C. Taylor William Cooke Taylor, 1846 Statesmen in Caricature N. G. Howe, 2019-02-21 The years 1780 to 1820 have long been seen as the Golden Age of the English satirical print This period witnessed a number of changes in style which had far reaching consequences including an increase in the effectiveness of the caricature as visual propaganda William Pitt the Younger and Charles James Fox were the leading politicians of the age continuing a family rivalry begun by their fathers They were amongst the most caricatured men of their time and became emblems of the two sides of the political debate whilst gathering personal followings based upon personality rather than filial or political patronage Fox and Pitt the Younger came to represent a more modern notion of the party leader in an age before formalized political parties and structures Neil Howe here shows how stock images came to the fore and examines the central role they played within the visual representation of politicians during the late eighteenth century His book also chronicles how the biggest political rivalry of the age played out within contemporary caricature from the emergence of Fox and Pitt as big political beasts in the wake of the American Revolution through the East India Bill Crisis Regency Crisis and French Revolution to the death of both men in 1806 **The Broadview Anthology of British Literature: Concise Volume A - Second Edition** Joseph Black, Leonard Conolly, Kate Flint, Isobel Grundy, Don LePan, Roy Liuzza, Jerome J.
