Sensible Ecstasy Mysticism Sexual Difference And The Demands Of History:

Sensible Ecstasy Amy Hollywood, 2002 *Sensible Ecstasy* investigates the attraction to excessive forms of mysticism among twentieth century French intellectuals and demonstrates the work that the figure of the mystic does for these thinkers With special attention to Georges Bataille Simone de Beauvoir Jacques Lacan and Luce Irigaray Amy Hollywood asks why resolutely secular even anti Christian intellectuals are drawn to affective bodily and widely denigrated forms of mysticism What is particular to these thinkers Hollywood reveals is their attention to forms of mysticism associated with women They regard mystics such as Angela of Foligno Hadewijch and Teresa of Avila not as emotionally excessive or escapist but as unique in their ability to think outside of the restrictive oppositions that continue to afflict our understanding of subjectivity the body and sexual difference Mystics such as these like their twentieth century descendants bridge the gaps between action and contemplation emotion and reason and body and soul offering new ways of thinking about language and the limits of representation *Mysticism in the French Tradition* Louise Nelstrop, Bradley B. Onishi, 2016-03-09 In the nineteenth and early twentieth centuries secular French scholars started re engaging with religious ideas particularly mystical ones *Mysticism in the French Tradition* introduces key philosophical undercurrents and trajectories in French thought that underpin and arise from this engagement as well as considering earlier French contributions to the development of mysticism Filling a gap in the literature the book offers critical reflections on French scholarship in terms of its engagement with its mystical and apophatic dimensions A multiplicity of factors converge to shape these encounters with mystical theology feminist devotional and philosophical treatments as well as literary historical and artistic approaches The essays draw these into conversation Bringing together an international and interdisciplinary range of contributions from both new and established scholars this book provides access to the melting pot out of which the mystical tradition in France erupted in the twenty first century and from which it continues to challenge theology today *The Cambridge Companion to Christian Mysticism* Amy Hollywood, Patricia Z. Beckman, 2012-09-17 *The Cambridge Companion to Christian Mysticism* is a multi authored interdisciplinary guide to the study of Christian mysticism with an emphasis on the third through the seventeenth centuries The book is thematically organized in terms of the central contexts practices and concepts associated with the mystical life in early medieval and early modern Christianity This book looks beyond the term mysticism which was an early modern invention to explore the ways in which the ancient terms mystic and mystical were used in the Christian tradition what kinds of practices modes of life and experiences were described as mystical What understanding of Christianity and of the life of Christian perfection is articulated through mystical interpretations of scripture mystical contemplation mystical vision mystical theology or mystical union This volume both provides a clear introduction to the Christian mystical life and articulates a bold new approach to the study of mysticism *On Becoming God: Late Medieval Mysticism and the Modern Western Self* Ben Morgan, 2013 Do we have to conceive of ourselves as isolated individuals inevitably distanced from other

people and from whatever we might mean when we use the word God On Becoming God offers an innovative approach to the history of the modern Western self by looking at human identity as something people do together rather than on their own as a way of managing and keeping at bay the impulses and experiences associated with the word God The self is a way of doing things or of not doing things with God The book draws on phenomenology Heidegger gender studies Beauvoir Butler and contemporary neuroscience It surveys existing approaches to modern selfhood Foucault Charles Taylor and proposes an alternative account by investigating late medieval mysticism in particular texts written in Germany by Meister Eckhart and others It concludes by exploring the parallel between late medieval confessors and their spiritual charges and late nineteenth century psychoanalysts and their patients in search of a vocabulary for acknowledging and nurturing our everyday commitments to others and to our spiritual longings

