Pagan Dream Of The Renaissance:

The Pagan Dream of the Renaissance Joscelyn Godwin, 2002-01-01 Describes the revival of interest in the pagan mythological imagination during the Renaissance the influence on the arts of imagery based on classical mythology and the troubled co existence of this pagan culture with official Christianity *Locations of Knowledge in Medieval and Early Modern Europe* Kocku Von Stuckrad, 2010 Addressing discourses of perfect knowledge in Western culture between 1200 and 1800 this book integrates the study of Western esotericism in a larger analytical framework of European history of religion

"Rubens, Vel?uez, and the King of Spain " Larry Silver, 2017-07-05 This study provides a new analysis of the pictorial ensemble of the Torre de la Parada the hunting lodge of King Philip IV of Spain Created in the late 1630s by a group of artists led by Peter Paul Rubens this cycle of mythological imagery and hunting scenes was completed by Diego Vel uez Despite the lack of a written program surviving works provide eloquent testimony of several basic themes that embody Neostoic ideals of self restraint and prudent governance While Rubens set the moral tone through his serio comic Ovidian narratives Vel uez added an important grace note with his portraits of ancient philosophers and royals and fools of the court This study is the first to consider in depth their joint artistic contributions and shared ambition Through analysis of individual works the authors situate these pictorial inventions within broader intellectual currents in both Spanish Flanders and Spain especially in the advice literature and drama presented to the Spanish king Moreover they point to the lasting resonance of Torre de la Parada for Vel uez especially within his late masterworks *Las Meninas* and *Las Hilanderas* Ultimately this study illuminates the dialogical nature of this ensemble in which Rubens and Vel uez offer a set of complementary views on subjects ranging from the nature of classical gods to the role of art as a mirror of the prince *Handbook of Greek Sculpture* Olga

Palagia, 2019-07-22 The Handbook of Greek Sculpture aims to provide a detailed examination of current research and directions in the field Bringing together an international cast of contributors from Greece Italy France Great Britain Germany and the United States the volume incorporates new areas of research such as the sculptures of Messene and Macedonia sculpture in Roman Greece and the contribution of Greek sculptors in Rome as well as important aspects of Greek sculpture like techniques and patronage The written sources literary and epigraphical are explored in dedicated chapters as are function and iconography and the reception of Greek sculpture in modern Europe Inspired by recent exhibitions on Lysippos and Praxiteles the book also revisits the style and the personal contributions of the great masters **Structures of Feeling**

in Seventeenth-Century Cultural Expression Susan McClary, 2013-03-04 Between the waning of the Renaissance and the beginning of the Enlightenment many fundamental aspects of human behaviour from expressions of gender to the experience of time underwent radical changes While some of these transformations were recorded in words others have survived in non verbal cultural media notably the visual arts poetry theatre music and dance *Structures of Feeling in Seventeenth Century Cultural Expression* explores how artists made use of these various cultural forms to grapple with human values in the

increasingly heterodox world of the 1600s Essays from prominent historians musicologists and art critics examine methods of non verbal cultural expression through the broad themes of time motion the body and global relations Together they show that seventeenth century cultural expression was more than just an embryonic stage within Western artistic development Instead the contributors argue that this period marks some of the most profound changes in European subjectivities

Polemical Encounters Olav Hammer,Kocku von Stuckrad,2007-09-30 In its historical development from late antiquity to the present western esotericism has repeatedly been the issue of polemical discourse This volume engages the polemical structures that underlie both the identities within and the controversy about esoteric currents in European history From Jewish and Christian kabbalah through heretical discourse and interconfessional polemics in early modernity to the legitimization of esoteric identity in modern culture the 12 chapters accompanied by an editors introduction provide a cornucopia of relevant cases that are interpreted in a framework of polemical discourse and Othering This volume sheds new light on the ultimately polemical structure of western esotericism and thus opens new vistas for further research into esoteric discourse

