

U.S. Senate Exceptionalism

Edited by BRUCE I. OPPENHEIMER

Senate Exceptionalism

Bruce Ian Oppenheimer

Senate Exceptionalism:

U.S. Senate Exceptionalism Bruce Ian Oppenheimer, 2002 Drawing on diverse methodologies this book s synthesizing work will be essential reading for all scholars of U S politics The chapters are written by leading congressional scholars and cover topics including representation elections committees party leadership policy influence and constitutional powers BOOK JACKET

U.S. Senate Exceptionalism Bruce I Oppenheimer, 2021-01-29 This collection includes the most recent scholarship on the U S Senate Whereas most books simply assume that research about the House of Representatives holds equally well when applied to the Senate this volume takes as its point of departure research about the Senate itself This gives the reader a clear understanding of the particular nature of the institution and opens the door for further refining research Drawing on diverse methodologies this book s synthesizing work will be essential reading for all scholars of U S politics The chapters are written by leading congressional scholars and cover topics including representation elections committees party leadership policy influence and constitutional powers Contributors Alan I Abramowitz John R Alford David T Canon Joseph Cooper Lawrence C Dodd Robert S Erikson C Lawrence Evans Richard Fenno Jr Gerald Gamm John R Hibbing Kim Fridkin Kahn Patrick J Kenney Frances D Lee Burdett Loomis Bruce I Oppenheimer David W Rohde Elizabeth Rybicki Wendy J Schiller Patrick J Sellers Barbara Sinclair Steven Smith Charles Stewart III **Filibustering in the U.S. Senate** ,

American Exceptionalism Hilde Eliassen Restad, 2014-12-17 How does American exceptionalism shape American foreign policy Conventional wisdom states that American exceptionalism comes in two variations the exemplary version and the missionary version Being exceptional experts in U S foreign policy argue means that you either withdraw from the world like an isolated but inspiring city upon a hill or that you are called upon to actively lead the rest of the world to a better future In her book Hilde Eliassen Restad challenges this assumption arguing that U S history has displayed a remarkably constant foreign policy tradition which she labels unilateral internationalism The United States Restad argues has not vacillated between an exemplary and a missionary identity Instead the United States developed an exceptionalist identity that while idealizing the United States as an exemplary city upon a hill more often than not errs on the side of the missionary crusade in its foreign policy Utilizing the latest historiography in the study of U S foreign relations the book updates political science scholarship and sheds new light on the role American exceptionalism has played and continues to play in shaping America s role in the world This work will be of great interest to students and scholars of US foreign policy security studies and American politics The Oxford Handbook of the American Congress Eric Schickler, Frances E. Lee, 2013-03-14 No

legislature in the world has a greater influence over its nation s public affairs than the US Congress The Congress s centrality in the US system of government has placed research on Congress at the heart of scholarship on American politics Generations of American government scholars working in a wide range of methodological traditions have focused their analysis on understanding Congress both as a lawmaking and a representative institution The purpose of this volume is to

take stock of this impressive and diverse literature identifying areas of accomplishment and promising directions for future work The editors have commissioned 37 chapters by leading scholars in the field each chapter critically engages the scholarship focusing on a particular aspect of congressional politics including the institution's responsiveness to the American public its procedures and capacities for policymaking its internal procedures and development relationships between the branches of government and the scholarly methodologies for approaching these topics The Handbook also includes chapters addressing timely questions including partisan polarization congressional war powers and the supermajoritarian procedures of the contemporary Senate Beyond simply bringing readers up to speed on the current state of research the volume offers critical assessments of how each literature has progressed or failed to progress in recent decades The chapters identify the major questions posed by each line of research and assess the degree to which the answers developed in the literature are persuasive The goal is not simply to tell us where we have been as a field but to set an agenda for research on Congress for the next decade The Oxford Handbooks of American Politics are a set of reference books offering authoritative and engaging critical overviews of the state of scholarship on American politics Each volume focuses on a particular aspect of the field The project is under the General Editorship of George C Edwards III and distinguished specialists in their respective fields edit each volume The Handbooks aim not just to report on the discipline but also to shape it as scholars critically assess the scholarship on a topic and propose directions in which it needs to move The series is an indispensable reference for anyone working in American politics General Editor for The Oxford Handbooks of American Politics George C Edwards III

Comparing and Classifying Legislatures David Arter, 2013-09-13 Recent years have witnessed substantial work in the legislative studies field But what do we know about legislatures today and are there clear criteria for comparing and classifying them This is a new review of the state of our knowledge of parliament and tackles key questions Do legislatures matter in legislative terms and if so how much What is the extent of the legislature's control of the legislative process How can we classify legislatures on the basis of their relative legislative performance Five measures of the policy power of parliaments are applied in the country region chapters This book was previously published as a special issue of the leading Journal of Legislative Studies

