Shostakovich and His World Laurel E. Fay, 2021-06-08

Dmitri Shostakovich 1906-1975 has a reputation as one of the leading composers of the twentieth century. But the story of his controversial role in history is still being told and his full measure as a musician still being taken. This collection of essays goes far in expanding the traditional purview of Shostakovich's world exploring the composer's creativity and art in terms of the expectations historical cultural and political that forged them. The collection contains documents that appear for the first time in English. Letters that young Miti wrote to his mother offer a glimpse into his dreams and ambitions at the outset of his career. Shostakovich's answers to a 1927 questionnaire reveal much about his formative tastes in the arts and the way he experienced the creative process. His previously unknown letters to Stalin shed new light on Shostakovich's position within the Soviet artistic elite. The essays delve into neglected aspects of Shostakovich's formidable legacy. Simon Morrison provides an in-depth examination of the choreography, costumes, and music of his ballet *The Bolt* and Gerard McBurney of the musical references, parodies, and quotations in his operetta *Moscow Cheryomushki*. David Fanning looks at Shostakovich's activities as a pedagogue and the mark they left on his students and his own music. Peter J. Schmelz explores the composer's late period adoption of twelve-tone writing in the context of the distinctively Soviet practice of serialism. Other contributors include Caryl Emerson, Christopher H. Gibbs, Levon Hakobian, Leonid Maximov, and Rosa Sadykhova. In a provocative concluding essay, Leon Botstein reflects on the different ways listeners approach the music of Shostakovich.

The Pianist's Craft Richard P. Anderson, 2012 No pianist can experience the full flowering of her art without eventually grappling with those great musical minds who composed specifically for piano. In *The Pianist's Craft*, Richard Anderson collects from his fellow pianist scholars 19 articles on the teaching, preparation, and performance of works by the greatest composers in the standard piano repertoire. This collection ranges in subject matter from Inge Rosar's meditation on playing Bach on the modern keyboard to Gary Amato's assessment of Haydn's sonatas from Christie Skousen's review of tone production in Chopin to Gwenolyn Mok's foray into recreating Ravel's works on an Erard piano the same used by Ravel himself. Readers will find essays as well on Mozart's piano compositions, Beethoven's sonatas, the influence of Schubert's lieder on his piano works, and works by Schumann, Liszt, Brahms, Debussy, Rachmaninoff, Scriabin, Prokofiev, Shostakovich, Bartók, Gershwin, and Crumb. The contributors all recognized nationally and internationally for their contributions as performing artists, teachers, recording artists, and clinicians write thoughtfully about the composers whose work they have studied and played for years. Each author addresses issues unique to the individual composer they have chosen to explore examining questions of phrasing, tempo, articulation, dynamics, rhythm, color, gesture, lyricism, instrumentation, and genre. Valuable insight is provided into teaching

performing and preparing these great works In The Pianist's Craft these great artists and teachers answer questions for readers that are otherwise only addressed in conferences master classes and private lessons In this collection of essays key points of information and instruction are offered with over 200 musical examples included as illustration The Pianist's Craft is intended for teachers and students of the intermediate and advanced levels of piano instructors and performers at the university level and those who love piano and piano music generally

A Soviet Credo: Shostakovich's Fourth

Symphony Pauline Fairclough, 2017-07-05 Composed in 1935-36 and intended to be his artistic credo Shostakovich's Fourth Symphony was not performed publicly until 1961 Here Dr Pauline Fairclough tackles head on one of the most significant and least understood of Shostakovich's major works She argues that the Fourth Symphony was radically different from its Soviet contemporaries in terms of its structure dramaturgy tone and even language and therefore challenged the norms of Soviet symphonism at a crucial stage of its development With the backing of prominent musicologists such as Ivan Sollertinsky the composer could realistically have expected the premiere to have taken place and may even have intended the symphony to be a model for a new kind of democratic Soviet symphonism Fairclough meticulously examines the score to inform a discussion of tonal and thematic processes allusion paraphrase and reference to musical types or intonations Such analysis is set deeply in the context of Soviet musical culture during the period 1932-36 involving Shostakovich's contemporaries Shebalin Myaskovsky Kabalevsky and Popov A new method of analysis is also advanced here where a range of Soviet and Western analytical methods are informed by the theoretical work of Shostakovich's contemporaries Viktor Shklovsky Boris Tomashevsky Mikhail Bakhtin and Ivan Sollertinsky together with Theodor Adorno's late study of Mahler In this way the book will significantly increase an understanding of the symphony and its context
