Finding Freedom in Christ: Healing Life's Hurts Matthew Breuninger, 2023-01-27 We all have wounds We all experience the

emotional suffering that arises when we're prevented from receiving or giving love as we were created to. As we orchestrate our lives to hide our wounds and avoid the discomfort of having them irritated, we end up creating anxiety, unhappiness, exhaustion, anger, and a sense of meaninglessness. The good news is that God wants to heal us. In *Finding Freedom in Christ: Healing Life's Hurts*, Dr. Matthew Breuninger examines the nature and causes of our wounds. *Finding Freedom in Christ* outlines a six-step model to help readers identify and remove the barriers to God's healing grace, making deeper conversion possible. Ultimately, the goal of this healing model is to free individuals to love and serve God and one another. ***The 7-Day Back Pain Cure*** Jesse Cannone, 2009-08. Popular treatment approaches like pain medications, muscle relaxants, steroid injections, surgery, chiropractic treatments, acupuncture, and massage therapy may be helpful in relieving pain temporarily, but they often fail to deliver lasting relief because they don't address what's actually causing the pain. **Quo Vadis Medical Healing** S. Elm, Stefan N. Willich, 2008-12-16. Medical healing implies knowledge of the assumptions that underlie our understanding of health and concomitantly how we define well-being and its opposites: illness and disease. Today, health, health care, business, wellness, recreation, and medicine, especially research-driven scientific medicine, have become separate entities with different institutions, budgets, marketing philosophies, and corporate cultures. Furthermore, healing is individual and subjective yet at the same time also culturally determined. The present volume brings together papers on these topics in a unique interdisciplinary approach. The book provides an ethical framework for healthcare from a political perspective. It discusses definitions of the terminology of healing and health and their ethical and medical implications, including their historical contexts. A separate section expands the theme of the cultural constructedness of healing by the concepts of traditional Chinese medicine and homeopathy. Modern medicine has a strong focus on acute care, which urgently needs to place greater emphasis on preventive medicine, including the crucial importance of social factors on health and on the emergence of public health. The point of view of Business Concepts, their potential and limitations, are by no means neglected, and the legal ramifications of genetic research and innovative medical strategies with regard to some of our most foundational notions are discussed. **Yhwh** Monique Churchill, 2020-03-12. Do you think that there is no hope for you? Do you feel that you're too far gone and that life has passed you by? Do you suffer with depression, anxiety, or just feeling like you're a failure who should apologize for breathing? There is hope. If Monique Churchill can claw her way from completely bonkers to sanity, then you can too. Be open to the possibility of choosing YHWH. **Journey to Not Crazy** **Our Light Body** MARY ELIZABETH. RABYOR, 2012-04. Human beings are now evolving into a new species, popularized as the light body that starts to grow when our vibration is high enough to activate DNA that exists in our genes. The growing force increases the vibration of all objects over time. When the old body design no longer thrives in the increased vibratory field, a species-wide metamorphosis triggers. That is where we are today. In early 2006, Mary unexpectedly experienced a kundalini awakening after years of doing meditation. After this, she devoted three years full time to the kundalini transformation and took daily