Congress Responds to the Twentieth Century Sunil Ahuja, Robert E. Dewhirst, 2003 Congress occupies a central place in the U S political system Its reach into American society is vast and deep Overtime the issues it has confronted have increased in both quantity and complexity At the beginning Congress dealt with a handful of matters whereas today it has its hands in every imaginable aspect of life It has attempted to meet these challenges and has changed throughout the course of its history prodded by factors both external and internal to the institution The essays in this volume argue therefore that as society changed throughout the twentieth century Congress responded to those changes

Congress Reconsidered, 10th Edition Lawrence C. Dodd, 2013 Always a classic Dodd and Oppenheimer's *Congress Reconsidered* is the recognized source for in depth cutting edge scholarship on Congress geared to undergraduates

Thoroughly updated for the 112th Congress *The American Congress* Steven S. Smith, Jason M. Roberts, Ryan J. Vander Wielen, 2006 The American Congress provides the most insightful up to date treatment of congressional politics available in an undergraduate text Informed by the authors Capitol Hill experience and nationally recognized scholarship The American Congress presents a crisp introduction to all major features of Congress its party and committee systems leadership and voting and floor activity The American Congress has the most in depth discussions of the place of the president the courts and interest groups in congressional policy making available in a text **Unbroken Government** Wendy N. Whitman Cobb, 2013-08-20 Unbroken Government demonstrates how institutional and electoral characteristics present since the writing of the Constitution influence policy development Utilizing policy areas as diverse as human spaceflight clean air homeland security and foreign policy this work shows how these patterns manifest themselves in the policymaking process

Winner-Take-All Politics Jacob S. Hacker, Paul Pierson, 2010-09-14 A groundbreaking work that identifies the real culprit behind one of the great economic crimes of our time the growing inequality of incomes between the vast majority of Americans and the richest of the rich We all know that the very rich have gotten a lot richer these past few decades while most Americans haven't In fact the exorbitantly paid have continued to thrive during the current economic crisis even as the rest of Americans have continued to fall behind Why do they have it all and have so much more And how have they managed to restructure the economy to reap the lion's share of the gains and shift the costs of their new economic playground downward tearing new holes in the safety net and saddling all of us with increased debt and risk Lots of so called experts claim to have solved this great mystery but no one has really gotten to the bottom of it until now In their lively and provocative Winner Take All Politics renowned political scientists Jacob S. Hacker and Paul Pierson demonstrate convincingly that the usual suspects foreign trade and financial globalization technological changes in the workplace increased education at the top are largely innocent of the charges against them Instead they indict an unlikely suspect and take us on an entertaining tour of the mountain of evidence against the culprit The guilty party is American politics Runaway inequality and the present economic crisis reflect what government has done to aid the rich and what it has not done to safeguard the interests of the middle class The winner take all economy is primarily a result of winner take all politics In an innovative historical departure Hacker and Pierson trace the rise of the winner take all economy back to the late 1970s when under a Democratic president and a Democratic Congress a major transformation of American politics occurred With big business and conservative ideologues organizing themselves to undo the regulations and progressive tax policies that had helped ensure a fair distribution of economic rewards deregulation got under way taxes were cut for the wealthiest and business decisively defeated labor in Washington And this transformation continued under Reagan and the Bushes as well as under Clinton with both parties catering to the interests of those at the very top Hacker and Pierson's gripping narration of the epic battles waged during President Obama's first two years in office reveals an unpleasant but catalyzing truth winner take all politics

while under challenge is still very much with us Winner Take All Politics part revelatory history part political analysis part intellectual journey shows how a political system that traditionally has been responsive to the interests of the middle class has been hijacked by the superrich In doing so it not only changes how we think about American politics but also points the way to rebuilding a democracy that serves the interests of the many rather than just those of the wealthy few

Congressional Travels Richard Fenno, 2016-01-08 A follow up book to his classic *Home Style* House Members in their Districts this new book by the preeminent legislative studies scholar Dick Fenno is intended for use in courses on Congress political campaigning and American government Written in Fenno's homespun story telling style this book argues that authenticity knowing what a representative is like in his/her district and looking beyond mere roll call voting contributes significantly to understanding the full body of work done by our members of Congress It further posits by recounting Fenno's actual life's work that the best way to gain a sense of authenticity is to do what Fenno is most famous for i.e. making multiple trips and spending a great deal of time observing representatives at home with their constituents in their districts The book is an engaging quietly provocative and unique title that offers an alternative to what some consider the increasingly specialized and technical nature of political science

The Legislative Branch Sarah A. Binder, 2005 Contains eighteen essays in which political scientists and scholars of public policy examine the performance of the U.S. Congress as a democratic institution covering ideals and development elections and representation structures and processes policy and performance and assessments and prospects

