Lost World No 2 The End Of The Third World:

Perform or Else Jon McKenzie, 2002-09-26 Performance has become one of the key terms for the new century But what do we mean by performance In today s world it can refer to experimental art productivity in the workplace and the functionality of technological systems Do these disparate fields bear any relation to each other In *Perform or Else* Jon McKenzie asserts that there is a relationship cultural organisational and technological performance In this theoretical tour de force McKenzie demonstrates that all three paradigms operate together to create powerful and contradictory pressures to perform or else This is an urgent and important intervention in contemporary critical thinking It will profoundly shape our understanding of twenty first century structures of power and knowledge

Fan Fiction and Copyright Aaron Schwabach, 2016-04-15 As long as there have been fans there has been fan fiction There seems to be a fundamental human need to tell additional stories about the characters after the book series play or movie is over But developments in information technology and copyright law have put these fan stories at risk of collision with the content owners intellectual property rights Fan fiction has long been a nearly invisible form of outsider art but over the past decade it has grown exponentially in volume and in legal importance Because of its nature authorship and underground status fan fiction stands at an intersection of key issues regarding property sexuality and gender In *Fan Fiction and Copyright* author Aaron Schwabach examines various types of fan created content and asks whether and to what extent they are protected from liability for copyright infringement Professor Schwabach discusses examples of original and fan works from a wide range of media genres and cultures From Sherlock Holmes to Harry Potter fictional characters their authors and their fans are sympathetically yet realistically assessed *Fan Fiction and Copyright* looks closely at examples of three categories of disputes between authors and their fans Disputes over the fans use of copyrighted characters disputes over online publication of fiction resembling copyright work and in the case of J K Rowling and a fansite webmaster a dispute over the compiling of a reference work detailing an author s fictional universe Offering more thorough coverage of many such controversies than has ever been available elsewhere and discussing fan works from the United States Brazil China India Russia and elsewhere *Fan Fiction and Copyright* advances the understanding of fan fiction as transformative use and points the way toward a safe harbor for fan fiction

Ending Empire

Hendrik Spruyt, 2005 At the dawn of the twentieth century imperial powers controlled most of the globe Within a few decades after World War II many of the great empires had dissolved and more recently multinational polities have similarly disbanded This process of reallocating patterns of authority from internal hierarchy to inter state relations proved far more contentious in some cases than in others While some governments exited the colonial era without becoming embroiled in lengthy conflicts others embarked on courses that drained their economies compelled huge sacrifices and caused domestic upheaval and revolution What explains these variations in territorial policy More specifically why do some governments have greater latitude to alter existing territorial arrangements whereas others are constrained in their room for maneuver In *Ending Empire* Hendrik Spruyt argues that the answer lies in the domestic institutional structures of the central governments Fragmented polities provide more opportunities for hard liners to veto concessions to nationalist and secessionist demands thus making violent conflict more likely Spruyt examines these dynamics in the democratic colonial empires of Britain France and the Netherlands He then turns to the authoritarian Portuguese empire and the break up of the Soviet Union Finally the

author submits that this theory which speaks to the political dynamics of partition can be applied to other contested territories including those at the heart of the Arab Israeli conflict

Beverly Buchanan Amelia Groom, 2021-02-02 An illustrated examination of Beverly Buchanan's 1981 environmental sculpture which exists in an ongoing state of ruination. Beverly Buchanan's Marsh Ruins 1981 are large solid mounds of cement and shell based tabby concrete yet their presence has always been elusive. Hiding in the tall grasses and brackish waters of the Marshes of Glynn on the southeast coast of Georgia the Marsh Ruins merge with their surroundings as they enact a curious and delicate tension between destruction and endurance. This volume offers an illustrated examination of Buchanan's environmental sculpture which exists in an ongoing state of ruination.

When God Lost Her Tongue Janell Hobson, 2021-09-30 *When God Lost Her Tongue* explores historical consciousness as captured through the Black feminist imagination that re-centers the perspectives of Black women in the African Diaspora and revisits how Black women's transatlantic histories are reimagined and politicized in our contemporary moment. Connecting select historical case studies from the Caribbean the African continent North America and Europe while also examining the retelling of these histories in the work of present day writers and artists Janell Hobson utilizes a Black feminist lens to rescue the narratives of African descended women which have been marginalized, erased, forgotten and/or misremembered. African goddesses crossing the Atlantic with captive Africans. Women leaders igniting the Haitian Revolution. Unnamed Black women in European paintings. African women on different sides of the door of no return during the era of the transatlantic slave trade. Even ubiquitous Black queens heralded and signified in a Beyoncé music video or a Janelle Monáe lyric. And then there are those whose names we will never forget like the iconic Harriet Tubman. This critical interdisciplinary intervention will be key reading for students and researchers studying African American women, Black feminisms, feminist methodologies, African studies and women and gender studies.
