 period **The Conquest of Brazil** Roy Nash, 1926 **Reassessing Jewish Life in Medieval Europe** Robert
 Chazan, 2010-09-27 This book re evaluates the prevailing notion that Jews in medieval Christian Europe lived under an

appalling regime of ecclesiastical limitation governmental exploitation and expropriation and unceasing popular violence Robert Chazan argues that while Jewish life in medieval Western Christendom was indeed beset with grave difficulties it was nevertheless an environment rich in opportunities the Jews of medieval Europe overcame obstacles grew in number explored innovative economic options and fashioned enduring new forms of Jewish living His research also provides a reconsideration of the legacy of medieval Jewish life which is often depicted as equally destructive and projected as the underpinning of the twentieth century catastrophes of antisemitism and the Holocaust Dr Chazan's research proves that although Jewish life in the medieval West laid the foundation for much Jewish suffering in the post medieval world it also stimulated considerable Jewish ingenuity which lies at the root of impressive Jewish successes in the modern West

Armies and Politics in the Early Medieval West Bernard S. Bachrach, 2024-10-28 In these articles Professor Bachrach starts by looking at aspects of the barbarian occupation of the land of the Roman Empire from Britain to the Alan settlements in southern Gaul His particular interest however is in the political and above all in the military structures that grew out of the Early Middle Ages He has sought to demonstrate that there was a fundamental continuity in military organisation and tactics from the Merovingian through the Carolingian period As he shows there is no reason to connect the origins of feudalism with Charles Martel's wish to create a force of cavalry and it is a fallacy that he grasped the potential of the stirrup for enabling mounted shock combat On the contrary its use in the West progressed only slowly and it had nothing to do with the origins or growth of feudalism Le professeur Bachrach d'abute par l'analyse de certains aspects de l'occupation barbare des terres de l'empire romain de la Grande Bretagne aux campements alains en Gaule méridionale Il s'attache ensuite aux structures politiques et surtout militaires qui furent issues du Haut Moyen Age Selon lui et il tente d'en faire ici la démonstration l'organisation et les tactiques militaires ont fait preuve d'une continuité fondamentale de l'époque mérovingienne celle des Carolingiens Comme il le démontre il n'y a pas lieu d'établir de liens entre l'origine du féodalisme et le d'sir qu'avait Charles Martel de créer une cavalerie il est galemment tout fait erroné de dire que ce dernier s'était rendu compte du potentiel de l'étrier en tant que facteur de mener des combats cheval de choc Bien contraire l'utilisation de l'étrier l'Ouest ne fit que progresser lentement et aucun rapport n'existe entre cet instrument et l'origine ou la croissance de la féodalité
