*Paideia: The Ideals of Greek Culture: Volume I. Archaic Greece: The Mind of Athens* Werner Jaeger, 1986-10-23 Werner Jaeger's classic three volume work originally published in 1939 is now available in paperback. Paideia the shaping of Greek character through a union of civilization, tradition, literature and philosophy is the basis for Jaeger's evaluation of Hellenic culture. Volume I describes the foundation, growth and crisis of Greek culture during the archaic and classical epochs ending with the collapse of the Athenian empire. The second and third volumes of the work deal with the intellectual history of ancient Greece in the Age of Plato the 4th century B.C. the age in which Greece lost everything that is valued in this world: state, power, liberty but still clung to the concept of paideia. As its last great poet Menander summarized the primary role of this ideal in Greek culture when he said: "The possession which no one can take away from man is paideia." **Paideia: The Ideals of Greek Culture: II. In Search of the Divine Centre** Werner Jaeger, 1986-10-23 This book is intended for Prizes won etc. *Unlearning* Nader N. Chokr, 2013-09-25 One view of education appealing to the Latin root *educare* to train or mold aims to fill students' heads with knowledge and turn them into disciplined, normalized and potentially productive members of the workforce. An alternative appealing to the Latin root *educere* to lead out or draw out wants to produce well trained minds and create individuals capable of questioning, critical thinking, imagination and self-reflective deliberation as engaged citizens. This book commends a third way inspired by the Greek notion of paideia which sees education as the process of educating a person into their true form, the real and genuine human nature. This education is not about learning a trade. It is a dynamic living thing in which the ability to UNlearn is essential for developing a good and capable citizen trained for freedom, autonomy and virtue. **Hebrew Thought Compared with Greek** Thorleif Boman, 1960 Builds on the premise that language and thought are inevitably and inextricably bound up with each other.
