures and movements discussed in this volume include Schmitt Adorno and the Frankfurt School Arendt Benjamin Bataille French Marxism Black Existentialism Saussure and Structuralism Levi Strauss Lacan and Late Pragmatism These individuals and schools of thought responded to this modernity crisis in different ways but largely focused on what they perceived to be liberal democracy s betrayal of its own rationalist ideals of freedom equality and fraternity **The History of Continental Philosophy** Alan D. Schrift,2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger

continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century. Although much has been written about these monumental thinkers, students and scholars lack a definitive guide to the entire scope of the continental tradition. The most comprehensive reference work to date, this eight-volume *History of Continental Philosophy* will both encapsulate the subject and reorient our understanding of it. Beginning with an overview of Kant's philosophy and its initial reception, the *History* traces the evolution of continental philosophy through major figures as well as movements such as existentialism, phenomenology, hermeneutics, and poststructuralism. The final volume outlines the current state of the field, bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism, globalization, and the environment. Throughout, the volumes examine important philosophical figures and developments in their historical, political, and cultural contexts. The first reference of its kind, *A History of Continental Philosophy* has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers' texts and movements in rigorous yet jargon-free essays suitable for both undergraduates and seasoned specialists. These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy, surveying the distinctive, sometimes overlapping characteristics and approaches of each tradition. Featuring helpful overviews of major topics and plotting road maps to their underlying contexts, *A History of Continental Philosophy* is destined to be the resource of first and last resort for students and scholars alike.

*Signifiers and Acts* Ed. Pluth, 2012-02-01. In *Signifiers and Acts*, Ed. Pluth examines Lacan's views on language and sexuality to argue that Lacan's theory of the subject is best read as a theory of freedom and agency, a theory that is especially compelling precisely because of its structuralist and seemingly antihumanist framework. Presenting new aspects of Lacan's work and commenting extensively on the important yet unpublished seminars that still make up the majority of his contribution to contemporary thought, the book aims to make a Lacanian intervention into contemporary theory. In addition to Saussure, Sartre, Derrida, Lacoue-Labarthe, and Nancy, Pluth discusses works in political theory and identity theory by Alain Badiou, Judith Butler, and Slavoj Žižek. **Let's Keep Talking** Yael Goldman Baldwin, 2018-05-08. *Let's Keep Talking: Lacanian Tales of Love, Sex, and Other Catastrophes* is a collection of original Lacanian case studies of young people today as they struggle with their own modern existential dilemmas of sex and love, life and death. The context, background, and forms of expression may be contemporary, but the clients' problems, structures, and existential dilemmas are quite classic. The five narrative tales highlight the role a Lacanian orientation played in the interactions, formulations, and results from initial meetings to terminations. Grounded in concrete clinical material, the case studies illuminate specific and universal themes of human suffering and how we can treat that suffering by speaking. Yael Baldwin argues that in our cultural milieu of connective technologies and the rise of biotechnology and psychopharmacology, in particular, we are in need of mental health treatment methods that highlight talking and relationships as essential to our personhood, our suffering, and our healing and growth. *Let's Keep Talking* argues that now more than ever we need the endeavour of analytic talk therapy. *Liberating*