Objects of Culture in the Literature of Imperial Spain Mary Barnard,Frederick A. de Armas,2013-03-14 Collecting and displaying finely crafted objects was a mark of character among the royals and aristocrats in Early Modern Spain it ranked with extravagant hospitality as a sign of nobility and with virtue as a token of princely power Objects of Culture in the Literature of Imperial Spain explores how the writers of the period shared the same impulse to collect arrange and display objects though in imagined settings as literary artefacts These essays examine a variety of cultural objects described or alluded to in books from the Golden Age of Spanish literature including clothing paintings tapestries playing cards monuments materials of war and even enchanted bronze heads The contributors emphasize how literature preserved and transformed objects to endow them with new meaning for aesthetic social religious and political purposes whether to perpetuate certain habits of thought and belief or to challenge accepted social and moral norms

Trials of the Moon Ben Whitmore,2010 The creation myths of modern witchcraft and Paganism were decisively toppled at the turn of this century in Ronald Hutton s celebrated book *Triumph of the Moon* But did Hutton topple more than just myths Are some truths also hidden in the rubble Did paganism really die out centuries ago Was witchcraft really no more than a fantasy Were the Gods of Wicca really born out of the Romantic movement Did Gerald Gardner lie about his initiation into witchcraft Ben Whitmore has retraced many of Hutton s steps critically evaluating the evidence and he now suggests that the truth may be quite different and even more fascinating Drawing on a wealth of scholarly material Whitmore demonstrates that the field of Pagan history is anything but barren ground it is rich and fertile and we have barely begun to cultivate it

Astronomical Knowledge Transmission Through Illustrated Aratea Manuscripts Marion Dolan,2017-08-22 This carefully researched monograph is a historical investigation of the illustrated Aratea astronomical manuscript and its many interpretations over the centuries Aratus 270 B C E Greek poem describing the constellations and astrological phenomena was translated and

copied over 800 years into illuminated manuscripts that preserved and illustrated these ancient stories about the constellations The Aratea survives in its entirety due to multiple translations from Greek to Latin and even to Arabic with many illuminated versions being commissioned over the ages The survey encompasses four interrelated disciplines history of literature history of myth history of science and history of art Aratea manuscripts by their nature are a meeting place of these distinct branches and the culling of information from historical literature and from the manuscripts themselves focuses on a wider holistic view a narrow approach could not provide a proper perspective What is most essential to know about this work is that because of its successive incarnations it has survived and been reinterpreted through the centuries which speaks to its importance in all of these disciplines This book brings a better understanding of the history changes and transmission of the original astronomical Phaenomena poem Historians art historians astronomy lovers and historians of astronomy will learn more specialized details concerning the Aratea and how the tradition survived from the Middle Ages It is a credit to the poetry of Aratus and the later interpreters of the text that its pagan aspects were not edited nor removed but respected and maintained in the exact same form despite the fact that all sixty Aratea manuscripts mentioned in this study were produced under the rule of Christianity

Tudor Drama Thomas Betteridge, Greg Walker, 2012-07-19 The Oxford Handbook to Tudor Drama is the authoritative secondary text on Tudor drama. It both integrates recent important research across different disciplines and periods and sets a new agenda for the future study of Tudor drama, questioning a number of the central assumptions of previous studies. Balancing the interests and concerns of scholars in theatre history, drama, and literary studies, its scope reflects the broad reach of Tudor drama as a subject, inviting readers to see the Tudor century as a whole rather than made up of artificial and misleading divisions between medieval and renaissance religious and secular pre and post Shakespeare. The contributors, both the established leaders in their fields and the brightest young scholars, attend to the contexts, intellectual, theatrical, and historical, within which drama was written, produced, and staged in this period and ask us to consider afresh this most vital and complex of periods in theatre history. The book is divided into four sections: Religious Drama, Interludes and Comedies, Entertainments, Masques, and Royal Entries, and Histories and political dramas. *How the Light Gets In* Graham Ward, 2016 *How the Light Gets In: Ethical Life I* presents a systematic account of the teachings of the Christian faith to offer a vision from a human, created, and limited perspective of the ways all things might be understood from the divine perspective. It explores how Christian doctrine is lived and the way in which beliefs are not simply cognitive sets of ideas but embodied cultural practices. Christians learn how to understand the contents of their faith, learn the language of the faith through engagements that are simultaneously somatic, affective, imaginative, and intellectual. In the first of four volumes, Graham Ward examines the complex levels of these engagements through three historical developments in the systematic organization of doctrine: the Creeds, the Summa, and Protestant dogmatics. He outlines a methodology for exploring and practicing systematic theology that captures how the faith is lived in cultural, social, and embodied engagements. Ward then unpicks several fundamental theological concepts and how they are to be understood from the point of view of an engaged systematicist: truth, revelation, judgement, discernment, proclamation, faith seeking understanding, and believing as it relates to and grounds the possibilities for faith. This groundbreaking work offers an interdisciplinary investigation through poetry, art, film, the Bible, and theological discourse, analysing the human condition and theology as the deep dream for salvation. The final part relates theology as a lived and ongoing pedagogy concerned with individual and corporate formation to biological life, social life, and life in Christ. Here, an approach to living theologically is sketched that is the primary focus for all four volumes: ethical life. **Technic and Magic** Federico Campagna, 2018-05-31 We take for granted that only certain kind of things exist: electrons, but not angels; passports, but not nymphs. This is what we understand as reality. But in fact, reality varies with each era of the world, in turn shaping the field of what is possible to do, think, and imagine. Our contemporary age has embraced a troubling and painful form of reality: Technic. Under Technic, the foundations of reality begin to crumble, shrinking the field of the possible and freezing our lives in an anguished state of paralysis. Technic and Magic shows that the way out of the present deadlock lies much deeper than debates on politics or economics. By drawing from an array of Northern and Southern sources,

