The Understanding of Nature Marjorie Grene, 2012-12-06 No student or colleague of Marjorie Grene will miss her incisive presence in these papers on the study and nature of living nature and we believe the new reader will quickly join the stimulating discussion and critique which Professor Grene steadily provokes For years she has worked with equally sure knowledge in the classical domain of philosophy and in modern epistemological inquiry equally philosopher of science and metaphysician Moreover she has the deeply sensible notion that she should be a critically intelligent learner as much as an imaginatively original thinker and as a result she has brought insightful expository readings of other philosophers and scientists to her own work We were most fortunate that Marjorie Grene was willing to spend a full semester of a recent leave here in Boston and we have on other occasions sought her participation in our colloquia and elsewhere Now we have the pleasure of including among the Boston Studies in the Philosophy of Science this generous selection from Grene's philosophical inquiries into the understanding of the natural world and of the men and women in it Boston University Center for the R S COHEN Philosophy and History of Science M W W ARTOFISKY April 1974 PREFACE This collection spans spottily years from 1946 On Some Distinctions between Men and Brutes to 1974 On the Nature of Natural Necessity

Hargrave,1823 *The Relation of Art to Nature* John W. Beatty,2020-08-04 Reproduction of the original *The Relation of Art to Nature* by John W Beatty **Buddha Nature** Sallie B. King,1991-01-22 This volume presents the first book length study in English of the concept of Buddha nature as discussed in the *Buddha Nature Treatise* *Fo Xing Lun* attributed to Vasubandhu and translated into Chinese by Paramartha in the sixth century The author provides a detailed discussion of one of the most important concepts in East Asian Buddhism a topic little addressed in Western studies of Buddhism until now and places the Buddha nature concept in the context of Buddhist intellectual history King then carefully explains the traditional Buddhist language in the text and embeds Buddha nature in a family of concepts and values which as a group are foundational to the development of the major indigenous schools of Chinese Buddhism In addition she refutes the accusations that the idea of Buddha nature introduces a crypto Atman into Buddhist thought and that it represents a form of monism akin to the Brahmanism of the Upanisads In doing this King defends Buddha nature in terms of purely Buddhist philosophical principles Finally the author engages the Buddha nature concept in dialogue with Western philosophy by asking what it teaches us about what a human being or person is *Foucault's Askesis* Edward F. McGushin,2007-04-03 In his renowned courses at the Coll ge de France from 1982 to 1984 Michel Foucault devoted his lectures to meticulous readings and interpretations of the works of Plato Epictetus Seneca and Marcus Aurelius among others In this his aim was not Edward F McGushin contends to develop a new knowledge of the history of philosophy rather it was to let himself be transformed by the very activity of thinking Thus this work shows us Foucault in the last phase of his life in the act of becoming a philosopher Here we see how his encounter with ancient philosophy allowed him to experience the practice of philosophy as to paraphrase Nietzsche a way of becoming who one is the work of self formation that the Greeks called ask sis Through a detailed study of Foucault s last courses McGushin demonstrates that this new way of practicing philosophical ask sis evokes Foucault s ethical resistance to modern relations of power and knowledge In order to understand Foucault s later project then it is necessary to see it within the context of his earlier work If his earlier projects represented an attempt to bring to light the relations of power and knowledge that narrowed and limited freedom then this last project represents his effort to take back that freedom by redefining it in terms of care of the self Foucault always stressed that modern power functions by producing individual subjects This book shows how his excavation of ancient philosophical practices gave him the tools to counter this function with a practice of self formation an ask sis *Japanese Philosophy* James W.
