material on preaching drawn from the entire scope of the church's twenty centuries. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Volume 1, available separately as 9781501833779, contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative. Along the way, the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time: Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth—all of their distinctive contributions receive careful attention. Yet lesser-known figures and developments also appear: from the ninth-century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching; to Howell Harris and Daniel Rowlands, preachers of the eighteenth century; Welsh revival; to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. This work is expected to be the standard text on preaching for the next 30 years, says Ann K. Riggs, who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury Western Theological Seminary, is co-moderator of the commission, which studies church uniting and church dividing issues. *A History of Preaching* is ecumenical in scope and will be relevant in all our churches; we all participate in this field, says Riggs. The Medieval Church Joseph Lynch, 2014-07-17 The Medieval Church A Brief History argues for the pervasiveness of the Church in every aspect of life in medieval Europe It shows how the institution of the Church attempted to control the lives and behaviour of medieval people for example through canon law while at the same time being influenced by popular movements like the friars and heresy This fully updated and illustrated second edition offers a new introductory chapter on the Basics of Christianity for students who might be unfamiliar with this territory The book now has new material on some of the key individuals in church history Benedict of Nursia Hildegard of Bingen Bernard of Clairvaux and Francis of Assisi as well as a more comprehensive study throughout of the role of women in the medieval church Lynch and Adamo seek to explain the history of the Church as an institution and to explore its all-pervasive role in medieval life In the course of the thousand years covered in this book we see the members and leaders of the Western Church struggle with questions that are still relevant today What is the nature of God How does a church keep beliefs from becoming diluted in a diverse society What role should the state play in religion The book is now accompanied by a website with textual visual and musical primary sources making it a fantastic resource for students of medieval history