spanning from Heidegger Junger and Stirner s philosophies through Pessoa s poetry to Advaita Vedanta Bharttrhari Ibn Arabi Suhrawardi and Mulla Sadra s theosophies Magic is presented as an alternative system of reality to Technic While Technic attempts to capture the world through an absolute language Magic centres its reconstruction of the world around the notion of the ineffable that lies at the heart of existence Technic and Magic is an original philosophical work and a timely cultural intervention It disturbs our understanding of the structure of reality while restoring it in a new form This is possibly the most radical act if we wish to change our world first we have to change the idea of reality that defines it *Evidence in the Age of the New Sciences* James A.T. Lancaster, Richard Raiswell, 2018-10-24 The motto of the Royal Society Nullius in verba was intended to highlight the members rejection of received knowledge and the new place they afforded direct empirical evidence in their quest for genuine useful knowledge about the world But while many studies have raised questions about the construction reception and authentication of knowledge *Evidence in the Age of the New Sciences* is the first to examine the problem of evidence at this pivotal moment in European intellectual history What constituted evidence and for whom Where might it be found How should it be collected and organized What is the relationship between evidence and proof These are crucial questions for what constitutes evidence determines how people interrogate the world and the kind of arguments they make about it In this important new collection Lancaster and Raiswell have assembled twelve studies that capture aspects of the debate over evidence in a variety of intellectual contexts From law and theology to geography medicine and experimental philosophy the chapters highlight the great diversity of approaches to evidence gathering that existed side by side in the sixteenth and seventeenth centuries In this way the volume makes an important addition to the literature on early science and knowledge formation and will be of particular interest to scholars and advanced students in these fields **Picatrix Books I and II: Astrological Magic** , 2009-10-02 Picatrix known in Arabic as the Ghayat al Hikam the Goal of the Wise is the most important grimoire of astrological magic Written in Arabic circa AD 1000 and translated into Latin in 1256 the Picatrix explains both the philosophy and practice involved in the creation of astrological talismans This clear and coherent English translation of books I II of the four books of the Pingree critical edition of the Latin Picatrix is a key text for both the practitioner and scholar of medieval and Renaissance magic and includes instructions for hundreds of talismans for love wealth health success and protection *Esotericism in Western Culture* Wouter J. Hanegraaff, 2025-05-29 This accessible introduction by the world s leading expert explains why the study of esotericism is not a marginal pursuit but belongs at the center of modern research in the humanities Reflecting updates in the field since the foundational publication *Western Esotericism A Guide for the Perplexed* 2013 Wouter J Hanegraaff demonstrates that the exclusion of rejected knowledge from normative accounts of Western civilization is the reflection of a narrow Eurocentric ideology that became the template for discrediting and ultimately destroying so called primitive cultures associated with superstition and pagan idolatry during the global colonial age Rejecting this rejection of rejected knowledge means restoring the suppressed to its legitimate place in

history and cultural analysis Through this approach Wouter J Hanegraaff depicts a radically inclusive vision of the Greater West and its forgotten histories from pagan antiquity through Jewish Christian and Islamic cultures up to secular modernity and beyond
