Garrido,2019-08-05 In contemporary Manila slums and squatter settlements are peppered throughout the city often pushing right up against the walled enclaves of the privileged creating the complex geopolitical pattern of Marco Z Garrido s patchwork city Garrido documents the fragmentation of Manila into a m lange of spaces defined by class particularly slums and upper and middle class enclaves He then looks beyond urban fragmentation to delineate its effects on class relations and politics arguing that the proliferation of these slums and enclaves and their subsequent proximity have intensified class relations For enclave residents the proximity of slums is a source of insecurity compelling them to impose spatial boundaries on slum residents For slum residents the regular imposition of these boundaries creates a pervasive sense of discrimination Class boundaries then sharpen along the housing divide and the urban poor and middle class emerge not as labor and capital but as squatters and villagers Manila s name for subdivision residents Garrido further examines the politicization of this divide with the case of the populist president Joseph Estrada finding the two sides drawn into contention over not just the right to the city but the nature of democracy itself The Patchwork City illuminates how segregation class relations and democracy are all intensely connected It makes clear ultimately that class as a social structure is as indispensable to the study of Manila and of many other cities of the Global South as race is to the study of American cities **American Patchwork** Sonja Hakala,2025-09-23 For those who enjoyed the honesty and insight of How to Make an American Quilt this is a moving collection of personal stories that highlight the laughter sadness friendships frustrations and triumphs shared by the more than 21 million people across the

Our Patchwork Nation Dante Chinni, James Gimpel Ph.D., 2011-10-04 A revolutionary new way to understand America s complex cultural and political landscape with proof that local communities have a major impact on the nation s behavior in the voting booth and beyond In a climate of culture wars and tremendous economic uncertainty the media have often reduced America to a simplistic schism between red states and blue states In response to that oversimplification journalist Dante Chinni teamed up with political geographer James Gimpel to launch the Patchwork Nation project using on the ground reporting and statistical analysis to get past generalizations and probe American communities in depth The result is Our Patchwork Nation a refreshing sometimes startling look at how America s diversities often defy conventional wisdom Looking at the data they recognized that the country breaks into twelve distinct types of communities and old categories like soccer mom and working class don t matter as much as we think Instead by examining Boom Towns Evangelical Epicenters Military Bastions Service Worker Centers Campus and Careers Immigration Nation Minority Central Tractor Community Mormon Outposts Emptying Nests Industrial Metropolises and Monied Burbs the authors demonstrate the subtle distinctions in how Americans vote invest shop and otherwise behave reflect what they experience on their local streets and in their daily lives Our Patchwork Nation is a brilliant new way to debate and examine the issues that matter most to our communities and to our nation