Mystics William Harmless, 2008 Mystics are path breaking religious practitioners who claim to have experience the infinite word defying Mystery that is God Many have been gifted writers with an uncanny ability to communicate the great realities of life with both a theologian's precision and a poet's lyricism They use words to jolt us into recognizing ineffable mysteries surging beneath the surface of our lives and within the depths of our hearts and by their artistry can awaken us to see and savor fugitive glimpses of a God-drenched world In Mystics William Harmless S J introduces readers to the scholarly study of mysticism He explores both mystics' extraordinary lives and their no less extraordinary writings using a unique case study method centered on detailed examinations of six major Christian mystics Thomas Merton Bernard of Clairvaux Hildegard of Bingen Bonaventure Meister Eckhart and Evagrius Ponticus Rather than presenting mysticism as a subtle web of psychological or theological abstractions Harmless's case study approach brings things down to earth restoring mystics to their historical context Harmless highlights the pungent diversity of mystical experiences and mystical theologies Stepping beyond Christianity he also explores mystical elements within Islam and Buddhism offering a chapter on the popular Sufi poet Rumi and one on the famous Japanese Zen master Dogen Harmless concludes with an overview of the century-long scholarly conversation on mysticism and offers a unique multifaceted optic for understanding mystics their communities and their writings Geared toward a wide audience

Mystics balances state of the art scholarship with accessible lucid prose Eroticizing Aesthetics Tim Themi,2021-06-03 Bringing together Bataille with Lacan and Nietzsche Tim Themi examines the role of aesthetics implicit in each and how this invokes an erotic process celebrating the real of what is usually excluded from articulation Bataille came to deem eroticism as the standpoint from which to grasp humanity as a whole based on his understanding of our transition to humanity being founded on a series of taboos placed on inner animality An erotic outlet for the latter was historically the aesthetic dimensions of our religions but Bataille s view of how this was gradually diminished has much in keeping with Nietzsche s critique of Christian Platonic dualism and Lacan s of the desexualised Good of Western metaphysics Building from these often surprising proximities Themi closely examines Bataille s many interventions into the history of aesthetics from his confrontations with Breton s surrealism to his own novels and encounter with the animal cave paintings of Lascaux radically re illuminating the corollary phenomena of Dionysos in Nietzsche s philosophy and the jouissance enjoyment of transgression in the psychoanalysis of Lacan A new ethical criterion for aesthetic works and creations on this basis becomes possible

Divine Love Morny Joy,2006 Exploring the religious and spiritual elements of Irigaray s thought this book presents her ideas on love the divine an ethics of sexual difference and normative heterosexuality It contextualises her work in terms of its reception by secular feminists and feminists within Religious Studies **Self-knowledge** Ursula Renz,2017 Self knowledge is often taken to constitute both the beginning and the end of humans search for wisdom Not surprisingly the Delphic injunction Know thyself has fascinated philosophers of different times backgrounds and tempers This book explores how the search for wisdom is reflected in conceptions of self knowledge throughout the history of philosophy and human culture

From the Material to the Mystical in Late Medieval Piety Racha Kirakosian,2021-09-30 Examining correlations between the material and the mystical this books investigates collective writing and devotional culture in late medieval piety *Sex, Sin, and Our Selves* Anna Fisk,2014-03-17 Sex Sin and Our Selves brings together readings in feminist theological thought and the literature of the acclaimed contemporary writers Michele Roberts and Sara Maitland Through placing theology in conversation with Roberts s and Maitland s literary engagement with issues of religion and gender this book explores themes of selfhood connection sex sin and self sacrifice In doing so it challenges a tendency of feminist theology to seek simple and idealized answers rather than honor complexity and the need to continue to ask questions In the encounters in feminist theology and contemporary women s writing Anna Fisk employs autobiographical narrative critically understood as reading these stories beside my own **Modernity and Epistemology in Nineteenth-Century Spain** Ryan A. Davis,Alicia Cerezo Paredes,2016-12-14 The fraught tension between science and religion has loomed large in scholarship about the nineteenth century in Spain especially given the prominence of the Catholic Church and the discoveries made by Wallace and Darwin The struggle for epistemological superiority between these two discourses science and religion has served to overshadow certain corners of the cultural landscape that though prominent sites of intellectual exploration in their day have received

