Sensible Wege Achtundvierzig Gedichte Und Ein Zyklus:

Sensible Wege Reiner Kunze, 1969 **The Poet's Role** Ruth J. Owen, 2021-10-18 This study of contemporary German poetry represents the first attempt to examine comprehensively and at some length the lyric response to the unification period. It sets out to investigate by means of close textual analysis whether the German Wende was also a turning point for poetry exploring how GDR poets responded both to the revolutionary events of 1989 and subsequently to the new united Germany. An introductory chapter considers what is distinct about poetry as a genre especially under censorship or amid historic change as well as outlining the post unification Literaturstreit. The following chapter offers a survey of the poet's role in the GDR from 1949 until 1989. Two central chapters then gather the poetry of the Wende and unification as a corpus of work and characterize it through the elucidation of recurring themes, motifs and techniques. The volume strikes a balance between giving a general overview of poetry written in 1989/1996 and focusing on individual poets whose work is particularly compelling. After identifying broad trends across a wide range of individual poems, collections and anthologies, single chapters therefore examine in greater depth the work of Volker Braun and Durs Grünbein. The concluding chapter addresses the issue of a separate GDR literature. Finally, an extensive structured bibliography is provided covering the poetry, literary criticism and cultural history of the period. **Das Spektrum der modernen Poesie** Hans Hiebel, 2005

Deutsche Dichtung in Epochen Walter Kißling, 2017-12-21 Friedrich Engels for the 21st Century Terrell Carver, Smail Rapić, 2022-05-16 This edited volume presents an interdisciplinary and international revaluation of Friedrich Engels as much more than junior partner to Karl Marx or second fiddle in the Marxist orchestra. The nineteen critical essays in this collection are the work of scholars from Germany, USA, UK, Italy, China, India, Mexico and the Philippines. Together they present and evaluate archival material and scholarly commentary that covers epistemology, political economy, political theory, gender studies, cultural studies, political geography, philosophy of social science and sociological studies of class conflict. Students, activists and specialists will find fresh consideration of familiar works such as *The Condition of the Working Class in England*, *The Origin of the Family, Private Property and the State* and *The Dialectics of Nature*. They will also be able to explore Engels's less familiar pamphleteering, literary criticism and political commentary through detailed contextualization and careful analysis. *Friedrich Engels for the 21st Century: Perspectives and Problems* is unique in putting different intellectual and political receptions of Engels's work into productive conversation, particularly from non-Anglophone scholars translated here into English. Readers will appreciate why Engels has been so widely celebrated some two hundred years after his birth.

Vorausgeworfene Schatten Helmut Fuhrmann, 2003 Kaum jemand hat vorausgesehen, daß die DDR nach dem Entzug ihrer entscheidenden Ueren Stütze des sowjetischen Imperialismus so rasch und so vollständig zusammenbrechen würde.