Congress in Context John Haskell, 2018-04-17 The U.S. Congress is by the far the least popular and most misunderstood branch of the federal government *Congress in Context* demystifies the institution giving students a comprehensive and practical understanding of Congress and the legislative process This book takes a different approach to the study of Congress than other texts Usually Congress is treated in isolation from the rest of the government But the Framers of the Constitution explicitly intended for the branches of government to be interdependent *Congress in Context* introduces readers to Congress's critical role in the context of this interdependent system Using the metaphor of a board of directors the authors explain the three key roles of Congress within the federal government authorizing what government does funding its activities and supervising how it carries out the laws Congress passes and shows students how Congress interacts with the rest of the government to exercise these powers The thoroughly expanded and revised second edition features brand new chapters on Congress and the courts and Congress and interest groups It also includes expanded coverage of Congress's relationship with the executive branch campaign finance and today's major budget issues Grounded in the latest political science literature coupled with contemporary examples *Congress in Context* offers students an informed yet accessible introduction to how the legislative branch carries out its duties

The Legislative Branch Paul J. Quirk, Sarah A. Binder, 2005-10-27 Edited by Paul J. Quirk and Sarah A. Binder this collection of essays examines the role of the Legislature in American democracy and the dynamic between the other branches of government and

discusses possible measures for reform The volume addresses questions such as How does Congress serve the values of democracy and American constitutional principles Which conceptions of those values does it implement and which does it overlook or fail to realize What are Congress's strengths and weaknesses in performing the tasks of democratic governance What reforms if any are necessary to ensure the health and success of Congress as an institution of democracy in the future

The Oxford Handbook of American Political Development Richard M. Valelly, Suzanne Mettler, Robert C.

Lieberman, 2016-09-15 Scholars working in or sympathetic to American political development APD share a commitment to accurately understanding the history of American politics and thus they question stylized facts about America's political evolution Like other approaches to American politics APD prizes analytical rigor data collection the development and testing of theory and the generation of provocative hypotheses Much APD scholarship indeed overlaps with the American politics subfield and its many well developed literatures on specific institutions or processes for example Congress judicial politics or party competition specific policy domains welfare policy immigration the foundations of inequality in American politics the distribution of wealth and income race ethnicity gender class and sexual and gender orientation public law and governance and representation What distinguishes APD is careful systematic thought about the ways that political processes civic ideals the political construction of social divisions patterns of identity formation the making and implementation of public policies contestation over and via the Constitution and other formal and informal institutions and processes evolve over time and whether and how they alter compromise or sustain the American liberal democratic regime APD scholars identify in short the histories that constitute American politics They ask what familiar or unfamiliar elements of the American past illuminate the present Are contemporary phenomena that appear new or surprising prefigured in ways that an APD approach can bring to the fore If a contemporary phenomenon is unprecedented then how might an accurate understanding of the evolution of American politics unlock its significance Featuring contributions from leading academics in the field The Oxford Handbook of American Political Development provides an authoritative and accessible analysis of the study of American political development

The ^AGingrich Senators Sean M. Theriault, 2013-05-01 In The Gingrich Senators noted political scientist Sean Theriault documents how former House members who learned politics at the knee of Newt Gingrich have been behind the transformation of the U S Senate from the venerated chamber of the 1950s into the partisan battleground that is regularly the scorn of even the senators themselves

Party Ballots, Reform, and the Transformation of America's Electoral System Erik J. Engstrom, Samuel Kernell, 2014-10-27 This book demonstrates that nineteenth century electoral politics were the product of institutions that prescribed how votes were cast and were converted into political offices

Responsible Partisanship? John Clifford Green, Paul S. Herrnson, 2002 More than fifty years have passed since the American Political Science Association published Toward a More Responsible Two Party System a controversial report that addressed the lack of national cohesion within the major parties Although parties have changed a great deal since then they

remain a critical component of American democracy While the possibilities and limits of responsible party government have been central topics in the literature since 1950 this book is the first to reassess all aspects of the APSA report Here a distinguished group of scholars among them Charles O Jones Barbara Sinclair Frank J Sorauf John Bibby and Gerald Pomper examine the effectiveness accountability and relevance of parties to the democratic process These articles cover all major relevant topics focusing on recent changes in laws that govern parties innovations in party organization party finance and the relationships among political consultants and parties They examine the place of the party in government including chapters on the changing role of parties in Congress and in the presidency and also consider the roles of parties among the electorate examining trends in voting behavior party identification and ideology A capstone essay by Leon Epstein the dean of American party scholars reviews the ongoing quest for responsible partisanship over the past half century These contributors offer a mixed assessment of the two party system showing that parties are in many respects stronger at the national level than they were in 1950 but not necessarily more responsible The most comprehensive description and analysis of American parties now available Responsible Partisanship should become required reading for all students and citizens concerned with making parties more accountable instruments of government *The Oxford Handbook of Historical Political Economy* Jeffery A. Jenkins, Jared Rubin, 2024 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online

Yeah, reviewing a ebook **Senate Exceptionalism** could go to your close links listings. This is just one of the solutions for you to be successful. As understood, carrying out does not recommend that you have wonderful points.

Comprehending as capably as covenant even more than other will offer each success. adjacent to, the broadcast as without difficulty as perception of this Senate Exceptionalism can be taken as with ease as picked to act.