comparatively less scholarly attention until recently *Fringe Discourses* brings together a group of essays that seeks to restore a sense of the epistemological richness of nineteenth century Spain By exploring the relationship between epistemology modernity and subjectivity these essays recover significant efforts by Spanish authors and intellectuals to explain human nature and their world which seemed to be changing so radically before their eyes In doing so the essays also reveal just how elastic the relationship was between science and pseudoscience genius and quackery Offering a veritable Wunderkammer the authors collected here train their sights both on curious fields of study from pogonolgy the science of beards to Spiritualism and curiouser people from a government spy on undercover assignment in Morocco dressed as a Moorish prince to a hypnotic huckster who dupes the queen regent With other authors focusing on science fiction dystopias mystical journeys and anatomical symbology *Fringe Discourses* reveals the Spanish nineteenth century for the intellectual Wild West it was

Sexuality and its Queer Discontents in Middle English Literature T. Pugh, 2008-02-04 This book exposes the ways in which ostensibly normative sexualities depend upon queerness to shore up their claims of privilege Through readings of such classic texts as *The Canterbury Tales* and *Eger and Grime* Tison Pugh explains how sexual normativity can often be claimed only after queerness has been rejected

What Is Sexual Difference? Mary C. Rawlinson, James Sares, 2023-06-06 Luce Irigaray has written that sexual difference is one of the major philosophical issues if not the issue of our age Spanning metaphysics phenomenology and psychoanalysis her work examines how sexual difference structures being and subjectivity organizes our experience of the world and affects the images and discourses involved in knowledge production and practical action No other philosopher has paid such careful attention to the consequences of the elision of sexual difference in philosophical thought However at a time when notions of sexual and gender difference are hotly contested Irigaray's thought has often been dismissed as essentialist or reductively binary This book brings together leading scholars to consider the philosophical implications of Irigaray's writing on sexual

difference particularly for issues of gender and race Their essays directly confront the charge of essentialism exploring how Irigaray's thought opens new possibilities for understanding the complexity of gender identities including nonbinary and trans experiences as well as alternative configurations of masculinity and femininity Though Irigaray is sometimes accused of a failure to appreciate racial difference contributors show the productive role of her work in thinking race This book also illuminates how Irigaray's work provides creative practices that help realign human experience and our relations with nature and each other

Theology after Postmodernity Tina Beattie, 2013-10-04 Theology after Postmodernity is a groundbreaking study that has the capacity to transform the relationship between psychoanalytic theory and Christian theology Reading the theology of Thomas Aquinas in close engagement with the psychoanalytic theory of Jacques Lacan Tina Beattie shows how Thomism exerted a formative influence on Lacan and she also shows how a Lacanian approach can bring rich new insights to Thomas's theology A growing number of English speaking scholars now recognize the extent to which twentieth century French theorists and philosophers were influenced by medieval theology and there have been several studies of Jacques Lacan's Thomism However this is the first study published in English to bring a Lacanian feminist perspective to bear on the theology of Thomas Aquinas Focusing on the centrality of desire in Thomas's theology and Lacan's psychoanalytic theory Beattie follows Lacan along an overgrown and often hidden path through the changing configurations of desire gender and knowledge from their Aristotelian formation in the medieval universities to their fragmentation in the collapse of modernity's visions and values Beattie offers a penetrating critique of Thomas's Aristotelianism but she also excavates the mystical treasures within his theology This enables her to show how Thomas's God remains an unconscious but potent influence in the shaping of modern western thought and to ask what transformations might be needed in order to bring about a Thomism for our times Probing beneath the surface of Thomas's Summa Theologiae and other writings she brings to light the Other of Thomas's One God an incarnate maternal Trinity who emerges when Thomas's Aristotelian ontotheology is suspended and the more neglected aspects of his doctrinal and theological insights are allowed to emerge Lacan makes possible a renewed Thomism which offers a rich theology of creation incarnation and redemption capable of responding to some of the most urgent and far reaching challenges that questions of gender nature and God pose to Christian theological language in its classical and postmodern formations

