Practice of Folklore Simon J. Bronner, 2019-08-01 Winner of the 2020 Chicago Folklore Prize CHOICE Outstanding Academic Title for 2020 Despite predictions that commercial mass culture would displace customs of the past traditions firmly abound often characterized as folklore In The Practice of Folklore Essays toward a Theory of Tradition author Simon J Bronner works with theories of cultural practice to explain the social and psychological need for tradition in everyday life Bronner proposes a distinctive praxic perspective that will answer the pressing philosophical as well as psychological question of why people enjoy repeating themselves The significance of the keyword practice he asserts is the embodiment of a tension between repetition and variation in human behavior Thinking with practice particularly in a digital world forces redefinitions of folklore and a reorientation toward interpreting everyday life More than performance or enactment in social theory practice connects localized culture with the vernacular idea that this is the way we do things around here Practice refers to the way those things are analyzed as part of rather than apart from theory thus inviting the study of studying The way we do things invokes the social basis of doing in practice as cultural and instrumental Building on previous studies of

tradition in relation to creativity Bronner presents an overview of practice theory and the ways it might be used in folklore and folklife studies Demonstrating the application of this theory in folkloristic studies Bronner offers four provocative case studies of psychocultural meanings that arise from traditional frames of action and address issues of our times referring to the boogieman connecting wild child beliefs to school shootings deciphering the offensive chants of sports fans and explicating male bravado in bawdy singing Turning his analysis to the analysts of tradition Bronner uses practice theory to evaluate the agenda of folklorists in shaping perceptions of tradition centered folk societies such as the Amish He further unpacks the culturally based rationale of public folklore programming He interprets the evolving idea of folk museums in a digital world and assesses how the folklorists terms and actions affect how people think about tradition Village Among Nations Royden Loewen,2013-12-06 Between the 1920s and the 1940s 10 000 traditionalist Mennonites emigrated from western Canada to isolated rural sections of Northern Mexico and the Paraguayan Chaco over the course of the twentieth century they became increasingly scattered through secondary migrations to East Paraguay British Honduras Bolivia and elsewhere in Latin America Despite this dispersion these Canadian descendant Mennonites who now number around 250 000 developed a rich transnational culture over the years resisting allegiance to any one nation and cultivating a strong sense of common peoplehood based on a history of migration nonviolence and distinct language and dress Village among Nations recuperates a missing chapter of Canadian history the story of these Mennonites who emigrated from Canada for cultural reasons but then in later generations returned in large numbers for economic and social security Royden Loewen analyzes a wide variety of texts by men and women letters memoirs reflections on family debates on land settlement exchanges with curious outsiders and deliberations on issues of citizenship They relate the untold experience of this uniquely transnational ethno religious community *Diaspora in the Countryside* Royden Loewen,2006-12-15 From the 1930s to the 1980s the North American countryside faced a profound cultural transformation in which a once unified rural society became fragmented and dispersed Families wishing to remain on the farm were required to accept new levels of automation while others unwilling or unable to make the change migrated to nearby towns or regional cities The cultural reformulation that resulted saw the emergence of a genuine rural diaspora The growing cultural and physical separation was especially true for close knit ethno religious communities Mennonites in particular Forced into regional cities the kaleidoscopic urban culture further fragmented the Mennonites into disparate social entities In *Diaspora in the Countryside* the phenomena of rural fragmentation is examined by comparing and contrasting two closely related but distinctive Dutch Russian Mennonite communities located in different parts of the continent Kansas and Manitoba respectively By systematically comparing these communities two distinctive responses to the mid twentieth century Great Disjuncture are made apparent Royden Loewen also contrasts the cultural changes of these farm families to the cultures their kin adopted in nearby towns and cities Loewen charts not only the dispersion of two rural communities but follows their former residents as they reformulate their lives in

new settings Christianity and Ethnicity in Canada Paul Bramadat, David Seljak, 2008-06-14 Over the past decade scholars and policy makers interested in Canadian multiculturalism have begun to take religion much more seriously Moreover Christian communities have become increasingly aware of the impact of ethnic diversity on church life However until very recently almost no systematic academic attention has been paid to the intersection between the ethnic and religious identities of individuals or communities This gap in both our academic literature and our public discourse represents an obstacle to understanding and integrating the large numbers of ethnic Christians most of whom either join existing Canadian churches or create ethnically specific congregations In Christianity and Ethnicity in Canada eleven scholars explore the complex relationships between religious and ethnic identity within the nine major Christian traditions in Canada The contributors discuss the ways in which changes in the ethnic composition of these traditions influence religious practice and identity as well as how the nine religious traditions influence communal and individual ethnic identities An introductory chapter by Paul Bramadat and David Seljak provides a thorough discussion of the theoretical historical and empirical issues involved in the study of Christianity and ethnicity in Canada This volume complements Religion and Ethnicity in Canada in which the authors address similar issues within the six major non Christian communities in Canada and within Canadian health care education and politics

Horse-and-Buggy Genius Royden Loewen, 2016-05-03 The history of the twentieth century is one of modernization a story of old ways being left behind Many traditionalist Mennonites rejected these changes especially the automobile which they regarded as a symbol of pride and individualism They became known as a horse and buggy people Between 2009 and 2012 Royden Loewen and a team of researchers interviewed 250 Mennonites in thirty five communities across the Americas about the impact of the modern world on their lives This book records their responses and strategies for resisting the very things ease technology upward mobility consumption that most people today take for granted Loewen's subjects are drawn from two distinctive groups 8 000 Old Order Mennonites who continue to pursue old ways in highly urbanized southern Ontario and 100 000 Old Colony Mennonites whose history of migration to protect traditional ways has taken them from the Canadian prairies to Mexico and farther south to Belize Paraguay and Bolivia Whether they live in the shadow of an urban industrial region or in more isolated rural communities the fundamental approach of horse and buggy Mennonites is the same life is best when it is kept simple lived out in the local close to nature This equation is the genius at the heart of their world
