Overseas Chinese Entrepreneurship and Capitalist Development in Southeast Asia Annabelle R. Gambe, 2000 The study aims at finding an explanation to the economic development of Southeast Asia To achieve this end Indonesia Malaysia Thailand and the Philippines have been chosen as the foci of the study To explain the region's recent success the study is guided by the hypothesis that overseas Chinese entrepreneurship exercised by a group belonging to a discriminated ethnic minority is an indispensable component of the capitalist development of Southeast Asia Overseas Chinese businesses dominate nearly all branches of the economy of their respective countries of residence On a regional scale they are acknowledged to control two thirds of the region's retail trade The hypothesis of the study is validated by the empirical findings Furthermore the study has arrived at the conclusion that Southeast Asia is host to a type of entrepreneurship Overseas Chinese entrepreneurship that evolved and developed throughout the centuries and proven for its resiliency and risk taking abilities It did not create the boom in the region however Liberal government policies the inflow of huge foreign capital and the availability of cheap and skilled labor among the indigenous population are among the more crucial factors that facilitated this transformation

Rural Capitalists in Asia Mario Rutten, 2005-08-18 This is a comparative study of small capitalists and rural industrialists in three Asian countries Studies on the entrepreneurial class in South Asia tend to focus on the structural aspects of entrepreneurial behaviour while studies on this class in Southeast Asia tend to focus on cultural aspects of their behaviour In fact this book points to striking similarities between Indian overseas Chinese and Muslim businessmen in Asia similarities usually hidden under variations in analytical approaches Although this study emphasizes similarities within Asia it does not support the view of a specific Asian business pattern different to the rise of non Asian especially European entrepreneurs The findings are of major interest not just within the fields of anthropology and entrepreneurship but to all scholars working on South or Southeast Asia who will find much of interest in the author's observations of variable research results between the two regions

China's Changing Economy Curtis Andressen,2016-05-20 One of the most dramatic events in the global economy over the past few decades has been the rise of China as a global economic power From humble beginnings in the late 1970s the policy shift in China from a planned to market economy has led to economic growth of tremendous speed This book examines the changes taking place in China s economy today and the impacts of these changes in China and abroad The central theme is that the rapid economic growth has come at a cost as many problems have emerged as a result in China s economy and society including a dramatic rich poor gap labour issues problems in the banking sector and severe inflation in the cost of housing as well as challenges with respect to China s external trade The Chinese government recognizes these problems and is taking steps to rebalance its economy and society The book takes a political economy perspective in order to investigate the interplay between the political system in China and the way in which the economy is structured and the manner in which economic changes take place Demonstrating that in order for China to achieve sustained economic growth and social improvement it must undertake serious policy changes it also highlights that if countries are going to deal with China in a stable and productive manner a thorough understanding of key contemporary developments in that country is vital Covering a range of the most pertinent issues facing China today this book will be of interest to students and scholars of Chinese Economics Economic Development

Civil Islam Robert W. Hefner, 2011-05-21 Civil Islam tells the story of Islam and democratization in Indonesia the world's largest Muslim nation Challenging stereotypes of Islam as antagonistic to democracy this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond Democratic in the early 1950s and with rich precedents for tolerance and civility Indonesia succumbed to violence In 1965 Muslim parties were drawn into the slaughter of half a million communists In the aftermath of this bloodshed a New Order regime came to power suppressing democratic forces and instituting dictatorial controls that held for decades Yet from this maelstrom of violence repressed by the state and denounced by conservative Muslims an Islamic democracy movement emerged strengthened and played a central role in the 1998 overthrow of the Soeharto regime In 1999 Muslim leader Abdurrahman Wahid was elected President of a reformist civilian government In explaining how this achievement was possible Robert Hefner emphasizes the importance of civil institutions and public civility but argues that neither democracy nor civil society is possible without a civilized state Against portrayals of Islam as inherently antipluralist and undemocratic he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state mobilized religiously ecumenical support promoted women's rights and championed democratic ideals This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism and places Indonesia at the center of our efforts to understand what makes democracy work
