Pacific Standoff:

Proceedings of the 5th Pacific Rim International Conference on Water Jet Technology M. M. Vijay, N. R. Babu, 1998 **Pacific Standoff (Periscope #1)** Richard Deming, 2015-03-31 After the horror of Pearl Harbor American forces in the Pacific had a long way to come back With the nucleus of their battleship and carrier fleet destroyed they had to rely on the much scorned submarines of the Silent Service Jack McCrary like his comrades in the submarine service was determined not to let them down In his battered pig boat the Manta he led an ocean wide attack on Japanese freighters and battleships that held the vaunted Imperial Navy to a standstill Back home the McCrary clan an all Navy family had its own problems Helen the free loving sister was sometimes a boost but more often a menace to wartime morale And Dad the Admiral was slipping fast toward dying And Jack McCrary who with his dauntless crew had been the scourge of the Marshalls and the South China Sea suddenly appeared to be losing his grip as something unseen attacked his mind and body *The Richard Deming Mystery MEGAPACK* © Richard Deming, 2015-06-19 Richard Deming 1915 1983 wrote prolifically for magazines more than 200 short stories as well as for major book publishers more than two dozen novels ranging from original crime novels to media tie ins Dragnet and The Mod Squad to even a pseudonymous nautical series involving submarines He was a meticulous professional who never disappointed readers Included here are 15 of his best crime tales including THE ART OF DEDUCTION THE CLOCK IS CUCKOO SAY IT WITH FLOWERS STOLEN GOODS MR OLEM S SECRET CHEERS HE LL KILL YOU A GIRL MUST BE PRACTICAL ACTING JOB BLACK BELT A PUTTING AWAY OF TOYS DAN AND THE DEATH CELL BLUFF HOUSEBOAT NICE GUY A GOOD FRIEND THIS IS MY NIGHT Novel Sample DRAGNET THE CASE OF THE COURTEOUS KILLER Novel Sample PACIFIC STANDOFF Novel Sample If you enjoy this book search your favorite ebook store for Wildside Press Megapack to see the 200 other entries in the series covering science fiction fantasy mysteries westerns classics adventure stories and much much more **New Zealand's Geopolitics and the US-China Competition** Reuben Steff, 2025-01-31 This book advances the establishment of a contemporary New Zealand geopolitical tradition It details and examines New Zealand s geopolitical reality in an increasingly fractured global security dis order defined by interdependent strategic competition and emerging multipolarity A centrepiece is the multidimensional US China Great Power Competition that has the makings of a Second Cold War This has immense implications for New Zealand s greater region the Indo Pacific and its immediate area the South Pacific The latter is of existential importance to New Zealand becoming an active area of strategic competition as China projects its influence southwards and New Zealand Australia and the United States respond In this context New Zealand s location is increasingly geopolitically relevant and the idea it occupies a benign security environment has now been cast into the dustbin of history The decisions it makes presently will determine the country s prosperity and geostrategic security for decades Geopolitical theory along with a detailed empirical account of strategic competition in the Indo Pacific and South Pacific offers a clear exposition of the implications of

US China competition for New Zealand This directs us to the nation's material characteristics and imperatives that flow from it The book also appraises the country's strategic options and indicates how and why Wellington's approach has shifted over time from hedging between the US and China to increasingly balancing against Beijing's efforts to alter the global and regional status quo Through analysis and provocation this book marks a major new contribution that will interest policymakers academics students and everyday citizens Pacific Standoff Halsey Clark, 1983-03-01 **Pacific**

Connections Kornel Chang, 2012-06-12 In the late nineteenth century the borderlands between the United States the British Empire in Canada and the Asia Pacific Rim emerged as a crossroads of the Pacific world In *Pacific Connections* Kornel Chang tells the dramatic stories of the laborers merchants smugglers and activists who crossed these borders into the twentieth century and the American and British empire builders who countered them by hardening racial and national lines But even as settler societies attempted to control the processes of imperial integration their project fractured under its contradictions Migrant workers and radical activists pursued a transnational politics through the very networks that made empire possible Charting the U S Canadian borderlands from above and below Chang reveals the messiness of imperial formation and the struggles it spawned from multiple locations and through different actors across the Pacific world *Pacific Connections* is the winner of the Outstanding Book in History award from the Association for Asian American Studies and is a finalist for the John Hope Franklin Book Prize from the American Studies Association **Fixing the Climate** Charles F. Sabel, David G.

Victor, 2024-04-02 Can the world stop climate change The prognosis is bleak Most efforts to tackle the problem have focused on treaties that require virtually global consensus yet meaningful consensus has been elusive because deep cuts in emissions are expensive and antagonize well organized interests Predictably diplomacy has swung between gridlock and superficial agreements with little impact After three decades of sustained negotiations on global warming emissions have risen by one third Stopping climate warming requires that they be cut essentially to zero Sabel and Victor look to offer a case for optimism by proposing a different strategy to recast climate change as a problem best addressed piecemeal Rather than seeking a grand global bargain they argue that the problem should be broken down into local challenges They call this concept experimentalist governance massive simultaneous searches for local solutions that are scalable to the global level with a focus not on marginal incentives for success but on penalties for repeated egregious failure The authors show through a series of cases how regulators firms farms and NGOs faced with penalty defaults are learning to solve some of the knottiest environmental problems they then propose central mechanisms that could help monitor and review progress establishing which experiments are working and establish new frontiers for experimentation While the threat of impending catastrophe has understandably made debate about climate policy increasingly shrill and polarized Sabel and Victor offer here a guide to institutional design that could finally lead to the politically and economically self sustaining reductions in emissions that thirty years of global diplomacy has not delivered **The Balance of Power in Asia-Pacific Security** Liselotte
