The Pagan Writes Back Zhange Ni, 2015-05-21 In the first book to consider the study of world religion and world literature in concert Zhange Ni proposes a new reading strategy that she calls pagan criticism which she applies not only to late twentieth and early twenty first century literary texts that engage the global resurgence of religion but also to the very concepts of religion and the secular Focusing on two North American writers the Jewish American Cynthia Ozick and the Canadian Margaret Atwood and two East Asian writers the Japanese End Sh saku and the Chinese Gao Xingjian Ni reads their fiction drama and prose to envision a pagan re turn in the study of world religion and world literature In doing so she highlights the historical

complexities and contingencies in literary texts and challenges both Christian and secularist assumptions regarding aesthetics and hermeneutics In assessing the collision of religion and literature Ni argues that the clash has been not so much between monotheistic orthodoxies and the sanctification of literature as between the modern Western model of religion and the secular and its non Western others When East and West converge under the rubric of paganism she argues the study of religion and literature develops into that of world religion and world literature

in the study of NRMs **In Defiance of History** Victoria Leonard, 2022-02-16 This volume offers a counterbalance to the dismissal that Orosius's *Histories Against the Pagans* has suffered in most recent criticism. Orosius is traditionally considered to be a mediocre scholar and an essentially worthless historian. This book takes his literary endeavour seriously, recognizing the unique contribution the *Histories* made at a crucial moment of debate and uncertainty where the present was shaped by restructuring the past. The significance of the *Histories* is recognised intrinsically rather than only in comparison with other texts and authors principally Augustine of Hippo, Orosius's mentor. The approach of the book is historiographical, exploring the form, purpose and meaning of the *Histories*. The themes of divine providence, monotheism and imperial authority are examined and the subjects of war and the sack of Rome receive extended analysis. The book foregrounds Orosius's significant historiographical innovations that are seldom explored, such as the subversion of imperial history within a Christian spectrum in the synchronization of the emperor Augustus and Christ. Each chapter contributes to the progression of knowledge about Orosius's *Histories* and the wider literary and historiographical culture of disruption that characterised the late fourth and early fifth centuries CE.

Developing a Pedagogy of Teacher Education John Loughran, 2006 This book purposefully describes and explores the complex nature of teaching and of learning about teaching, illustrating how important teacher educators' professional knowledge is.

New Religions and the Nazis Karla O. Poewe, 2006 Looking at modern German paganism as well as the established Church, Poewe reveals that the new religions founded in the pre-Nazi and Nazi years, especially Jakob Hauer's German Faith Movement, would be a model for how German fascism distilled aspects of religious doctrine into political extremism.

Pagans and Philosophers John Marenbon, 2017-02-28 An ambitious history of how medieval writers came to terms with paganism. From the turn of the fifth century to the beginning of the eighteenth century, Christian writers were fascinated and troubled by the Problem of Paganism, which this book identifies and examines for the first time. How could the wisdom and virtue of the great thinkers of antiquity be reconciled with the fact that they were pagans and many thought damned? Related questions were raised by encounters with contemporary pagans in northern Europe, Mongolia, and later America and China. *Pagans and Philosophers* explores how writers, philosophers, and theologians, but also poets such as Dante, Chaucer, and Langland, and travelers such as Las Casas and Ricci, tackled the Problem of Paganism. Augustine and Boethius set its terms, while Peter Abelard and John of Salisbury

were important early advocates of pagan wisdom and virtue University theologians such as Aquinas Scotus Ockham and Bradwardine and later thinkers such as Ficino Valla More Bayle and Leibniz explored the difficulty in depth Meanwhile Albert the Great inspired Boethius of Dacia and others to create a relativist conception of scientific knowledge that allowed Christian teachers to remain faithful Aristotelians At the same time early anthropologists such as John of Piano Carpine John Mandeville and Montaigne developed other sorts of relativism in response to the issue A sweeping and original account of an important but neglected chapter in Western intellectual history Pagans and Philosophers provides a new perspective on nothing less than the entire period between the classical and the modern world Paganism Owen Davies, 2011-05-26
