Pacaa Nova:

The Pacaa Nova Bernard von Graeve, 1989 The Pacaa Nova tells a tragic story but an entirely fascinating one with first hand descriptions that bring the people to life for the student The Ending of Tribal Wars Jürg Helbling, Tobias Schwoerer, 2021-03-24 All over the world and throughout millennia states have attempted to subjugate control and dominate non state populations and to end their wars This book compares such processes of pacification leading to the end of tribal warfare in seven societies from all over the world between the 19th and 21st centuries It shows that pacification cannot be understood solely as a unilateral imposition of state control but needs to be approached as the result of specific interactions between state actors and non state local groups Indigenous groups usually had options in deciding between accepting and resisting state control State actors often had to make concessions or form alliances with indigenous groups in order to pursue their goals Incentives given to local groups sometimes played a more important role in ending warfare than repression In this way indigenous groups in interaction with state actors strongly shaped the character of the process of pacification This volume s comparison finds that pacification is more successful and more durable where state actors mainly focus on selective incentives for local groups to renounce warfare offer protection and only as a last resort use moderate repression combined with the quick establishment of effective institutions for peaceful conflict settlement Monkeys Loretta A. Cormier, 2003-10-15 Intrigued by a slide showing a woman breast feeding a monkey anthropologist Loretta A Cormier spent fifteen months living among the Guaj a foraging people in a remote area of Brazil The result is this ethnographic study of the extraordinary relationship between the Guaj Indians and monkeys While monkeys are a key food source for the Guaj certain pet monkeys have a guasi human status Some infant monkeys are adopted and nurtured as human children while others are consumed in accordance with the symbolic cannibalism of their belief system. The apparent contradiction of this predator protector relationship became the central theme of Cormier's research How can monkeys be both eaten as food and nurtured as children Her research reveals that monkeys play a vital role in Guaj society ecology economy and religion In Guaj animistic beliefs all forms of plant and animal life especially monkeys have souls and are woven into a comprehensive kinship system Therefore all consumption can be considered a form of cannibalism Cormier sets the stage for this enlightening study by examining the history of the Guaj and the ecological relationships between human and nonhuman primates in Amazonia She also addresses the importance of monkeys in Guaj ecological adaptation as well as their role in the Guaj kinship system Cormier then looks at animism and life classification among the Guaj and the role of pets which provide a context for understanding symbolic cannibalism and how the Guaj relate to various forms of life in their natural and supernatural world The book concludes with a discussion of the implications of ethnoprimatology beyond Amazonia including Western perceptions of primates **Aggression and Peacefulness in Humans and Other Primates** James Silverberg, J. Patrick Gray, 1992 This book explores the role of aggression in primate social systems and its implications

for human behavior Many people look to primate studies to see if and how we might be able to predict violent behavior in humans or ultimately to control war Of particular interest in the study of primate aggression are questions such as how do primates use aggression to maintain social organization what are the costs of aggression why do some primates avoid aggressive behavior altogether Students and researchers in primatology behavioral biology anthropology and psychology will read with interest as the editors and contributors to this book address these and other basic research questions about aggression They bring new information to the topic as well as an integrated view of aggression that combines important evolutionary considerations with developmental sociological and cultural perspectives When We Sold God's Eve Alex Cuadros, 2024-12-03 The gripping and astonishing story Douglas Preston of the Cinta Larga a tribe that had no contact with the West until the 1960s and came to run an illegal diamond mine in the Amazon Growing up in a remote corner of the world s largest rainforest Pio Maria and Oita learned to hunt wild pigs and tapirs gathering Brazil nuts and a a berries from centuries old trees Then the first highway pierced through ranchers loggers and prospectors invaded and they lost their families to terrible new weapons and diseases Pushed by the government to assimilate they struggled to figure out their new capitalist reality discovering its wonders as well as its horrors They ended up forging an uneasy symbiosis with their white antagonists until decades of suppressed trauma erupted into a massacre an act of retribution that made headlines across the globe Based on six years of immersive reporting and research WHEN WE SOLD GOD S EYE tells a unique kind of adventure story one that begins with a river journey by Teddy Roosevelt and ends with smugglers from Antwerp and New York City s Diamond District It's a story of survival against all odds of the temptations of wealth and the dreams of prosperity of a vital ecosystem threatened by the hunger for natural resources of genocide and revenge It s a story as old as the first European encounters with Indigenous peoples playing out in the present day But most of all it s about a few startlingly clever individuals and their power to adapt and even thrive in the most unlikely circumstances **Scoping the Amazon** Stephen Nugent, 2016-07 Savage cannibal or utopian proto environmentalist Nugent examines both popular images of Amazon peoples in film and general books as well as changing anthropological views of the rainforest and its people Praying and **Preying** Aparecida Vilaca, 2016-03-29 Praying and Preying offers one of the rare anthropological monographs on the Christian experience of contemporary Amazonian indigenous peoples based on an ethnographic study of the relationship between the Wari inhabitants of Brazilian Amazonia and the Evangelical missionaries of the New Tribes Mission Vila a turns to a vast range of historical ethnographic and mythological material related to both the Wari and missionaries perspectives and the author's own ethnographic field notes from her more than 30 year involvement with the Wari community Developing a close dialogue between the Melanesian literature which informs much of the recent work in the Anthropology of Christianity and the concepts and theories deriving from Amazonian ethnology in particular the notions of openness to the other unstable dualism and perspectivism the author provides a fine grained analysis of the equivocations and paradoxes that underlie the translation processes performed by the different agents involved and their implications for the transformation of the native notion of personhood The Broadview Pocket Guide to Writing - Third Edition Doug Babington, Don LePan, 2009-07-30 The Broadview Pocket Guide to Writing is a concise volume presenting essential material from the fourth edition of the full Broadview Guide to Writing Included are summaries of key grammatical points and a reference guide to basic grammar a glossary of usage tips on writing style a guide to bias free writing coverage of punctuation and writing mechanics helpful advice on Internet research and much more For the third edition the section on citation and documentation in four commonly used styles MLA APA Chicago and CSE has been extensively revised and updated

Conklin, 2010-01-10 Mourning the death of loved ones and recovering from their loss are universal human experiences yet the grieving process is as different between cultures as it is among individuals As late as the 1960s the Wari Indians of the western Amazonian rainforest ate the roasted flesh of their dead as an expression of compassion for the deceased and for his or her close relatives By removing and transforming the corpse which embodied ties between the living and the dead and was a focus of grief for the family of the deceased Wari death rites helped the bereaved kin accept their loss and go on with their lives Drawing on the recollections of Wari elders who participated in consuming the dead this book presents one of the richest most authoritative ethnographic accounts of funerary cannibalism ever recorded Beth Conklin explores Wari conceptions of person body and spirit as well as indigenous understandings of memory and emotion to explain why the Wari felt that corpses must be destroyed and why they preferred cannibalism over cremation Her findings challenge many commonly held beliefs about cannibalism and show why in Wari terms it was considered the most honorable and compassionate way of treating the dead
