Overkill John Cox,1977 **Bulletin of the Atomic Scientists** ,1977-09 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **After The Bomb** M. Grant,2009-11-12 Civil defence was an integral part of Britain s modern history Throughout the cold war it was a central response of the British Government to the threat of war This book will be the first history of the preparations to fight a nuclear war taken in Britain between the end of the Second World War and 1968 *The Earthscan Action Handbook for People and Planet* Miles Litvinoff,2013-11-05 We have poisoned the air and water on which our lives depend Poor countries exhaust their land in the struggle to survive while rich countries demand more and more The Earthscan Action Handbook spells out why things have gone so terribly wrong and what each of us can do to clean up the mess Each chapter deals with one of the major problems people and the planet now face meeting the human needs of health education and social justice as well as the environmental needs of our dying lakes and forests polluted seas threatened habitats and endangered species Packed with suggestions for positive action this book also gives details of who to contact what to read and where to go if you want to do more Whether you care about buying safe food or feeding the world The Earthscan Action Handbook is indispensable Originally published in 1990 **Marx and Education in Late Capitalism** R. F. Price,1986-01-01 The major premise of this book is that efforts to construct a Marxist analysis of education centered on schools and schooling are misdirected Instead the author contends that explorations of education must more importantly focus on the valuable learning experiences that occur outside the classroom Using Marx s own writings as a guide to interpreting past and present events the author explores how education should be conceptualized in order to liberate working people He identifies those aspects of education linked with the specifically capitalist nature of our societies and those that give hope of the cooperative responsible society that Marx anticipated Cold War Christians and the Spectre of Nuclear Deterrence, 1945-1959 J. Gorry,2013-10-30 Offering a new interpretation of early Cold War history this book demonstrates how Christian agency played a pivotal role in the creating of space for the logic of nuclear deterrence and nuclear war showing a balanced examination of Christians as enablers but more provocatively as resisters of nuclear prohibitions Fictions of Nuclear Disaster David Dowling,1987-06-18 *The Protest Makers* Richard J K Taylor,Colin Pritchard,2013-09-03 The Protest Makers The British Nuclear Disarmament Movement of 1958 1965 Twenty Years On explores the political and ideological dimensions of the Movement and the problems posed for achieving radical change in modern Britain This book is divided into four parts that analyze the attitudes and activities of Movement supporters some 20 years later The first part deals with the rise and decline of the Nuclear Disarmament Movement in Britain The second part defines and analyzes the complexity of the Movement s composition and then discusses the differing conceptions and motivations of activists between 1958 and 1965

This part contains ordinary supporters recollections and views of the Movement The third part outlines the various tendencies within the Movement as characterized by the leadership figures themselves The fourth part draws together some of the main themes emerging from empirical and theoretical examination of the Movement This part focuses the importance and political significance of the Movement

War and the City Gregory J. Ashworth, 2002-09-26 Cities have evolved from small urban systems designed to withstand attack to the modern demands of internal violence This book analyses the role of the cities in war and the effects of war on cities

Late Cold War Literature and Culture Daniel Cordle, 2017-03-03 This book analyses the 1980s as a nuclear decade focusing on British and United States fiction Ranging across genres including literary fiction science fiction post apocalyptic fiction graphic novels children s and young adult literature thrillers and horror it shows how pressing nuclear issues were particularly the possibility of nuclear war and how deeply they penetrated the culture It is innovative for its discussion of a nuclear transatlantic placing British and American texts in dialogue with one another for its identification of a vibrant young adult fiction that resonates with more conventionally studied literatures of the period and for its analysis of a politics of vulnerability animating nuclear debates Placing nuclear literature in social and historical contexts it shows how novels and short stories responded not only to nuclear fears but also crystallised contemporary debates about issues of gender the environment society and the economy

British Nuclear Mobilisation Since 1945 Jonathan Hogg, Kate Brown, 2021-05-18 This book explores aspects of the social and cultural history of nuclear Britain in the Cold War era 1945 1991 and contributes to a more multivalent exploration of the consequences of nuclear choices which are too often left unacknowledged by historians of post war Britain In the years after 1945 the British government mobilised money scientific knowledge people and military industrial capacity to create both an independent nuclear deterrent and the generation of electricity through nuclear reactors This expensive and vast technopolitical project mostly top secret and run by small sub committees within government was central to broader Cold War strategy and policy Recent attempts to map the resulting social and cultural history of these military industrial policy decisions suggest that nuclear mobilisation had far reaching consequences for British life The chapters in this book were originally published as a special issue of Contemporary British History
