their communities to stop or restrict the commercial availability of such materials

Citizens for Decency is an examination of two antipornography crusades one in the Midwest and the other in the Southwest It examines the evolution and impact of such crusades the satisfaction derived from participating and the relevant characteristics of the participants and their opponents It is the first systematic comprehensive and theory oriented study of antipornography crusades and one of the few studies that analyze movements to resist change The book begins with the assumption that the term pornography is a value judgment and that the labeling of sexually explicit materials as pornographic can be adequately understood only in the wider context of sociological and psychological structures and processes In approaching the antipornography crusades Louis A Zurcher and R George Kirkpatrick gathered data by observation and document search and by interviews with persons well informed about and central to the crusades Their examination of the organizations that directed the two movements is particularly extensive and their comparative analysis of the two organizations allows them to determine which features are the most important how these characteristics interact and what their relationship is to the symbolic crusade Among their important findings the authors show that antipornography crusaders are people discontent with their status who have mobilized to protect the dominance and prestige of their traditional life styles The participants in the crusades are shown to differ from their opponents in a number of significant ways In the final chapters the authors analyze their findings with reference to social movement theory and offer predictions concerning future symbolic crusades
