Murray, 2006-08-30 The first multivolume encyclopedia to document the history of one of the most influential religious movements of the Middle Ages the Crusades *The Crusades An Encyclopedia* surveys all aspects of the crusading movement from its origins in the 11th century to its decline in the 16th century Unlike other works which focus on the eastern Mediterranean region this expansive four volume encyclopedia also includes the struggle of Christendom against its enemies in Iberia Eastern Europe and the Baltic region and also covers the military orders crusades against fellow Christians heretics and more This work includes comprehensive entries on personalities such as Godfrey of Bouillon who refused the title King of Jerusalem and St Bernard of Clairvaux who tore up his own clothing to make symbols of the cross for crusaders as well as key events countries places and themes that shed light on everything from the propaganda that inspired crusading warriors to the ways in which they fought Special coverage of topics such as taxation pilgrimage warfare chivalry and religious orders give readers an appreciation of the multifaceted nature of these holy wars **The World of the Crusades** Christopher Tyerman, 2019-05-23 A lively reimagining of how the distant medieval world of war functioned drawing on the objects used and made by crusaders Throughout the Middle Ages crusading was justified by religious ideology but the resulting military campaigns were fueled by concrete objectives land resources power reputation Crusaders amassed possessions of all sorts from castles to reliquaries Campaigns required material funds and equipment while conquests produced bureaucracies taxation economic exploitation and commercial regulation Wealth

sustained the Crusades while material objects from weaponry and military technology to carpentry and shipping conditioned them This lavishly illustrated volume considers the material trappings of crusading wars and the objects that memorialized them in architecture sculpture jewelry painting and manuscripts Christopher Tyerman's incorporation of the physical and visual remains of crusading enriches our understanding of how the crusaders themselves articulated their mission how they viewed their place in the world and how they related to the cultures they derived from and preyed upon The Archaeology of the Prussian Crusade Aleksander Pluskowski, 2022-06-28 The Archaeology of the Prussian Crusade explores the archaeology and material culture of the crusades against the Prussian tribes in the 13th century and the resulting society created by the Teutonic Order which endured into the 16th century It provides an updated synthesis of the material culture of this unique hybrid society in the south eastern Baltic region encompassing the full range of archaeological data from standing buildings through to artefacts and ecofacts integrated with written and artistic sources The work is sub divided into broadly chronological themes beginning with a historical outline then exploring the settlements castles towns and landscapes of the Teutonic Order's theocratic state the character and tempo of religious transformation and concluding with the roles of the reconstructed and ruined monuments of medieval Prussia in the modern world particularly within the context of Polish culture This remains the first work on the archaeology of medieval Prussia in any language and is intended as a comprehensive introduction to a period and area of growing interest This book represents an important contribution to promoting International awareness of the cultural heritage of the Baltic region which has been rapidly increasing over the last few decades *Pagan in Exile* Catherine Jinks, Tim Stevens, 2004-01-01 After fighting the infidels in Jerusalem in 1188 Lord Roland and his squire Pagan return to Roland's castle in France where they encounter violent family feuds and religious heretics By the author of *Pagan's Crusade* Crusade and Conversion on the Baltic Frontier 1150-1500 Alan V. Murray, 2017-07-05 This volume represents a major contribution to the history of the Northern Crusades and the Christianization of the Baltic lands in the Middle Ages from the beginnings of the Catholic mission to the time of the Reformation The subjects treated range from discussions of the ideology and practice of crusade and conversion through studies of the motivation of the crusading countries Denmark Sweden and Germany and the effects of the crusades on the countries of the eastern Baltic coast Finland Estonia Livonia Prussia and Lithuania to analyses of the literature and historiography of the crusade It brings together essays from both established and younger scholars from the western tradition with those from the modern Baltic countries and Russia and presents in English some of the fruits of the first decade of historical scholarship and dialogue after the collapse of the Iron Curtain The depth of treatment diversity of approaches and accompanying bibliography of publications make this collection a major resource for the teaching of the Baltic Crusades **The Second Crusade** Jonathan P.