Luce Irigaray and Premodern Culture Elizabeth D. Harvey, Theresa Krier, 2004-08-02 The essays in this groundbreaking collection stage conversations between the thought of the controversial feminist philosopher linguist and psychoanalyst Luce Irigaray and premodern writers ranging from Empedocles and Homer to Shakespeare Spenser and Donne They explore both the pre Enlightenment roots of Luce Irigaray's thought and the impact that her writings have had on our understanding of ancient medieval and Renaissance culture Luce Irigaray has been a major figure in Anglo American literary theory philosophy and gender studies ever since her germinal works Speculum of the Other Woman and This Sex Which Is Not One were published in English translation in 1985 This

collection is the first sustained examination of Irigaray's crucial relationship to premodern discourses underpinning Western culture and of the transformative effect she has had on scholars working in pre-Enlightenment periods. Like Irigaray herself, the essays work at the intersections of gender theory, historicism, and language. This collection offers powerful ways of understanding premodern texts through Irigaray's theories that allow us to imagine our past and present relationship to economics, science, psychoanalysis, gender, ethics, and social communities in new ways.

Translating Christ in the Middle Ages Barbara Zimbalist, 2022-02-15 This study reveals how women's visionary texts played a central role within medieval discourses of authorship, reading, and devotion. From the twelfth to the fifteenth centuries, women across northern Europe began committing their visionary conversations with Christ to the written word. Translating Christ in this way required multiple transformations: divine speech into human language, aural event into textual artifact, visionary experience into linguistic record, and individual encounter into communal repetition. This ambitious study shows how women's visionary texts form an underexamined literary tradition within medieval religious culture. Barbara Zimbalist demonstrates how, within this tradition, female visionaries developed new forms of authorship, reading, and devotion. Through these transformations, the female visionary authorized herself and her text and performed a rhetorical *imitatio Christi* that offered models of interpretive practice and spoken devotion to her readers. This literary-historical tradition has not yet been fully recognized on its own terms. By exploring its development in hagiography, visionary texts, and devotional literature, Zimbalist shows how this literary mode came to be not only possible but widespread and influential. She argues that women's visionary translation reconfigured traditional hierarchies and positions of spiritual power for female authors and readers in ways that reverberated throughout late medieval literary and religious cultures. In translating their visionary conversations with Christ into vernacular text, medieval women turned themselves into authors and devotional guides and formed their readers into textual communities shaped by gendered visionary experiences and spoken *imitatio Christi*. Comparing texts in Latin, Dutch, French, and English, *Translating Christ in the Middle Ages* explores how women's visionary translation of Christ's speech initiated larger transformations of gendered authorship and religious authority within medieval culture. The book will interest scholars in different linguistic and religious traditions in medieval studies, history, religious studies, and women's and gender studies.

Contingency and the Limits of History Liane Carlson, 2019-07-30 Central to the historicizing work of recent decades has been the concept of contingency: the realm of chance, change, and the unnecessary. Following Nietzsche and Foucault, genealogists have deployed contingency to show that all institutions and ideas could have been otherwise as a critique of the status quo. Yet scholars have spent very little time considering the genealogy of contingency itself or what its history means for its role in politics. In *Contingency and the Limits of History*, Liane Carlson historicizes contingency by tying it to its theological and etymological roots, in touch with contending that much of its critical, disruptive power is specific to our current historical moment. She returns to an older definition of contingency found in Christian theology that understands it as

the lot of mortal creatures who suffer feel bleed and change in contrast to a necessary unchanging impassible God Far from dying out Carlson reveals this theological past persists in continental philosophy where thinkers such as Novalis Schelling Merleau Ponty and Serres have imagined contingency as a type of radical destabilization brought about by the body's collision with a changing world Through studies of sickness loneliness violation and love she shows that different experiences of contingency can lead to dramatically dissimilar ethical and political projects A strikingly original reconsideration of one of continental philosophy and critical theory's most cherished concepts this book reveals the limits of historicist accounts