*Oedipus?* Filip Kovacevic, 2007-01-01 In *Liberating Oedipus* Psychoanalysis as Critical Theory Dr Filip Kovacevic demonstrates how psychoanalytic theory can join political theory in designing alternative political norms and values Kovacevic proves that political practice without an emancipatory psychology to guide it is potentially dangerous **Drawing the Past, Volume 2** Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Dorian L. Alexander Chris Bishop David Budgen Lewis Call Lillian C. Spedes Gonzalés Dominic Davies Sean Eedy Adam Fotos Michael Goodrum Simon Gough David Hitchcock Robert Hutton Iain A. MacInnes Małgorzata Olsza Philip Smith Edward Still and Jing Zhang In *Drawing the Past Volume 2* Comics and the Historical Imagination in the World contributors seek to examine the many ways in which history worldwide has been explored and re-represented through comics and how history is a complex construction of imagination reality and manipulation Through a close analysis of such works as *V for Vendetta* *Maus* and *Persepolis* this volume contends that comics are a form of mediation between sources both primary and secondary and the reader Historical comics are not drawn from memory but offer a nonliteral interpretation of an object re-constructed in the creator's mind Indeed when it comes to history stretching the limits of the imagination only serves to aid in our understanding of the past and through that understanding shape ourselves and our futures This volume the second in a two-volume series is divided into three sections History and Form Historical Trauma and Mythic Histories The first section considers the relationship between history and the comic book form The second section engages academic scholarship on comics that has recurring interest in the representation of war and trauma The final section looks at mythic histories that consciously play with events that did not occur but nonetheless inflect our understanding of history Contributors to the volume also explore questions of diversity and relationality addressing differences between nations and the cultural historical and economic threads that bind them together however loosely and however much those bonds might chafe Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world **Missing** Bruce Fink, 2024-05-28 A collection of essays and pens es from a noted psychoanalyst and Lacanian thinker Inspired by Jacques Lacan's idea in his Seminar VI that Human beings cannot help but consider themselves to be missing something this series of essays explores the idea of lack under multiple themes **Adventures in Transcendental Materialism** Adrian Johnston, 2014-03-17 Critically engaging with thinkers including Slavoj Žižek Alain Badiou Catherine Malabou Jean-Claude Milner Martin Hagglund William Connolly and Jane Bennett Johnston formulates a materialist and naturalist account of subjectivity that does full justice **Irrepressible Truth** Adrian Johnston, 2017-09-19 This book offers readers a uniquely detailed engagement with the ideas of legendary French psychoanalyst Jacques Lacan *The Freudian Thing* is one of Lacan's most important texts wherein he explains the significance and stakes of his return to Freud as a passionate defence of Freud's disturbing epoch-making discovery of the unconscious against misrepresentations and criticisms of it However Lacan is characteristically cryptic in *The Freudian Thing* The combination of his writing style and vast range of references renders

much of his thinking inaccessible to all but a narrow circle of scholarly specialists Johnston's Irrepressible Truth opens up the universe of Lacanian psychoanalysis to much wider audiences by furnishing a sentence by sentence interpretive unpacking of this pivotal 1955 essay In so doing Johnston reveals the precision rigor and soundness of Lacan's teachings **Conrad, Faulkner, and the Problem of NonSense** Maurice Ebileeni, 2017-03-23 Investigates the major novels of Joseph Conrad and William Faulkner through psychoanalytic theory and in the context of the legacy of the Counter Enlightenment **What's That Smell?** Simon Hajdini, 2024-03-05 How our sense of smell engages with philosophy psychoanalysis and political economy and how it can help enrich our understanding of the nature of truth language economy and sexuality Why is it that in Indo European languages at least we have no language to describe smells leaving us and famously Juliet no choice but to call the scent of a rose simply sweet In What's That Smell a groundbreaking exploration of the intersection between philosophy psychoanalysis and the oft neglected sense of smell Simon Hajdini sets out to answer this complex question Through new readings of traditional and modern philosophical texts Hajdini places smell at the very center of a philosophical critique of the traditional notion of truth challenging the idea that smell is the antiphilosophical sense par excellence Through fresh engagements with fundamental philosophical issues original analyses of modern literature and film and the novel use of scientific research into smell within a humanities context Hajdini situates problems of olfaction at the very point of inception of cultural life He proposes that ontology civilization and capitalist economy alike can be said to amount to shit management And only by following the philosophically most deplorable of the senses the book argues can we better understand the central philosophical psychoanalytical and political issues of truth sex and exploitation **Reflections in a Serpent's Eye** Micaela Janan, 2009-10-22 Ovid's extraordinary story of Thebes founding and bloody unravelling spans two books of his epic poem the Metamorphoses His bizarre refractions of the well ordered community engage Ovid's own Rome and the mythohistory of the Eternal City's origins most particularly as framed in Vergil's Aeneid Vergil's poem attained nonpareil status as the Latin epic soon after publication The Aeneid has regularly been read as persuasively formulating how and why Rome will stride forward into history into manifest destiny and into empire without end The Metamorphoses strangely fantastical surface reflects what is already inherently perverse in that master narrative disclosing the narrative's internal contradictions Ovid rigorously and sceptically not only interrogates the existing Roman political order claimed as lasting truth but also the very possibility of organizing any polity into a harmonious organically unified lasting institution
