Expansion of the North Pacific High Seas Driftnet Fisheries United States. Congress. Senate. Committee on Appropriations. Subcommittee on the Department of the Interior and Related Agencies,1990 ESSA Technical Reports United States. Weather Bureau,1967 *The Palgrave Handbook of Asia Pacific Higher Education* Christopher S. Collins,Molly N.N. Lee,John N. Hawkins,Deane E. Neubauer,2016-10-06 This volume seeks to identify and explore the forces affecting higher education in the Asia Pacific region today It includes a set of conceptually rich organizing chapters followed by detailed country specific studies that detail both the underlying dynamics of these forces and the manner in which they have affected specific countries In this way the chapters touch on the complex demographics of the region how continued and continuous economic development impinges on higher education and how neoliberalism has affected higher education across many dimensions The volume also addresses the complex issues associated with cross border education and the daunting challenges of both national and cross national quality assurance *Technology Transfer and Innovation for Low-Carbon Development* Miria Pigato,Simon Black,Damien Dussaux,Zhimin Mao,Ryan Rafaty,Simon Touboul,2020-04-09 Technological revolutions have increased the world s wealth unevenly and in ways that have accelerated climate change This report argues that achieving The Paris Agreement s objectives would require a massive transfer of existing and commercially proven low carbon technologies LCT from high income to developing countries where the bulk of future emissions is expected to occur This mass deployment is not only a necessity but also an opportunity Policies to deploy LCT can help countries achieve economic and other development objectives like improving human health in addition to reducing greenhouse gases GHGs Additionally LCT deployment offers an opportunity for countries with sufficient capabilities to benefit from participation in global value chains and produce and export LCTs Finally the report calls for a greater international involvement in supporting the poorest countries which have the least access to LCT and finance and the most underdeveloped physical technological and institutional capabilities that are essential to benefit from technology Trade and Production, 1976-99 Alessandro Nicita,Marcelo Olarreaga,2001 A new database eases the way for researchers analyzing statistics on trade production and tariffs **Archaeological Perspectives on Conflict and Warfare in Australia and the Pacific** Geoffrey Clark,Mirani Litster,2022-03-08 When James Boswell famously lamented the irrationality of war in 1777 he noted the universality of conflict across history and across space even reaching what he described as the gentle and benign southern ocean nations This volume discusses archaeological evidence of conflict from those southern oceans from Palau and Guam to Australia Vanuatu and Tonga the Marquesas Easter Island and New Zealand The evidence for conflict and warfare encompasses defensive earthworks on Palau fortifications on Tonga and intricate pa sites in New Zealand It reports evidence of reciprocal sacrifice to appease deities in several island nations and skirmishes and smaller scale conflicts including in Easter Island This volume traces aspects of colonial era conflict in Australia and frontier battles in Vanuatu and discusses

depictions of World War II materiel in the rock art of Arnhem Land Among the causes and motives discussed in these papers are pressure on resources the ebb and flow of significant climate events and the significant association of conflict with culture contact The volume necessarily selective eclectic and wide ranging includes an incisive introduction that situates the evidence persuasively in the broader scholarship addressing the history of human warfare

Shifting Images of Identity in the Pacific Toon van Meijl, 2021-10-25 This book examines how identities emerge persist and change in various Pacific societies The shifting images of identity are explored in pre colonial colonial as well as post colonial circumstances All the essays in this volume address both continuity and discontinuity in the construction of identities in the rapidly changing Pacific region A region increasingly characterized by state formation processes and global influences The introduction provides a theoretical analysis of the changing paradigm in the study of identity over recent decades This is exemplified with a comparative overview of the emergence of a constructivist approach of culture tradition and identity in Pacific studies Nine ethnographic contributions subsequently address the central question from a variety of different angles Some chapters focus on classic topics such as migration and myth while others deal with indigenous peoples in modern nation states tourism economic development global consumerism or electronic communication The societies in question range from relatively isolated groups to communities living dispersed around the globe Each chapter provides valuable insights into the processes of identity in the Pacific over time An epilogue provides a comparative reading of the different theoretical solutions that have been proposed to make sense of the shifting images of identity in the contemporary increasingly transnational Pacific
