Pacific Visions:

Canada and Competing Indo-Pacific Visions of China and the US Kenneth M. Holland, 2024-12-13 This book describes and analyzes the choices that Canada as a Middle Power has regarding the strategic rivalry between the United States and China. The administrations of Republican Donald Trump and his successor Democrat Joe Biden have taken a hardline stance toward Beijing which in turn has adopted an increasingly belligerent tone toward Washington. The posture of the United States toward China has put traditional American allies in a difficult position. They must choose whether to join the effort to counter China's ambitions, support those ambitions, or take some intermediate stance. As one of America's closest and longest standing allies, Canada must make decisions that will affect its position in the world for the rest of the twenty-first century. The book argues that Canada's national interests are best served by alignment with the confrontational posture of the United States while at the same time joining the efforts of U.S. allies Japan, India, and South Korea to moderate the thrust of Washington's Indo-Pacific Strategy in a direction more consistent with multilateralism and the preservation of the rules-based international order. The book has important implications for other U.S. allies including the member states of the European Union, Organization of American States, and Association of Southeast Asian Nations, each of which finds itself caught in the middle between the world's two greatest powers.

Making a Modern U.S. West Sarah Deutsch, 2022 This book surveys the history of the U.S. West from 1898 to 1940, centering what is often relegated to the margins in histories of the region: the flows of people, capital, and ideas across borders.

Transpacific Visions Yasuko Hassall Kobayashi, Shinnosuke Takahashi, 2021-09-30 This book argues that transpacific history cannot be comprehended without including vertical connections, namely those between the southern hemisphere and the northern hemisphere. It explores such connections by uncovering small histories of ordinary people's attempts at ventures which they undertake by means of uneven, unlevel, and multidirectional mobilities. In this way, this book goes beyond the usual notion of transpacific history as a matter of Northern Hemisphere-centric connections between the United States and Asian countries and enables us to imagine a transpacific space as a more dynamic and multifaceted world of human mobilities and connections. In this book, both eminent and burgeoning historians uncover the stories of little-known myriad encounters in various parts of the Asia-Pacific region. By exploring cases whose actors include soldiers, missionaries, colonial administrators, journalists, essayists, and artists, the book highlights the significance of vertical perspectives in understanding complex histories of the region.

Japan and its Partners in the Indo-Pacific Srabani Roy Choudhury, 2023-05-12 The book studies the development of Japan's Free and Open Indo-Pacific (FOIP) vision. As strategic competition grows, the lessons from the pandemic, the deepening Sino-US rivalry, and the United States losing grip on the current world strategic environment all compel Japan to focus its attention on the Indo-Pacific region. The volume examines Japan's foreign policy through an analysis of its strategic agenda, economic calculations, maritime security concerns, and soft power policies. It looks at Japan's relations with the United States.

India in the Indo-Pacific Aditi Malhotra, 2022-06-13 In view of the fast changing world order emerging countries are increasingly influencing the dynamics of regional securities This timely and in depth book examines India's reorienting strategic posture and describes how New Delhi's security policy in the Indo Pacific region has evolved and expanded over the past two decades The author argues that India's quest to

leverage its geostrategic location to emerge as an Indo Pacific actor faces multiple challenges which create a clear divide between the country's political rhetoric and action on the ground. The author critically examines these contradictions to better situate India's security role in an increasingly fluid Indo Pacific region. **Indo-Pacific Empire** Rory Medcalf, 2020-03-19. This book explains why the idea of the Indo Pacific is so strategically important and concludes with a strategy designed to help the West engage with Chinese power in the region in such a way as to avoid conflict. **The Strategic Importance of the Emerging Pacific** Gaston Joseph Sigur, 1986. **Indo-Pacific and ASEAN** Claire Thi-Liên Tran, Suthiphand Chirathivat, Prabir De, 2024-12-03. This book examines Indo Pacific issues from a Southeast Asian perspective and goes beyond discourses such as ASEAN China or ASEAN US China. It analyses the new regional balances in the ASEAN and Indo Pacific region at the diplomatic, strategic and economic levels while taking into account the ongoing uncertainty of the international order reshaped by the post COVID 19 crisis and characterised by the increasingly adversarial China US relations, the sensitive context of South China Sea and Taiwan crisis and the impact of the war between Russia and Ukraine. It highlights Indo Pacific not only from a geostrategic angle but an economic one considering ASEAN amidst competing connectivity strategies and integration challenges. The book offers an inclusive outlook capturing diversity and convergence of strategies in a key region where the stage of tomorrow's global order will be decided. It will be of great interest to scholars and researchers of politics and international relations and Area Studies especially Southeast Asian Studies and Indo Pacific Studies. **Multilateralism in the Indo-Pacific** Swaran Singh, Reena Marwah, 2022-08-05. This book focuses on emerging new multilateralism in the Indo Pacific and offers a useful analysis of various existing and evolving formulations and alignments in the region. The book problematises the evolution, relevance and changing contours of emerging economic and security architectures and connects these to various unilateral and multilateral initiatives that undergird the overall transformation in these economic and strategic multilaterals in this region. The chapters offer a comprehensive overview of organisations and institutions and the contributors provide their historical background and contemporary focus with implications for the future. Consequently, the book provides a balanced assessment of evolving trends elucidated by both its theoretical debates and empirical analyses. It assesses the outline and influence of non-traditional threats that have received only stand-alone and not integrated examination involving issues as climate change, piracy, smuggling and terrorist activity triggering a whole gamut of humanitarian and disaster relief strategies. Comprehensive in analysis and approach, the book will be of interest to scholars of Political Science, Foreign Policy, Security Studies, International Relations, International Political Economy and Area Studies including Asian, East Asian or Indo Pacific Studies. **Minilateralism in the Indo-Pacific** Bhubhindar Singh, Sarah Teo, 2020-05-05. While US-centred bilateralism and ASEAN-led multilateralism have largely dominated the post-Cold War regional security architecture in the Indo Pacific, increasing doubts about their effectiveness have resulted in countries turning to alternative forms of cooperation such as

minilateral arrangements Compared to multilateral groupings minilateral platforms are smaller in size as well as more exclusive flexible and functional Both China and the US have contributed to minilateral initiatives in the Indo Pacific In the case of the former there is the Lancang Mekong Cooperation mechanism involving China Cambodia Laos Myanmar Thailand and Vietnam established in 2015 In the case of the latter there has been a revival of the Quadrilateral Security Dialogue in 2017 involving the US Australia Japan and India This book examines the rise of these arrangements their challenges and opportunities as well as their impact on the extant regional security architecture including on the ASEAN led multilateral order A valuable guide for students and policy makers looking to understand the nature and development of minilateralism in the Indo Pacific region
