Refined Consequentialism Patrick Andrew Tully, 2006 Refined Consequentialism critically examines the moral vision offered by the late Richard A. McCormick, the premier American Catholic moral theologian of the post-Vatican II era. Taking a philosophical approach to a debate carried on primarily by moral theologians, the author presents a forceful case that McCormick's brand of proportionalism belongs in the ranks of consequentialist moral theories. In doing so, the author stakes out a clear position on one side of a crucial debate that goes to the heart of the Catholic and Christian moral tradition. This book may serve as a text in both undergraduate and graduate courses that deal with contemporary Catholic and secular moral thought. A broader public, one interested in the history of moral theology and in the ethical theoretical underpinnings of

the current debates within the churches on euthanasia supporting pro choice politicians and removal of nutrition and hydration from gravely ill patients will also find this book of great interest **Eclipse of Action** Richard

Halpern, 2017-03-13 According to traditional accounts the history of tragedy is itself tragic following a miraculous birth in fifth century Athens and a brilliant resurgence in the early modern period tragic drama then falls into a marked decline While disputing the notion that tragedy has died this wide ranging study argues that it faces an unprecedented challenge in modern times from an unexpected quarter political economy Since Aristotle tragedy has been seen as uniquely exhibiting the importance of action for human happiness Beginning with Adam Smith however political economy has claimed that the source of happiness is primarily production *Eclipse of Action* examines the tense relations between action and production doing and making in playwrights from Aeschylus Marlowe Shakespeare and Milton to Beckett Arthur Miller and Sarah Kane Richard Halpern places these figures in conversation with works by Aristotle Smith Hegel Marx Hannah Arendt Georges Bataille and others in order to trace the long history of the ways in which economic thought and tragic drama interact
