Sensation And Intuition Studies In Psychology And Aesthetics:

Sensation and Intuition James Sully, 1880 *Sensation and Intuition* James Sully, 1874 *Sensation and Intuition: Studies in Psychology and Aesthetics* James Sully, 2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book without typos from the publisher. Not indexed. Not illustrated. 1874 edition. Excerpt: Finally the scientific mind gathers up all such credible conceptions branching out in all directions of space and time and formulates them in general laws. Every one of these universal propositions stands for an indefinite number of anticipations. Of these some are simple and positive that is point to events we really count upon witnessing for ourselves. The greater number however are complex and conditional that is rest on a supposition of certain experiences which we either regard as probable at some future day or can imagine ourselves as undergoing or having undergone at any conceivable point of time. The number of our own actual experiences of the given fact may be small enough and yet we do not hesitate to cast ourselves in thought at least if not in action on this indefinitely wide range of conceivable experiences. We have now ceased to draw our crude childish inferences of a world revolving about us like some painted cylinder with all its different pictures occurring in exactly the same order and have expanded our field of vision to a world with no clearly marked limits in space or time a vast painted canvas for ever moving onwards before the eye in which at first sight nothing but most intricate and unlike groupings of coloured forms are discoverable subtly woven lines that intersect in ever fresh arabesque forms but in which the measuring eye of the geometer discovers unfailing uniformities of relation resolving every picturesque complexity into a modified combination of a few elementary lines and surfaces. In this way then it seems possible to connect the definite beliefs of maturity with those wild impulses to realize an idea as actual sensation which I have regarded as the germinal form of all. *Sensation and Intuition* James Sully, 2017-07-15 Excerpt from *Sensation and Intuition: Studies in Psychology and Aesthetics* The author would tender his best thanks to Professor Bain 1st to Mr Herbert Spencer for their kindness in giving him fuller explanations of their published views. He would also express his obligations to Professor Bain to the Rev J. About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books. Sensation and Intuition James Sully,1874 [Women Musicians in Victorian Fiction, 1860-1900](#) Phyllis Weliver,2018-02-06 This title was first published in 2000 Phyllis Weliver investigates representations of female musicians in British novels from 1860 to 1900 with regard to changing gender roles musical practices and scientific discourses During this time women were portrayed in complex and nuanced ways as they played and sang in family drawing rooms Women in the 19th century were judged on their manners appearance language and other accomplishments such as sewing or painting but music stood out as an area where women were encouraged to take centre stage and demonstrate their genteel education graceful movements and self expression However within the novels of the Victorian were beginning to move away from portraying the musical accomplishments of middle and upper class women as feminine and worthwhile towards depicting musical women as truly dangerous This book explores the reasons for this reaction and the way labels and images were constructed to show extremes of behaviour and it looks at whether the fiction was depicting the real trends in music at the time

The Physiology of the Novel Nicholas Dames,2007-09-27 How did the Victorians read novels Nicholas Dames answers that deceptively simple question by revealing a now forgotten range of nineteenth century theories of the novel a range based in a study of human physiology during the act of reading He demonstrates the ways in which the Victorians thought they read and uncovers surprising responses to the question of what might have transpired in the minds and bodies of readers of Victorian fiction His detailed studies of novelcritics who were also interested in neurological science combined with readings of novels by Thackeray Eliot Meredith and Gissing propose a vision of the Victorian novel reader as far from the quietly immersed being we now imagine as instead a reader whose nervous system was addressed attacked andsoothed by authors newly aware of the neural operations of their public Rich in unexpected intersections from the British response to Wagnerian opera to the birth of speed reading in the late nineteenth century The Physiology of the Novel challenges our assumptions about what novel reading once did and still does to the individual reader and provides new answers to the question of how novels influenced a culture s way of reading responding and feeling

Invalidism and Identity in Nineteenth-Century Britain Maria H. Frawley,2010-11-15

Nineteenth century Britain did not invent chronic illness but its social climate allowed hundreds of men and women from intellectuals to factory workers to assume the identity of invalid Whether they suffered from a temporary condition or an incurable disease many wrote about their experiences leaving behind an astonishingly rich and varied record of disability in Victorian Britain Using an array of primary sources Maria Frawley here constructs a cultural history of invalidism She describes the ways that Evangelicalism industrialization and changing patterns of doctor patient relationships all converged to allow a culture of invalidism to flourish and explores what it meant for a person to be designated or to deem oneself an invalid Highlighting how different types of invalids developed distinct rhetorical strategies her absorbing account reveals that contrary to popular belief many of the period s most prominent and prolific invalids were men while many women found invalidism an unexpected opportunity for authority In uncovering the wide range of cultural and social responses to notions of incapacity Frawley sheds light on our own historical moment similarly fraught with equally complicated attitudes toward mental and physical disorder The Cambridge Companion to the Fin de Siècle Gail Marshall,2007-08-02 Publisher description What is art? Leo Tolstoy,1904 This profound analysis of the nature of art is the culmination of a series of essays and polemics on issues of morality social justice and religion Considering and rejecting the idea that art reveals and reinvents through beauty Tolstoy perceives the question of the nature of art to be a religious one Ultimately he concludes art must be a force for good for the progress and improvement of mankind **British Women's Writing from Brontë to**

Bloomsbury, Volume 2 Adrienne E. Gavin,Carolyn W. de la L. Oulton,2020-08-26 This five volume series British Women s Writing From Bront to Bloomsbury 1840 1940 historically contextualizes and traces developments in women s fiction from 1840 to 1940 Critically assessing both canonical and lesser known British women s writing decade by decade it redefines the landscape of women s authorship across a century of dynamic social and cultural change With each of its volumes devoted to two decades the series is wide in scope but historically sharply defined Volume 2 1860s and 1870s continues the series by historically and culturally contextualizing Victorian women s writing distinctly within the 1860s and 1870s Covering a range of fictional approaches including short stories religiously inflected novels and comic writing the volume s 16 original essays consider such developments as the sensation craze the impact of new technologies and the career opportunities opening for women Centrally it reassesses key nineteenth century female authors in the context in which they first published while also recovering neglected women writers who helped to shape the literary landscape of the 1860s and 1870s

Cézanne's Other Susan Sidlauskas,2009 In the voluminous scholarship that s been written on Paul Cezanne little has been said about the twenty four portraits in oil that Cezanne made of his wife Hortense Fiquet Cezanne over an extended twenty year period In *Cezanne s Other The Portraits of Hortense* Susan Sidlauskas breaks new ground focusing on these paintings as a group and looking particularly at the differences that render many of them unrecognizable as the same person She argues that Cezanne sidestepped the conventional goals of portraiture he avoids representing a consistent identifiable

physiognomy or conventional feminine postures and does not portray the subject's inner life making lack of fixedness itself his subject which leads him ultimately to a radical reformulation of modern portraiture Sidlauskas also upends the notion of Mme Cezanne as the irrelevant and absent spouse Instead she reveals Hortense Fiquet Cezanne as a presence so crucial to the artist that she became the essential other to his ever evolving self Coupling historical texts from philosophy psychology and physiology with more recent writings from women's and gender studies cognitive psychology and visual culture Sidlauskas demonstrates that Mme Cezanne offered intimacy at arm's length for the painter who has been dubbed the lone wolf of Aix Book Jacket

The Wellesley Index to Victorian Periodicals 1824-1900 Walter E. Houghton, 2013-05-24
