MacLean, 1988 *The Northwest Garden Manifesto* John J. Albers, 2017-12-18 Gardens are extensions of our homes places in which we get outside to relax entertain and get some physical exercise But our gardens are also extensions of the natural world Through our gardens as well as other neighborhood greenspaces we can help counter some of the woes faced by larger environments rampant development loss of plant and animal habitat spread of invasive species exploitation of natural resources air and water pollution and the impacts of global warming Yes even small urban backyard landscapes can combat such man made strains on our local environment and it s easy to do In his new book The Northwest Garden Manifesto scientist and gardener John J Albers provides a comprehensive guide to encourage and enable homeowners to consider the local ecosystem in their own gardens and in their larger communities The ideas and concepts in this book reflect the most up to date thinking on urban ecology and how to best make our yards reflect the natural world
