Pacific Northwest Goes To War:

The Pacific Northwest Goes to War (state of Washington). Arthur J. Ritchie, William J. Davis, 1944 The Forging of a Black Community Quintard Taylor, 2022-06-07 Seattle's first black resident was a sailor named Manuel Lopes who arrived in 1858 and became the small community's first barber. He left in the early 1870s to seek economic prosperity elsewhere but as Seattle transformed from a stopover town to a full-fledged city African Americans began to stay and build a community. By the early twentieth century black life in Seattle coalesced in the Central District a four square mile section east of downtown. Black Seattle however was never a monolith. Through world wars economic booms and busts and the civil rights movement black residents and leaders negotiated intragroup conflicts and had varied approaches to challenging racial inequity. Despite these differences they nurtured a distinct African American culture and black urban community ethos. With a new foreword and afterword this second edition of *The Forging of a Black Community* is essential to understanding the history and present of the largest black community in the Pacific Northwest **The Pacific Northwest** Carlos A. Schwantes, 1996-01-01 Carlos Arnaldo Schwantes has revised and expanded the entire work which is still the most comprehensive and balanced history of the region. This edition contains significant additional material on early mining in the Pacific Northwest sea routes to Oregon in the early discovery and contact period the environment of the region the impact of the Klondike gold rush and politics since 1945 Recent environmental controversies such as endangered salmon runs and the spotted owl dispute have been addressed as has the effect of the Cold War on the region's economy. The author has also expanded discussion of the roles of women and minorities and updated statistical information **Plants Go to War** Judith Sumner, 2019-06-17 As the first botanical history of World War II *Plants Go to War* examines military history from the perspective of plant science. From victory gardens to drugs timber rubber and fibers plants supplied materials with key roles in victory. Vegetables provided the wartime diet both in North America and Europe where vitamin rich carrots cabbages and potatoes nourished millions. Chicle and cacao provided the chewing gum and chocolate bars in military rations. In England and Germany herbs replaced pharmaceutical drugs feverbark was in demand to treat malaria and penicillin culture used a growth medium made from corn. Rubber was needed for gas masks and barrage balloons while cotton and hemp provided clothing canvas and rope. Timber was used to manufacture Mosquito bombers and wood gasification and coal replaced petroleum in European vehicles. Lebensraum the Nazi desire for agricultural land drove Germans eastward troops weaponized conifers with shell bursts that caused splintering. Ironically the Nazis condemned non native plants but adopted useful Asian soybeans and Mediterranean herbs. Jungle warfare and camouflage required botanical knowledge and survival manuals detailed edible plants on Pacific islands. Botanical gardens relocated valuable specimens to safe areas and while remote locations provided opportunities for field botany. Trees surviving in Hiroshima and Nagasaki live as a symbol of rebirth after vast destruction *The Resilient City in World War II* Simo Laakkonen, J. R. McNeill, Richard P. Tucker, Timo Vuorisalo, 2019-05-27 The fate of towns and cities

stands at the center of the environmental history of World War II Broad swaths of cityscapes were destroyed by the bombing of targets such as transport hubs electrical grids and industrial districts and across Europe Asia and the Americas urban environments were transformed by the massive mobilization of human and natural resources to support the conflict But at the same time the war saw remarkable resilience among the human and non human residents of cities Foregrounding the concept of urban resilience this collection uncovers the creative survival strategies that city dwellers of all kinds turned to in the midst of environmental devastation As the first major study at the intersection of environmental urban and military history *The Resilient City in World War II* lays the groundwork for an improved understanding of rapid change in urban environments and how societies may adapt

"Daddy's Gone to War" William M. Tuttle Jr., 1993-09-16 Looking out a second story window of her family s quarters at the Pearl Harbor naval base on December 7 1941 eleven year old Jackie Smith could see not only the Rising Sun insignias on the wings of attacking Japanese bombers but the faces of the pilots inside Most American children on the home front during the Second World War saw the enemy only in newsreels and the pages of Life Magazine but from Pearl Harbor on the war with its blackouts air raids and government rationing became a dramatic presence in all of their lives Thirty million Americans relocated 3 700 000 homemakers entered the labor force sparking a national debate over working mothers and latchkey children and millions of enlisted fathers and older brothers suddenly disappeared overseas or to far off army bases By the end of the war 180 000 American children had

lost their fathers In *Daddy s Gone to War* William M Tuttle Jr offers a fascinating and often poignant exploration of wartime America and one of generation s odyssey from childhood to middle age The voices of the home front children are vividly present in excerpts from the 2 500 letters Tuttle solicited from men and women across the country who are now in their fifties and sixties From scrap collection drives and Saturday matinees to the atomic bomb and V J Day here is the Second World War through the eyes of America s children Women relive the frustration of always having to play nurses in neighborhood war games and men remember being both afraid and eager to grow up and go to war themselves Not all were willing to wait Tuttle tells of one twelve year old boy who strode into an Arizona recruiting office and declared I don t need my mother s consent I m a midget Former home front children recall as though it were yesterday the pain of saying good bye perhaps forever to an enlisting father posted overseas and the sometimes equally unsettling experience of a long absent father s return A pioneering effort to reinvent the way we look at history and childhood *Daddy s Gone to War* views the experiences of ordinary children through the lens of developmental psychology Tuttle argues that the Second World War left an indelible imprint on the dreams and nightmares of an American generation not only in childhood but in adulthood as well Drawing on his wide ranging research he makes the case that America s wartime belief in democracy and its rightful leadership of the Free World as well as its assumptions about marriage and the family and the need to get ahead remained largely unchallenged until the tumultuous years of the Kennedy assassination Vietnam and Watergate As the hopes and expectations of the home front children changed so did their country s In telling the story of a generation Tuttle provides a vital missing piece of American cultural history
