Sense Nonsense In The Office:

Taming the System Samuel Walker, 1993-05-20 It is a truism that the administration of criminal justice consists of a series of discretionary decisions by police prosecutors judges and other officials Taming the System is a history of the forty year effort to control the discretion It examines the discretion problem from the initial discovery of the phenomenon by the American Bar Foundation in the 1950s through to the most recent evaluation research on reform measures Of enormous value to scholars reformers and criminal justice professionals this book approaches the discretion problem through a detailed examination of four decision points policing bail setting plea bargaining and sentencing In a field which largely produces short ranged evaluation research this study in taking a wider approach distinguishes between the role of administrative bodies the police and evaluates the longer term trends and the successful reforms in criminal justice history

A Cultural History of the Senses in the Modern Age David Howes, 2014-10-23 In the 20th century many aspects of life became a matter of perception in the wake of the multiplication of media stylistic experimentation and the rise of multiculturalism Life sped up as a result of new modes of transportation automobiles and airplanes and communication telephones and personal computers which emphasized the rapid movement of people and ideas The proliferation of synthetic products and simulated experiences from artificial flavors to video games in turn created heady virtual worlds of sensation This progressive mediation and acceleration of sensation along with the sensory and environmental pollution it often spawned also sparked various countertrends such as the back to nature movement the craft movement slow food and alternative medicine This volume shows how attending to the sensory dynamics of the modern age yields many fresh insights into the intertwined processes which gave the 20th century its particular feel of technological prowess and gaudy artificiality A Cultural History of the Senses in the Modern Age presents essays on the following topics
